What's This? Dogs Going Into Politics in Lincoln

"Mad dogs and Englishmen go out in the noonday sun," but Lincoln dogs have gone even further to prove their lack of common sense, they've gone into politics.

The dogs may not know it yet, but they will. As is usual every few meetings of the Lincoln City Council, the subject of dogs came up Monday night.

Mayor A. M. Feldman, Democratic candidate for re-election, said he noticed that his opponent, Republican Ed Spellman, has promised to get rid of the dog problem.

Finds No Solution

"I'm going to have to talk to Ed," Mayor Feldman said, "and see what he has in mind because I've been trying to get rid of the problem for some time and haven't found a satisfactory solution yet."

The First Ward has one of the most urgent dog problems because of a pack of semi-wild dogs that run the neighborhood. The dogs frequently congregate in First Ward yards to tip over garbage cans and raise whatever other havoc they are able to. When they see the blue uniforms of the officers of the law they take off in all directions, however. Someone has told them the facts of life.

And as Police Chief Earl Minder has pointed out several times, he doesn't have a man in his department who can run as fast as a dog.

There is a city ordinance that prohibits the shooting of dogs. For Higher Fee

Alderman Oran Armbrust pointed out that the city's part-time dog catcher might be more active if the fee for catching stray dogs was raised from \$1.

After all the "barking" on the subject died down the council passed a motion by Alderman Don Shay that gives members of the police department permission to shoot stray dogs.

Oh yes, there is one other thing that is complicating the problem at this time. It is mating season ... for the dogs.

Woman Killed Here

FATAL ACCIDENT—Barry prepares to remove Mrs. Esther Cherry from a car crushed into a freight train at central railroad crossing on

State street here early this morning. Mrs. Cherry apparently did not see the train when she drove her car into it. She was killed instantly. No skid marks were evident at the scene.

State School Supervisor Dies Instantly in State Street Morning Tragedy

Mrs. Esther Cherry, 51, of 130½ S. Chicago St., was killed instantly at 5:15 a. m. today when the southbound car she was driving crashed into an eastbound Illinois Central freight train at the State street crossing.

Mrs. Cherry, an employee at Lincoln State School and a food department supervisor there, apparently was on her way to work when the accident occurred. She had been a state employee, since 1941.

The automobile hit the train about 10 cars back from the engine and the train continued on for some distance before the crew realized there had been an accident. Two Clinton men, O. A. Highland, engineer, and R. O. Fortner, conductor, were on the crew.

The front end of the car was smashed and the rear end also was battered when the moving train pulled the car around.

The steering wheel of the car was smashed into the dashboard.

The death is the seventh this year in Logan county and the third in the city that has been the result of a traffic accident.

The accident was discovered by Russell Brown, 222 22nd st., a taxi driver. He did not witness it, however, it was reported.

SEEKING SIGNALS

The Lincoln City Council has been corresponding with the State Commerce Commission in an attempt to get automatic warning signals at the crossing where the accident occurred and at the Illinois Central crossing on S. Kickapoo street.

At the last meeting of the council a letter from the commission was read which said that if the city wanted to request a hearing and present evidence of the need for such protection, it could do so. The council instructed City Clerk Paul O. Williamson to write the commission and request a hearing.

The body was taken from Lincoln Memorial hospital to Holland and Barry funeral home and has been transferred to Schahl funeral home in Mt. Pulaski. City police and Coroner John Barry investigated the accident. The latter will conduct an inquest.

BORN IN MISSOURI

Mrs. Cherry was born Nov. 13, 1905, in Arbella, Mo., the daughter of the late Alvin and Clara Adell Owen Day. She was married to Ralph Cherry in Elkhart Nov. 10, 1924. He survives as do two daughters, Mrs. Louise Thomas of Lincoln and Mrs. Vera May Meadows of Cornland; and a sister, Mrs. Nellie Laatsch of Saskatchewan Canada. There are also four grandchildren. The deceased was a member of Lincoln

Christian church and Cornland Order of Eastern Star.

Funeral services are to be Monday at Schahl's Funeral Home at 2 p.m. in charge of Leon Appel, pastor of the Christian church here. Interment will be in Mt. Pulaski cemetery. Friends may call at the funeral home Saturday evening, Sunday afternoon and evening.

