A last-minute reminder to Logan corn growers about the referendum Dec. 11 throughout the commercial corn area was issued today by Edward Higgins, Chairman of the Logan Agricultural Stabilization and Conservation Committee.

At issue is the kind of program farmers will use in producing their corn crop for 1957 and later years. If two-thirds of the growers voting approve the corn base acreage program, it will be in effect for 1957 and later corn crops.

The other hand, more than one-third of the voters approve acreage allotments, the allotments will be in effect.

Under a corn base acreage program, Chairman Higgins explained, farmers in commercial corn counties would have 51 million acres allocated to their farms. The corn acreage allocated to each farm would be the basis for eligibility for price support and for participation in the Soil Bank.

The price support would be determined each year by the Secretary of Agriculture according to legislative provisions. For the 1957 crop, the support would be set at a national average of \$1.31 per bushel. Growers would qualify for the supports by complying with their farm corn base acreage and by "reserving" acreage in the Soil Bank equal to at least 15 per cent of the farm corn base acreage.

Under an acreage allotment program, farmers in commercial corn counties would have a total acreage allotment of 37,288,889 acres for their 1957 crop, with a 10 per cent support each year ranging from 75 to 90 per cent of parity, depending upon the supply situation. For 1957, the support would be a national average of \$1.36 per bushel. Farmers would qualify for supports by complying with their farm corn acreage allotment. They could participate in the Soil Bank if they wished.

Both eligible. All farmers — both operators and landlords — who stand in crop are eligible to vote in the

December referendum, Mr. Higgins declared. Landlords receiving standing rent, cash rent, or a fixed rent, however, are not eligible to vote. By now, eligible growers should have received notices of their individual corn base acreages and allotments. Those who have not should get in touch with their County ASC Committee or call at the County ASC Office. Since the outcome is of such vital interest to growers, Higgins pointed out, the vote should be a large one.

## Taking Vote In 34 States

WASHINGTON (AP) — Corn, cotton, rice and peanut farmers in 34 states vote Tuesday in five separate referendums on the type of program and controls they want for their 1957 crops.

An Agriculture Department spokesman estimated nearly 3 1/2 million farmers are eligible to vote on the questions which will materially affect the number of acres to be planted and the income likely to come from them.

The largest turnout is expected in the corn referendum. About two million farmers in 24 states are eligible to vote on which of two alternative price support programs they want to work under next year.

Explained by Benson, Secretary of Agriculture, Benson has announced that if the soil bank's base acreage program is approved price supports will be available in designated commercial corn counties at a national average of \$1.31 a bushel. That would be based on 51 million acres.

Clear he favors the third method, he said, that would be approved by two-thirds of those voting to put it into effect.

If growers approve the alternative, or corn acreage allotment program, price supports will be set at \$1.36 a bushel. This would be based on production on 37,288,889 acres.

## C.D. Office To Shroyer

Larry B. Shroyer, Lincoln city, Civil Defense director, is newly-elected secretary-treasurer of the Central Illinois Civil Defense Council. His election took place Sunday during a quarterly meeting at Decatur.

**Ask Mobile Unit**

## Brutality of Russ Scored

AUGUSTA, Ga. (AP) — President Eisenhower called on free people everywhere today — Human Rights Day — to take fresh note of Russian ruthlessness and never forget "what tyranny has done to our fellow man in Hungary."

Soviet brutality there is cause for "worldwide mourning," for reactions of "horror and revulsion," the President said. He added that it almost completely repudiates the United Nations human rights declaration.

Noting this is the eighth anniversary of the declaration's adoption by the U.N. General Assembly, Eisenhower said in a statement put out at his vacation headquarters at Augusta Sunday night:

"This year the free world has the most compelling reasons for observing Human Rights Day with renewed awareness and resolution, but it has little cause to 'celebrate' that day.

"The recent outbreak of brutality in Hungary has moved free peoples everywhere to reactions of horror and revulsion."

## Set Pattern For S. Claus With Poetry

(AP Newsfeatures)

A flowing white beard, twinkling eyes, cheery red nose and a round belly like a bowlful of jelly. This right jolly old elf, of course, is our beloved Santa Claus. Almost any kid today could tell you that.

But, a little over a century ago, children went to bed on Christmas Eve without visions of sugar plums dancing in their heads or thoughts of eight tiny reindeer pulling a miniature sleigh full of toys.

The reason? Nobody could agree as to exactly what St. Nick looked like. That is, until Dr. Clement Clarke Moore, a professor at Columbia University in New York, wrote his now famous poem that starts: "Twas the Night Before Christmas..."

