Mason City Pair, Emden Woman Die

Logan county's traffic death total today stands at 15, seven more than the total for the entire year of 1956, as the result of an early Sunday morning one-car crash that killed two Mason City youths.

The dead are Jack L. Liesman, 17, son of Mr. and Mrs. Paul Liesman, and Thomas A. Bradley, 22, son of Mr. and Mrs. Chauncey Bradley.

Another traffic accident, this one west of Mackinaw on route 9, killed a Logan county woman Sunday. She was Mrs. Ardis Terviel, 36, of near Emden. She was one of three persons killed in a head-on crash.

The Mason City youths were fatally injured when a car Liesman was driving went into the ditch between lanes on route 66 near Broadwell and crashed into a raised sidewalk crossing over a small ditch.

Liesman's car was headed north at 12:46 a.m. when it left the pavement and traveled 330 feet in the ditch before crashing.

The car apparently was traveling at a high rate of speed. An unidentified witness said the car passed his and later he passed it as the youths had stopped to

CAMERON, La., the hardest-hit community in the path of the 105-mile-an-hour winds unleashed by the Hurricane Audrey, is in ruins. In the background is the court

SLOW DOWN

Logan county so far in 1957 — and the year is but half gone — has recorded 15 traffic deaths.

Five have died in non-collision accidents and in each case, speed was a contributing factor.

With the Fourth of July holiday ahead, Sgt. Paul Zimmerman of the state police points out what can happen when one is driving too fast.

examine their tires.

The witness said the Liesman car later passed his again and a short time after that he came upon the wreck.

Liesman was born in Lincoln. Liesman died before reaching the hospital and Bradley died at 4 a.m. Sunday at Lincoln Memorial hospital. The bodies were taken to Henderson-Jennings funeral home at Mason City.

State Policemen Robert McKay and Joe Miller and Coroner John Barry investigated the accident.

Mrs. Terviel suffered fatal injuries when a car her husband apparently was driving collided with a car driven by Richard Larimore, 24, Mackinaw, at the top of a low hill. Two witnesses reported the Larimore car was in the wrong lane when the head-on crash occurred.

Other persons killed in the accident were Larimore and his wife, Joanne, 21.

The three traffic deaths brought the total for this year in Tazewell county to 23. At this time last year in Logan county the total was five.

Mrs. Terviel's husband, Paul, 37, is in Hopedale hospital at Hopedale with injuries described as a fractured skull, a broken arm and leg and internal injuries. The Treviels' daughter, Linda Kay, 12, also was injured, but is not in serious condition. It was reported today. She also is at Hopedale hospital. Authorities at the hospital today said Terviel's condition is satisfactory.

Striving to Save Cattle At Cameron

CAMERON, La. — Portable pumps went into the fight today to save some 15,000 to 20,000 head of Cameron parish cattle that survived Hurricane Audrey.

An estimated 50,000 to 70,000 head perished in the storm and the high tides that accompanied the hurricane and contaminated the surface water supply available for those surviving.

Agricultural Agent Hadley Fontenot, Sheriff O. B. Carter and Cameron area cattlemen placed the problem Sunday before State Agriculture Commissioner Sidney McCrory and civil defense officials.

CAN BE MOVED

Arrangements were made for overnight shipment into Cameron of several portable gasoline pumps for use on deep water wells.

The pumps can be moved from one well to another and make available sufficient fresh water to avert possible complete loss of the cattle still alive.

"What we need is fresh water," Carter said. "If we don't get it within three days we can expect that 60 per cent of the cattle still on hand will be dead and a fourth day will wipe out the remaining 40 per cent."

DEBATING:

Congress Acts to Assure Money for U.S. Agencies

WASHINGTON — The government started its new financial year today with some of its larger agencies not yet financed by Congress.

To cope with the situation, the House Appropriations Committee called an emergency session. It planned to send to the House for action later today a stop-gap resolution providing temporary funds for agencies whose annual money bills haven't cleared Congress.