Harold E. Thomas Injured in Crash

Harold E. Thomas, 123 Edgar st., is a hospital patient at Louisiana, Mo., for treatment of a knee injury sustained near that city Wednesday.

Thomas was reported injured when his car and a truck were involved in a head-on collision.

His condition is not serious, and he is expected to return to Lincoln within a few days.

South Has Snowfall

Snow whirled in the Deep South today, the Associated Press reported.

A chill wind bore the flakes into Atlanta. Earlier, light snow fell in Mississippi as far south as Jackson. An inch of snow was reported at Birmingham, Ala. A few flakes were noted at Mobile, near the Gulf of Mexico.

Wintry weather — just 12 days short of spring — laid down a carpet of snow from Tennessee and Kentucky northeastward to the lower Great Lakes.

Lexington, Ky., had a five-inch snowfall. Two to four inches accumulated in sections of eastern Kentucky and Tennessee.

Seek Compromise On Farm Subsidies

WASHINGTON (U) — A Senate Agriculture sub-committee side-stepped a decision today in the hot congressional battle over new corn legislation by sending seven different bills on to the full Agriculture Committee. Sen. Johnston (D-SC), chairman of the sub-group, said it decided to toss the entire problem back at the full committee for possible action next Wednesday.

WASHINGTON (U)—The House today started a four-day cooling-off period as farm leaders sought to compromise partisan differences over proposed new farm subsidy for corn and feed grain grower.

The legislation was proposed as a means of reducing production glut which have forced down prices in the Midwest Corn Belt. But it brought two days of heated and often personal wrangling over rival Republican and Democratic proposals.

Before it laid aside farm legislation until next Tuesday, the House killed by a seven - vote margin a Republican proposal to give corn growers an expanded planting allotment and a price support floor of 75 per cent of parity.

Parity is a price deemed fair to farmers in relation to their costs.

To shouts of "Now you're talking," Rep. Colmer (D-Miss) suggested that the best thing might be refer the entire dispute back to the Agriculture Committee.

Rep. H. Carl Andersen (R-Minn) likened Thursday's proceedings to a "wake for the farm bloc" which he said in the past had been united in the interests of the farmers.

L.H.S. Actors Win Praise For One-Act Presentations

"There has lately come to this town a band of players that will entertain you. . . . So goes a line from the one-act play, 'Maker of Dreams,' one of three such plays presented Tuesday night at Lincoln college auditorium by Lincoln high school students.

The line applies to the presentation of 'Maker of Dreams,' as performed by Sandra Dehner, Bob Cole and Bruce Krivitsky. They brought Oliphant Downs' play to life. They, indeed, are a band of players that will entertain you.

The play, which was winner of the dramatics festival at the district speech contest at Chenoa Saturday, concerns Pierrot, (Bob Cole) a maker of songs and entertainer, and his show business partner, Peirrette, (Sandra Dehner) plus the 'Maker of Dreams,' Bruce Krivitsky. Pierrot is looking for his dream girl and with a little help from 'Cupid' Krivitsky he finds her in Peirrette.

It was excellent entertainment. A professional critic might have been able to find fault with the amateur performance but this amateur critic found very little to criticize.

"The Shadow of a Dream," is the story of an ambitious state's attorney who finally learns that laws are for justice and not just convictions. David Boyd, as the attorney, and Diane Charter, as his wife, give convincing performances and are aided by Linda Lenz, a maid, and John Bock, a chauffeur.

Diane Butler played the part of a high-voltage gambling joint proprietor and not a man or boy in the audience noticed whether she could act or not because of the tight-fitting dress she displayed so well.

County Highway Supt. Conrad Miller appeared before the board and requested transfer of \$1,000 from the Brookier bridge fund to the Williams bridge fund in Mt. Pulaski township, all within the county aid to township bridges fund.

The transfer was granted, as were township motor fuel tax claims, county motor fuel tax claims, county aid to township bridges and federal aid claims, presented by Miller.

Letter From C-H
Correspondence read to the board included a letter from Philip Ryan, president of Cutler-Hammer, Inc., announcing that a new \$4,000,000 plant would be built near Lincoln. The board instructed County Clerk Leonard McCann to write Cutler-Hammer and express the county's appreciation and pledge cooperation with the new industry.