Up to that time St. Nicholas was anything a parent might wish to impose on his child — a figure tall or short, fat or thin, happy or stern.

But Dr. Moore changed all that with his portrait in words entitled "A Visit From Saint Nicholas."

### Written for Own Children

He wrote it on Christmas Eve, 1822, for his own children. And it might have sunk into obscurity had not Harriet Butler heard it read at the Moore home. She was the daughter of the rector of St. Paul's Church in Troy, N. Y.

She asked permission to read it to the children of her father's parish. She also sent the poem, minus the author's name, to the editor of the Troy, N. Y., Sentinel. It appeared there for the first time on Dec. 23, 1823.

The editor, Orville Hölley, wrote: "We do not know to whom we are indebted for the following description of that unwearied patron of children, that homely but delightful personification of parental kindness — Santa Claus, his costume and his equipage, as he goes about visiting the firesides of his happy land, laden with Christmas bounties, but from whomsoever it may have come, we give thanks for it."

### Pictures Came Later

It didn't appear with the author's name attached until 1837 when it came out in a book entitled "The New York Book of Poetry."

In 1830 the Sentinel employed a wood engraver named Myron King to draw the first picture of Santa to go with their annual poem.

## Giving of Blood Timely at Yule

Dr. D. M. Barringer, chairman of the Logan County Red Cross Blood Bank, expressed hope today that the Christmas season will "move us to give blood as we have not been giving in the last five months."

The pre-Christmas Blood Bank is Friday, Dec. 14, from 11 a.m. until 5 p.m. in the Christian church basement. George H. Brown is Lincoln chairman.

Logan county, Dr. Barringer reports, has fallen 211 pints short of its quota during the past five months. The Blood Bank quota of 150 pints has not been attained for some time, despite the efforts of many active groups and their untiring chairmen.

Special commendation is given by Dr. Barringer to the Atlanta American Legion post. At the November Blood Bank, they brought in 25 donors. Their quota was only 15.

"The Blood Bank," Dr. Barringer states, exemplifies the Christmas slogan that "It is more blessed to give than to receive."

has been translated into dozens of languages — creating everywhere the same picture of joy and generosity, the same feeling of unbounded goodfellowship represented in its final words: "Happy Christmas to all, and to all a good night."

## Market Review

PEORIA — Salable receipts of livestock at the Peoria market for the week totalled 24,800 hogs, 3250 cattle, 515 calves, 2700 sheep and lambs, as compared with 25,550 hogs, 3060 cattle, 590 calves, 2575 sheep and lambs a week ago.

Hog market closed steady although receipts at major terminals continued to decline. Wholesale pork market lower. On Friday mixed grade butchers 180-260 lb 16.25-17.00; uniform 1's and 2's 17.00-17.25; few selects No. 1's up to 17.50, 270-300 lb heavies 15.25-16.00. Light hogs practically absent. Sow market 50 cents higher. Choice sows 550 lb sold from 13.75-15.00. Boars mostly 9.75 and up; lightweights reaching 10.50.

Less choice fed cattle and cows in the run this week. Market slow, prices 50 cents to 1.00 lower. Choice grade showing the full decline. Most choice steers 20.00-22.00; high choice up to 23.50 early. Good grade steers down to 17.00; standards down to 14.00. Choice heifers 19.00-21.00; high choice up to 22.00. Standard and good grade heifers 14.00-18.00. Light thin utility steers and heifers around 10.00. Cows strong to 50 cents higher. Lower grades showing most advance. Utility and commercial cows 9.75-12.00; few 12.50; canners and cutters 7.00-9.50. Bull market strong. Bologna bulls up to 13.25. Most bulls 10.50-12.50. Calf top 26.00. Lamb top 19.50.

The fresh pork trade has hardly kept pace with the live market the past two weeks which leads up to believe the live hog market is doing all it can at

## Take Steps to Correct San Jose Water Problem

SAN JOSE — The San Jose Village Board has engaged the services of the Elbert Well Drilling Co. to make tests in which samples of the water-producing sands will be taken and made available for further study. Then a decision will be made on what course to take to correct the situation. The problem seems to be due to an insufficient amount of infiltration at the last well.

Apparently the suction of the newer type pump is so great that rust and fine sand are being forced through the screen at the bottom of the well, into the pump propellers, causing a stoppage of water flow and thus reducing the production capacity.

At a meeting of the board it was decided to make further exploratory tests starting at the 106 foot depth level, boring on down in an effort to locate a better water producing stratum. When this is done a log of the well will be compiled.