In the technically "broke" group are the Defense Department, the Atomic Energy Commission, the Tennessee Valley authority and the International Cooperation Administration, which handles the foreign aid program, plus several smaller agencies.

Awaiting final Senate action today also are House-Senate committee agreements on the Agriculture and Interior Department money bills.

Actually, the agencies have enough money to tide them over until Congress acts, provided it doesn't delay too long.

CAMP WHITTINGTON, Japan

— The U.S. Army today granted Specialist William Girard permission to marry his Japanese fiancée. The young soldier tentatively set Friday as the date for the wedding.

LONDON — The United States was reported ready today to suspend atomic and hydrogen weapon tests if the Russians promise to negotiate ban on all nuclear arms production.

GOLDENDALE, Wash.

— Four weekend climbers, stranded overnight on a gleaming ice fall high on snow-covered Mt. Adams, were rescued early today, cold, tired and hungry but otherwise unharmed.

SAN NICOLAS ISLAND, Calif. (AP) — Scientific personnel on this bleak Navy-controlled island have fired the first rocket of the International Geophysical Year—and are ready to fire another at a moment's notice.

The 14-rocket program is part of the IGY study of solar flares, those unexplained disturbances on the sun which cause radio fade-outs.

Devices in the nose of the projectiles will relay data picked up high in the sky back to the island via radio signals.

Largely a "shakedown" for the rocket and equipment, the initial firing Monday was termed highly successful by the scientists in charge. The next firing will take place at once when a flare is confirmed.

Rockets used are the 10-year-old Deacon type with a booster section from a Nike guided missile. With the detector instruments in the nose, the rocket proper in the center and the Nike booster at the rear, the projectile is 20 feet long and weighs 1,500 pounds.

Monday's rocket rose 75 miles at a maximum speed of 5,000 feet a second. The Nike pack dropped off 2.9 seconds after the launching.

Plunges In Ocean

Thereafter the Deacon coasted for 13 seconds before its own fuel supply cut in, carrying it the rest of the way to the 75-mile height in 2.85 seconds.

Then the spent rocket plunged into the ocean some 25 miles to the seaward side of this island, 60 miles off the coast of the Navy's air missile test center at Point Mugu, Calif., which is approximately 50 miles north of Los Angeles.

A major purpose of the program here is to study the intensity of electrification in the ionosphere caused by solar flares. The ionosphere is the upper atmosphere 50 to 65 miles from the earth.

When the lower ionosphere takes on a high charge, short-wave radio reception is blocked out.

Atom Test Shot 'Like' 535 Traffic Toll Feared

Increase in Pace Of Death Darkens Holiday Celebrating

(By THE ASSOCIATED PRESS)
Traffic deaths across the nation mounted today at a pace which safety experts said would reach the estimated 535 for the four-day Independence Day holiday if it continued.
Hundreds of highway accidents Thursday night resulted in what safety officials termed "an alarming spurt" of traffic deaths as motorists packed highways homeward bound after Independence Day outings.
The count of dead from traffic mishaps stood at 150 today.

In addition 96 died from drowning and 29 were killed in miscellaneous accidents for a total of 284. There were no deaths from fireworks.

Deaths counted in the long holiday over the 102 hour period from 6 p.m. local time Wednesday to midnight Sunday.

Picture Changes
National Safety Council experts, who had predicted 535 traffic deaths for the holiday period, had been "encouraged" by the early reports as the toll appeared running a little below a nonholiday Thursday.

But with the heavy increase during the night, a Council spokesman said if the pace continued, the Council's estimate of 535 deaths "could be matched."

The Council urged drivers and enforcement agencies to work together to hold down the highway fatalities.

If the estimated 535 toll is reached, it would be a new record for the Independence Day holiday. The current record is 451 set in the Fourth of July holiday of 1950.

By Comparison
For the one-day July 4 holiday last year there were 137 traffic fatalities. The overall total, with 77 drownings and 33 miscellaneous accidental deaths, was 253.

An Associated Press survey in a nonholiday period, from 6 p.m. Wednesday, June 13, to midnight Sunday, June 23, showed 773 traffic fatalities. It was made for comparative purposes with the current holiday period.