Another letter was from N. L. Gordon, of the Lincoln zoning committee. Supervisor Henry explained that Gordon was looking forward to the appointment of a zoning committee after the board is reorganized.

Board Chairman Roy H. Johnson and members of the legislative committee will attend a meeting of the Illinois Association of Supervisors and County Commissioners at Urbana on March 27, they announced. The state department of revenue's annual meeting for assessors March 11 through 15 was also announced.

Routine reports read and approved were from the county veterinarian, county mine examiner, county treasurer, sheriff, finance committee, grand jury, and federal housing authority.

Supervisors Henry, Ralph E. Schmidt and Homer T. Brown were appointed by the chairman as a committee to select grand jurors and supplemental grand jurors for the next term of Logan county circuit court.

ran into difficulty in its efforts to get Beck to come before the committee for questioning in an inquiry into labor racketeering.

The President went on to say that it was exactly because they did not want to prejudice the case that plans to send Beck to the ILO meeting were dropped.

Eisenhower added that he personally did not want to prejudice the matter, and that actually he knew not a thing about it.

Under Discussion—
Ethiopia base — Eisenhower said the U.S. has no plans to ask Ethiopia to agree to setting up a military base as such in that country, but that there have been talks dealing with U.S. communications facilities already established there.

Eisenhower was told that Vice President Nixon, now touring in Africa, reportedly had asked Ethiopia for a Red Sea military base.

Those reports also said the United States wants an Air Force communications base and naval anchoring facilities at the Red Sea port of Massawa in Ethiopia. It was at that point Eisenhower said he knew of no plans for creation of a base in Ethiopia, but added this country does have arrangements with Ethiopia for communications facilities.

New republicanism — Eisenhower said that so far as he is concerned the modern republicanism he has talked about frequently has nothing to do with what he termed big budgets, as suggested by some.

Central Power
It deals instead, the President said, with such things as dispersion of central power and having the states and local communities carry a big share of government spending.

America, Eisenhower said, has acted upon the idea of de-

Youth Shot Accidentally

Wayne Zurkammer, 15, of rural Waynesville, a student at Beason high school, accidentally was shot in the back at 9 p.m. Tuesday while he and three other boys were hunting birds in a barn on the Roland Sandel farm six miles northeast of Lincoln.

The other three boys, Richard Parks, Morril Munyon and Murle Cox, all 15 and of Beason, took Zurkammer to Lincoln Memorial hospital. The bullet lodged in his right shoulder and was removed. He was admitted to the hospital and is reported in an "improved condition."

The accident occurred when one of the boys was crawling on bales of hay and dropped the .22 caliber rifle. It discharged when it hit the ground and wounded Zurkammer.

Sheriff William A. Keys and Chief Deputy Joe Scanlon investigated. Beason school officials said the hunt was not a part of the school's pest control program. It was pointed out that guns never are used during the annual pest control contests.

Those holding the lease will have use of the airport landing strips without charge. Ebel explained to the board that there is not now sufficient storage space at the airport for all plane owners, and that several persons are delaying purchase of aircraft until they can have a place to house their plane.

By next fall, Ebel predicted, the airport could use 30 more hangar stalls.

For Changing Law

Supervisors also approved a resolution favoring the proposed change in state law by which motor vehicle licenses would be issued through county clerks, rather than the secretary of state's office.

The motion by Ebel instructs the county clerk to write to Gov. William Stratton and state legislators placing Logan county on record as "for" the bill. State Rep. Robert W. McCarthy is co-sponsor of the legislation.

Farewells to the board were made in brief remarks by Chairman Johnson and Fred J. Armbrust, East Lincoln township supervisor. The board gave Johnson a standing ovation.

Answer 404 Rolls

Armbrust said he has answered roll call 404 times during 31 years as a supervisor, and has served on every committee. First pay he received as a supervisor was \$3 per diem.

Reports approved were from the civil defense, county airport, county officers and special grand jury committees.

The board adjourned at 3 p.m. Thursday. The annual organization meeting is scheduled for 2 p.m. April 23.

Sid Caesar, Playhouse 90 Win Top Emmy Awards

By JAMES BACON

HOLLYWOOD (AP) — If you watched the TV Emmy show Saturday night, it may surprise you to hear that you watched a revolution — of the artists against the admen.