Mayor Wiemer and members of the Water Committee have been in consultation with the Geological survey officials at the U. of I. and with the State Board of Health Water Resources Division Bureau of Springfield. It is hoped that by making the test drillings that a coarse gravel formation will be found at not too great depth so that the rust and fine sand accumulations will be eliminated.

## Dwells on Praise for Recognition

Prof. A. T. Anderson of the agricultural economics extension service of University of Illinois was guest speaker during the annual agricultural award meeting of Lincoln Kiwanis club Tuesday at Hotel Lincoln.

He said at one time it was his job to sell the 4-H program to Illinois business and industry. However, he said, "I found that it wasn't necessary to sell the organization because business and industry already was aware of its value."

### Teaches How to Work

Anderson declared 4-H teaches one basic trait — how to work and how to assume responsibility. This trait gives 4-H youths a head start over other youths, he said, and industry and business often recognize the value of 4-H training when hiring help.

He pointed out that more and more youths go into other fields than agriculture after they finish schooling, even though they were

## Two Dead in City Shooting

CINCINNATI (AP) — Two persons clung to life today in the wake of a shooting outburst that involved two prominent Cincinnati families Friday morning.

Two of one family are dead. Investigators sought to fit together further clues in the shootings that took place in the fashionable home of Lester Aue, 54, vice president of the Drackett Products Co.

**Wife in Coma**  
Aue died almost immediately, as did his daughter, Susan, 17. His wife, Helen, 50, has been in a coma since the shooting, critically wounded in the back. Susan's boy friend, Gordon Pape Jr., 19, has not regained consciousness since a bullet was fired into his head.

Sheriff's deputies said the prime clue was a letter found in the boy's car, written to the girl. It was never mailed.

The letter, investigators said, reproached the girl for refusing to "go steady" with him again.

The .32 caliber revolver found near the youth belongs to Pape's father, an investment banker and president of the Dixie Outdoor Theater Corp.

## Affidavit Filed For No Fair Trial

William S. Ellis, court-appointed attorney for four men facing assault with intent to murder charges here, today filed an affidavit supporting his request for a change of venue.

He filed the affidavit as hearing on the request for change of venue was about to begin in Logan County Circuit Court.

It included news clippings and pictures published in newspapers and said the wide coverage by news media and widespread interest in the county make it impossible for the men to get a fair trial here. Ellis said he interviewed 25 to 30 persons and almost without exception they said the men were guilty of shooting state policeman Robert Golightly and Glenn Nichols.

None, however, would sign a petition to that affect, Ellis said, because they feared public opinion if they did anything to help the defendants.

A note was found in the house addressed to her daughter, Mrs. Clarence Duffy, of Maywood, indicated Mrs. Osterloh had been despondent, police said.

She was born Jan. 13, 1895. Her husband, Bert, preceded her in death. Surviving besides her daughter is a granddaughter.

The body is at the Holland & Barry funeral home. Coroner John Barry will conduct an inquest.

## GOES TO PONTIAC Grants Venue

Four men indicted for the shooting of two state patrolmen near Lincoln will be tried in Livingston county, in accordance with a change of venue order entered by Circuit Judge Frank S. Bevan Saturday afternoon.

Judge Bevan granted a change of venue motion by William S. Ellis, court-appointed attorney for Charles Wesley Young, Donald Gene Johnson, William George Wilfong and Arvid Jopp, all named in an indictment for assault with intent to commit murder.

There is reasonable ground, Judge Bevan stated, to fear that the four men might not receive a fair and impartial trial in Logan county.

### Claims Prejudice

Ellis, in his argument in support of his change of venue motion, stated that there is widespread prejudice in the county against the four because of repeated newspaper stories about the shooting, and about one of the victims, Glenn Nichols.

The court-appointed attorney added that he himself had been severely criticized for defending the men. However, he maintained that it is the duty of an attorney to defend any person asked to do so by the court, unless there is a strong reason for the attorney to refuse.

### Postal Drivers Pass Test Here

Ten postal vehicle drivers in Lincoln will begin the New Year with a fresh look toward highway safety. Postmaster Floyd Durst announced today. All Lincoln postal drivers have qualified for the new U. S. government vehicle operators' identification card which is required by a Law passed by Congress last Spring. Road tests, physical examinations, and safe driver training culminated the intensive safety program in the Post Office department.

All postal drivers in the Chicago region, which embraces the States of Illinois and Michigan, including rural carriers, now have qualified by taking the comprehensive tests. When the program is completed nationwide, all of the postal department's 96,000 vehicle operators, largest fleet of automobile drivers in the land, will have taken the exams. Collectively it is the biggest safety campaign ever accomplished in America.