The worst drowning tragedy occurred in Anasco Lake near Leesville, La. Six persons aged 8 to 20, drowned when five panicked as they attempted to rescue one of the group. A county coroner reported that the group at a picnic dropped into 20 feet of water while wading.

Five persons who attempted to rescue him drowned near a spillway. All of the victims were Negroes.

ST. LOUIS (U. P.) — Residents of St. Louis Park in southern St. Louis County shoveled away mud and debris today as they moved back into homes and businesses which had been under flood water Tuesday.

HOUSTON, Tex. (U. P.) — Huge Roy Cullen, 75, oilman who earned over 100 million dollars for philanthropy after building a tremendous fortune, died Thursday night. He had been ill for three months.

CHICAGO (U. P.) — Live hog prices today advanced to a top of \$22.50 per hundred pounds, the highest price since June 22, 1955.

Light receipts and a big boost in wholesale pork cuts were main reasons for the advance of 50 to 75 cents in hog prices.

CHICAGO (U. P.) — Mrs. Lucetta Galbraith's scalp was torn from her head after her long dark hair was caught in a cabin cruiser's propeller shaft Thursday.

Mrs. Galbraith, 50, San Francisco, her head wrapped in toweling to stop bleeding, was rushed in an ambulance to Brookside Hospital in this San Francisco Bay city.

Surgeons sent Deputy Sheriff Lester Clark racing back to the boat harbor to cut free the scalp skin, tightly tangled by hair to the shaft.

Clark rushed back with the scalp and surgeons stitched it on Mrs. Galbraith's head. They hope the operation will result in a successful healing and restoration of scalp and hair.

CAUGHT IN SHAFT
Mrs. Galbraith, a bookkeeper, caught her hair in the shaft as the inspected bilges in the 30-foot cruiser. T. N. Henry of San Francisco, piloting the boat, heard her scream as he backed down the boat.

He stopped the engine, cut Mrs. Galbraith free, then ran the boat to a dock and called an ambulance.

"Get me to the hospital quick," she pleaded. "And please keep my eyes covered. I feel much better with my eyes covered."

The hospital reported Mrs. Galbraith's condition was satisfactory.

Stratton to Veto Bill on Jai Alai, Says

CHICAGO (AP) — Gov. William C. Stratton has said he "definitely will veto" a bill to stop the sale or trading of cars on Sunday and indicated he will also turn thumbs down on the controversial bill to legalize jai alai.

The governor declined to state definitely that he will veto the jai alai bill but implied the measure stands little chance of becoming law.

Stratton, during a Chicago stop-over Thursday after a vacation-business trip to the east, said: "There certainly is no great public demand that I can see for more legal gambling facilities in Illinois."

He added that "once I read the bill, I will be able to decide if in five minutes. A week from now the whole thing will be forgotten."

As a matter of policy, I expect this bill should be vetoed. Folks now have ample chances to indulge in legalized gambling at our race tracks."

Stratton declared he knew nothing of reports that bribery of legislators sped the measure through the statehouse. J. Waldo Ackerman Jr., Sangamon County state's attorney, said Wednesday he would place the matter before a grand jury if any evidence is found.

Sponsors of the bill to legalize betting on the "handball" type game were representatives J. Horace Gardner (R-Chicago) and James D. Carrigan (D-Peoria).

Concentration of Icebergs Reported

NEW YORK (U. P.) — A heavy concentration of icebergs in dense fog off Newfoundland was reported today by the captain of the Greek liner New York on the ship's arrival here today.

Capt. George A. Georgiou said he never before had seen such a concentration in that area at this time of year.

He said 55 icebergs, one looming 150 feet above the water, were counted on the ship's radar in a 12-hour period starting at 6:20 p. m. last Monday. Six other vessels in contact with the New York counted 250, he said.

"I believe there were many more," Georgiou told newsmen. He said the ship followed a zig-zag course to steer clear of the icebergs and that he went sleepless for 72 hours.