For Madison Avenue wanted Caesar buried, not praised.

The hard-sell boys from the ad agencies admit that Sid, the comic Caesar, is a very funny man. But his production costs come high. That, trade sources disclose, is why he has had a little sponsor trouble recently.

Wins Sweepstake

But the television academy — the one TV group where artists outnumber salesmen — awarded Sid and his show five Emmies. He was one of two sweepstakes winners. The other was Playhouse 90, another expensive exponent of high-quality TV.

Absent, even among the nominees, were the quiz shows, which cost little and are the sponsor's delight. He likes them because he can hang his billboard behind each contestant and commercial.

service series, best coverage of a newsworthy event and best news commentator.

For the first time in recent television memory, no new comedians scored. What Caesar didn't win in comedy Phil Silvers did.

Infant Succumbs

The baby was born in Lincoln Sept. 15, 1956. Besides the parents, survivors are a sister, LaVerne Jean at home; and the grandparents, Mrs. Robert Garrard and Lee Townsend of Lincoln, and Mr. and Mrs. Arthur Washington sr., of Springfield.

Request for Bedwell

Decision Left for Governor to Make

SPRINGFIELD, Ill. (U.S.)—Illinois authorities have taken under advisement a request for the extradition of Edward (Benny) Bedwell to Deland, Fla., where he is charged with raping a 13-year-old girl.

Both the girl and her mother, who testified at the extradition hearing Monday, said they identified Bedwell in a Cook County jail lineup Sunday night.

Paul Hansen, who conducted the hearing for Gov. Stratton, said he will report his findings later to the governor.

No indication was given when Stratton will make a decision.

Bedwell, 21, former odds-job man on Chicago's skid row, was once accused of the slaying of the

Grimes sisters, Barbara, 15, and Patricia, 13, whose nude bodies were found Jan. 23.

Bedwell was seized on the Florida rape charge after dismissal of murder charges in the Grimes case.

No Witnesses Called
David E. Bradshaw, attorney for Bedwell, presented no witnesses at the hearing Monday but asked that Stratton grant Bedwell an interview.

Bradshaw said no fugitive warrant was issued in Florida for Bedwell until Cook County investigators went to Deland and "took it upon themselves to see that a warrant was issued."

Bedwell did not attend the hearing. He is being held in lieu of \$500,000 bond in Cook County Jail. The rape allegedly occurred March 9, 1936, after Benny reportedly met the girl at a carnival.

Fleck Bows To Stratton

CHICAGO (U.S.)—Charles J. Fleck, reportedly named in true bills involving him in a fraud case, has resigned as Cook County public administrator at Gov. Stratton's request.

Fleck, the governor's 1932 campaign manager, told Stratton in a telegram Monday: "Be assured that I am ready and eager to prove in open court its (the charge's) falsity."

Fleck said he was "shocked and amazed at the baselessness" of the charge that he plotted with seven others to defraud the rightful heirs in an estate case.

Fleck's office handles probating of estates of persons who die without leaving wills or relatives in Illinois, and is one of the most lucrative public fee jobs in the state.

Estate Involved

The true bills reportedly voted against him and seven others Friday, the day Stratton asked him to resign, involve the estate of a Polish immigrant. The bills reportedly charge Fleck and the others with plotting to deprive the rightful heirs or the state of the \$50,000 residue of Frank J. Rozanski's estate.

James S. Montana, assistant to the Probate Court judge, also was reportedly named in the bills charging perjury and inducing perjury.

Dr. Barringer No. One Speaker

Dr. D. M. Barringer was voted speaker of the evening at the toastmaster club meeting Monday night at Lincoln Memorial hospital dining room. In his 10-minute speech he pointed out that under various names and disguises certain groups of unscrupulous businessmen hamper scientific experiments on avarice, claiming humanitarian motives when in reality they are impeding progress which is all important to human health and welfare. His speech was evaluated by Frank Musselhorn.

Charles Wilson spoke on, "Automation," and was evaluated by Jesse Johns. Orville Werth spoke on the subject, "Opportunity Knocks," and was evaluated by Frank Mast. Kenneth Schultz was general evaluator. Toastmaster of the evening was Dr. Earl Swan.