Lincoln postal drivers have learned to appreciate that safety consciousness is being recognized by compliments rather than by complaints, lodged by patrons. The drivers are instructed that courtesy is contagious and that postal vehicles have no special traffic privileges but must conform to local, county, state and federal traffic laws. The program toward controlling needless accidents has had a favorable effect on the traffic toll.

### Brother of Lincoln Teacher Dies In Construction Accident at Pekin

Funeral services for Warren Hodgson, 54, of Tremont, brother of Jack Hodgson of Lincoln, will be at 2 p. m. Friday from the Tremont Baptist church. Hodgson, father of eight, died beneath an overturned pile driver at Pekin, Wednesday.

Hodgson and William A. Liebig, 70, of Pekin, were driving pilons on the Spring Lake conservation area reconstruction project Wednesday morning.

A carpentry foreman, Hodgson was employed by Jensen & Schaefer during the building of a road and boat dock at the lake. Site of the accident is the former location of the Pekin Sportsmen's club.

**Body Recovered**

The body of Hodgson was removed to the Wilkey Funeral home at Tremont. Burial will be in Antioch cemetery, with graveside rites by the Masonic lodge. He was twice master of the Tremont Masonic lodge, a member of the Peoria Consistory, Mohammed Shrine, Tremont Baptist church and the Pekin Carpenter's local.

## Required to File Request

Farmers who need cost-sharing assistance on soil conservation practices they will undertake in 1937 must file an official request with the county board of supervisors. W. Higgins, chairman of the local A.S.C. committee, reports that "The Agricultural Conservation Practice Act is designed to promote soil conservation in the interest of all our people by extending cost-sharing to farmers for the carrying out of specific approved conservation practices."

The practices tentatively set up in this county for 1937 include and waterways; standard terraces; diversions; small structures; farm ponds; the outlets; contour strip-cropping; contour inter-cropping; pasture or meadow development; additional legumes on cropland; green manure coverings; liming farmland; rock phosphate on cropland; tree planting; forest improvement; drainage ditches, and erosion control structure and dam.

To be eligible for this assistance a prior request must be filed, approval extended by the county committee, and all work completed according to requirements.

Each producer will have an opportunity to participate in this program, Higgins said. Starting Jan. 7 and through Feb. 15 concentrated sign-up will be held.

It should be emphasized, however, explained Higgins, that any farmer desiring to participate in the sign-up of the date set for the work ahead should call at the county office at his earliest convenience and file his request.

**\$750 Millions to  
Farmers in Soil  
Bank Next Year**

WASHINGTON (AP) — Secretary of Agriculture Ezra Taft Benson has allocated \$750,000,000 to make payments to farmers who retire crop lands in 1937 under the soil bank program.

The allocations, announced Wednesday, include: corn \$217,500,000; wheat \$267,500,000; cotton \$217,500,000; rice \$14,000,000; and tobacco \$34,000,000.

Illinois is slated to receive \$14,000,000 in corn allotments, \$500,000 for wheat and \$35,000 for cotton.

For encouragement

The soil bank is designed to encourage farmers to reduce major surplus crop production by offering money to keep cropland for

State allotments are to be apportioned among counties and made available to farmers who sign agreements to place land in the soil bank, the Agriculture Department said.

The deadline for signing cotton agreements will be March 1 and for spring wheat and corn, March 8. Local committees are to start accepting agreements for the spring crops early in January, Benson added.

**Tucker, Auto  
Designer, Dead**

YPSILANTI, Mich. — Preston Tucker, 53, whose plans to revolutionize auto making raised hopes and heartaches, died at a hospital Wednesday.

A native of Capac, Mich., Tucker entered the hospital about three weeks ago suffering from cancer. He was stricken with pneumonia shortly before his death.

With him perished the fading hope that his Tucker Torpedo might yet see in the nation's garages.

Widely Publicized

After World War II, Tucker's plans for a re-organized car gained widespread publicity.

In February 1946, he revealed that the Torpedo would be of tear-drop design with a 150 horsepower engine capable of speeds up to 130 m. p. h.

Revolutionary features included front fenders which turned with the wheels. The aluminum-and-plastic car was to sell for about \$1,000.

Despite assets totaling 28 million dollars at one time, the corporation's troubles multiplied soon after the Securities and Exchange Commission called the Torpedo an "engineering monstrosity" and cautioned prospective purchasers about investing in it.