Topicmaster William Gossett permitted only 90 seconds for each member to elaborate on any of the following controversial problems: (1) What should be done in the teamster's union situation? (2) Your thoughts on Logan county's juvenile delinquency; and (3) Possibility of a big year in 1937.

Grammarian was Merle Dixon and timer was Ed Kolowski. Harry Bucher, president, introduced visitor Jerry Martin, area governor from Springfield.

Doctors Boost Red Cross Fund

Fifteen Logan county doctors have donated \$305 to the Red Cross fund drive, Joe Scanlon, drive chairman, reported today. More doctors are expected to contribute.

Dr. D. M. Barringer is head of the drive among the doctors and said they are contributing because they recognize the importance of the Red Cross' blood bank program.

Scanlon reports he has \$3,200 so far in the drive. The goal is \$11,169. Only one township has filed a complete so far.

STILL DIGGING:

Spring Snowstorm Death Toll at 36

(By The Associated Press)

The death toll stands at 36 in the spring snowstorm which hit the Western Plains over the weekend and in the area it hit hardest there was a feeling today it had brought only limited drought relief.

New Mexico stockmen said they would have been better off without the snow. Some lost their entire herds in the mountainous drifts.

Still Digging Out

The six-state high plains area which got up to 14 inches of snow and drifts as high as 30 feet still was digging out today. But trains were starting to move again and at least the main roads were open, except in western Kansas.

Thirteen persons in three cars and a truck were uncovered Tuesday night by a road crew on U.S. 50 near Garden City, Kan. They had been snowbound three days but all were reported in good condition. They had been carrying some food.

The six-state area where the storm was a full-blown blizzard — southwest Nebraska, western Kansas, eastern Colorado, northeast New Mexico and the Oklahoma and Texas Panhandles — shakes up a large part of the plains area hard hit by five years of drought.

But the blizzard's 70-and 80-mile winds scoured much of the crop and grazing land almost bare as they piled the snow up in high drifts.

Crop experts in Kansas, Okla-

hom, Nebraska and Texas said the snowfall brightened the drought picture but there was not near enough moisture to break it.

Oklahoma reported heavy damage to peach, pear and plum trees which were in full bloom when the blizzard hit.

The weekend storm lost most of its power and size as it moved into the northeast section of the country. Precipitation extended from Lower Michigan through Ohio and eastward through Pennsylvania and Maryland.

Snow fell in northern areas of the wet belt from Michigan through the western half of Pennsylvania and rain and drizzle was reported in other sectors. Falls were light except in western Pennsylvania, which reported a 2-to-6-inch fresh blanket.

Refuse to Answer

CHICAGO (U.S.) — Questions from the House Un-American subcommittee were parried by nine witnesses through use of the first amendment in a hearing Tuesday on subversive influences in the nation's foreign language press.

The subcommittee headed by Rep. Doyle (D-Calif.) expected to end its two-day hearing today.

All nine witnesses sought refuge in the Constitution, most of them with this stock reply:

"Since, not wishing to be party to anything I feel is endangering the freedom of the press in this country, I invoke the first five amendments of the Constitution."

Merger of Logan Education Associations Being Pondered

Newly elected officers of the Logan County Classroom Teachers association and the Logan County Schoolmasters club have been authorized by their respective organizations to meet to consider merger of the two groups.

The merger was proposed during a joint meeting Wednesday evening at Northwest school. A potluck dinner was enjoyed by members of both organizations, with a birthday cake commemorating the 100th anniversary of the National Education association being served. Miss Marie Martin, of Lincoln, president of the Illinois Education association's central division, assisted in planning the affair.

Classroom Teachers elected Mrs. Florence Martin, of New Holland, a teacher in the Mt. Pulaski grade school, as their new president. She succeeds Miss Serena Wertheim, Lincoln, school nurse.

Others Elected

Also newly-elected was Miss Delka Dean, Chestnut, who succeeds Miss Mildred Kurtz as treasurer. Officers who have one more year to serve are: Mrs. Dorothy Fay, vice president; Miss Jean Joos, recording secretary; and Mrs. Gladys Hertzfeldt,

corresponding secretary.

The Schoolmasters club elected Joseph Kafka, principal of Mt. Pulaski community consolidated school, as their new president. George Proctor, Lincoln community high school biology teacher, is new vice president; and Leonard Juhl, coach at Mt. Pulaski community consolidated school, is secretary-treasurer.

The proposal that the two school organizations join forces was made as a tentative suggestion, with a possibility of a new name for the combined group such as the Logan County IEA. Meetings of the men's and women's groups would continue to be separate, with two joint meetings annually.

Speaks in Favor

Miss Martin, who spoke in favor of the merger, said that if the groups were combined as one effective organization, a better selection of delegates to the Illinois Education association would result.

Speaker for the evening was Stewart Williams, of Springfield, from the state IEA office, who congratulated the local groups on their enthusiasm and for "looking forward to the next 100 years."

Pending legislation was described by Williams, who opposed the proposed amendment to the teachers tenure law and a transportation bill.

Legislation regarding school holidays, he said, has not yet been introduced, and a survival benefit program is also being planned. Williams stated that the proposed holiday law would allow schools to observe holidays on Monday when the legal holiday falls on Sunday.

Reports given at the meeting included trends in legislation, by Mrs. Dorothy Sandelben, and membership, by Leonard Juhl.

Draft Boards Confer Here

Selective service obligations in relation to the participation of young men in the armed forces reserve program were discussed at a special conference of area Wednesday evening at Hotel Lincoln.

Attending the annual dinner meeting were 62 from Logan, Christian, DeWitt, Livingston, Mason, Macon, McLean, Menard, Peoria, Sangamon, Tazewell, Shelby and Woodford counties.

Roy E. Weaver, chairman of the Logan county board 157, and local board members were hosts for the affair. Attending were Col. Paul G. Armstrong, state selective service director, Capt. James H. Voyles and Lt. Nathan Carmen.

Col. Armstrong told the conferees, "Under present world conditions one of the important functions of the selective service system is to help build a strong ready reserve in all our armed forces." He described the newly announced program which allows men over age 18 1/2 to enlist in the army reserve (including the National Guard), where they must serve an initial period of six months on active duty for training followed by five and a half years satisfactory service in the ready reserve.

"If a man wishes to enlist in this program he must do so before his selective service local boards mails him an order to report for induction," Col. Armstrong said. "Once the induction order is mailed he can no longer enlist but instead will be inducted for two years of active duty."

It was emphasized by Col. Armstrong that a man enlisting in the new reserve program must complete a full six months of active duty for training, otherwise he will be subject to induction by his local board even though he is a member of the reserve (including the National Guard).

the LIGHTER side

By BOB LITER

A reminder of days gone by was seen at the Lincoln post office this week. Someone shipped a horse collar through there to McLean. Postmaster Floyd Durst, who has been at the post office 10 years, says it is the first one he has seen go through the mail. George Zeter has worked at the post office for 30 years and reports it is the first one he has seen there in a long, long time. It wasn't wrapped nor packed in a box. It just had a shipping tag attached.

Oldtimers will remember that horse collars used to be manufactured in Lincoln.

Oldtimers also will remember that the Chicago Cubs used to finish in the first division of the National League once in a while — which gets us into the subject of baseball. Now is the season when all the experts come out with the annual predictions on which teams will win the pennants.

As several individuals will testify, I'm no expert, but I'll predict anyway. I predict that the Chicago Cubs will finish. Don't laugh, especially if you are a Cub fan, because some experts are predicting that they won't.

Mrs. A. E. McNeil of New Holland wasn't able to attend the annual March of Dimes dinner here Tuesday night but she wasn't forgotten. Hospitalized here, the next day she received a "get well" card signed by those who attended the dinner. Mrs. McNeil is a veteran in M.O.D. leadership. She served many years for Sheridan township.

QUESTION OF THE WEEK — What is the best way to make squeaking shoes stop their infernal racket? One answer, of course, is to burn them in oil, but there must be a more practical way.

Here is some news men, and I know it is true because I saw it happen. Women models at the Spring Style Show this week at Lincoln high school gymnasium were required to make costume changes every six minutes — and they did it. How is it that it takes them 10 times that long to get at home for a big occasion?

Perhaps I'd better explain that I didn't actually "see" these quick changes at the style show. I was back stage though and was told that most of the models had six changes to make and were required to make them in six minutes.

And so there you are ...

TO TEETER FOR RECORD

STOCKTON, Calif., (U)—Two College of the Pacific fraternity brothers — apparently prompted by growing signs of spring — said today they'll try to set a new world teeter-tottering record next week.

A world record of 100 hours is claimed by the college's Alpha Kappa Phi fraternity—set in 1951 on the occasion of COP's centennial observance.

Each weighs 215 pounds. The teeter is 25 feet long and a foot wide. One plans to keep the teeter going while the other—tied on—sleeps.

Lincoln Couple Trapped by Blizzard in Texas Village

Lincoln sunshine, while not as warm yet as the California variety, still looks pretty good to Mr. and Mrs. Art Gimbel, 410 N. Elm st. A week ago they were trapped, along with hundreds of other travelers, in the Texas Panhandle during the blizzard.

They were on their way home from California where they had visited a daughter and other relatives.

The storm forced them to stay three days in Vega, Tex. It is a town of 820 and 500 travelers were trapped there. The Gimbels were fortunate enough to find a family to take them in but most of the other travelers stayed in a school building and the courthouse at Vega.

"We were continuing our trip homeward a week ago and there was no sign of a blizzard as we started the day's driving," Gimbel remembers.

"However, we had driven only about 20 miles that morning when we ran into snow and it was only a few more miles until it was a full-scale blizzard."

"We decided there was no point in trying to turn back and continued with the rest of the traffic, going only eight miles an hour. At one point we were stalled for almost four hours because of an accident ahead of us. Finally we got near Vega and

when we were stalled again we saw a cafe nearby and ducked into it. The wind was blowing at 75 miles an hour and soon after we left our car it was covered with snow."

"We stayed in the cafe for seven hours while we used the telephone to find a place to stay," Gimbel said.

The family that provided shelter for the Gimbels had a problem of its own. The father was marooned in a nearby town because of the storm. So Gimbel took on the duties of the man of the house during his stay.

He said the drifts around the house were up to the roof and the children had a great time; later when they could get out by sliding sleds from the roof of the house right out onto the drifts.

The snow had frozen hard enough so that a person could walk on top of the drifts. He said it was necessary to shovel through the drifts to get a way out of the house.

The travelers were trapped in Vega Saturday, Sunday and Monday.

Seven deaths were recorded in the area because of the storm. Exhaust fumes in cars killed most of the persons. Gimbel said persons would become stalled along the highway and leave their cars running to keep warm. The snow would quickly drift up around the car and shut off the exhaust pipe so that the fumes would go into the cars.

Drama became common place during the blizzard. One of the travelers went out of his mind at the school house.

A child with a high fever was picked up by a helicopter on another occasion and delivered to a hospital.

As Gimbel puts it, "it was quite an experience but we wouldn't want to live through one like it again."

Resume Trial Here Monday

Trail of a \$20,000 damage suit will resume in Logan county circuit court at 9 a.m. Monday, when time defense testimony is expected to begin.

Evidence for the plaintiffs, Victor and Mary Jane Becker, of Middletown, was presented during the week. Their last witness, who completed testimony Friday afternoon, was Everett O. Hull, Peoria consulting engineer.

Defendant in the action is Henry C. Stahl, of Elkhart, who sold a furnace to the Beckers. Plaintiffs allege that the furnace was faulty and caused a fire that destroyed their farm home.

Judge Frank S. Bevan Friday afternoon recessed the trial until Monday morning.

May Have Assistant

Members of the Logan county agricultural extension council will meet at 7:30 p.m. Monday, April 1, to discuss the possibility of hiring a summer assistant to aid the farm adviser with 4-H club work. His duties would also include setting up sites for weed control demonstrations, which

Precipitation brought by this week's snow was welcome for Logan county farmland.

As a result of moisture during the fall and winter seasons, the ground is mellow and in good shape for working. This week's snow interrupted the work of oat seeding which is at the top on the farm calendar.

Then will come the rest of the plowing in anticipation of corn and soybean planting. While some plowing has been accomplished, most of it remains to be done.

With indications Logan farmers are not going along with the soil bank, large plantings of corn and soybeans are expected by farm authorities.