(Continued from page 1)

Feldman was active in fund drives for several organizations here including the Salvation Army, Red Cross, Boy Scouts and March of Dimes. He was born Aug. 15, 1884, in Lincoln, the son of Bernard and Elizabeth Bourger Feldman. His parents for many years were operators of the Central hotel here. At the services Monday Mgr. Leo P. Hankel will be in charge and burial will be in St. Mary's cemetery. Feldman married Mary Hasenstab at St. Mary's church here in 1906. She died in 1932. He married Gladys Tinsley March 19, 1933, at St. Mary's church. Survivors include his wife; his son Carl; a daughter, Mrs. John Coogan, Lincoln; a brother, Harry, of Lincoln and two sisters, Mrs. Fred Elmer and Mrs. Harry Hess, both of Lincoln; five grandchildren and one great-grandchild. Five brothers and three sisters preceded him in death.

THIS PICTURE of Mayor Feldman was taken as he conferred with Police Chief Earl Minder after passage of a curfew law which the Mayor supported.

PEEVED AT FAST DRIVER TELLS POLICE

One of the first persons to be fined for exceeding the new speed limit on route 66 is Adolph Kalma, 24, Chicago. His fine was the result of an angry citizen's willingness to sign a complaint against him. Dr. E. R. Lowe, Lockport, was driving south on route 66 Wednesday, he reports, when Kalma zoomed around him and almost ran him off the road while passing. Dr. Lowe noted Kalma's license number and pursued him. "I had to drive at speeds up to 90 miles an hour to keep him in sight," the doctor reported. Dr. Lowe saw State Policeman Robert McKay's patrol car and stopped and told of the incident. McKay found Kalma with his car stalled from overheating near Lincoln. The license number was the same that Dr. Lowe had noted. Kalma was taken to Edward Gehlbach's court where he was fined \$10 plus \$1 costs. The speed limit during the day on four-lane highways, such as route 66, is 70 miles an hour. On two-lane highways the daytime limit is 65 miles an hour.

Test Flash Makes Great Show

ATOMIC TEST SITE, Nev. (U. P.)—The spectacular pre-dawn flash from today's atomic explosion was seen over a wide area of the western United States today. The Atomic Energy Commission had issued unprecedented warnings to motorists and others in the vicinity of the test site to beware of flash blindness. There were no immediate reports of any such cases. The huge yellowish flare-up was a fine show for many. At Los Angeles In Los Angeles it was seen as a brilliant flash covering the entire heavens, followed by a glow of a second or more. The glow doubtless was from the flaming atomic fireball. In San Francisco, where it was foggy, observers likened it to a "bright flash of sheet lightning."

Treated for Injuries Here

Three emergency cases were treated at Lincoln Memorial hospital today. Richard Danley splashed gasoline in his eye at the Four Corners Standard service station. His address is rural route 1 and he is 17. Treated for an injured right elbow was Robert Kroy, 213 Purcell st., 40. He is employed as a carpenter at the Cutler-Hammer site. Delmar Zumwalt, 36, New Holland was treated for a sprained back. He was released. Treated at St. Clara's hospital Thursday was Eula Claybourn, 61, 129 Ninth st., after she fell at home and fractured her ankle. Injuries reported today were Aaron Riggs, 28, 7, F. 3, who suffered a possible back injury. He was caught between two cars. Mary Wright, 29, 322 Fifth St., ran her leg through a washing machine wringer. She suffered an injury to the first finger of her right hand.

CRASH TRESTLE

EDENTON, N. C. (U. P.)—Two diesel engines and the front cars of a freight train crashed through a 5.1-mile railroad trestle spanning Albemarle Sound early today. Three crew men were rescued and two others were reported missing. J. C. Poe, general superintendent of the Norfolk Southern Railway, said in Raleigh today two men were missing. S. L. Bray of Raleigh and W. M. Menden of Norfolk, Va.

Test Flash Makes Great Show

It was "very bright" in Salt Lake City. The concussion was widely felt in southern California. Some of them were awakened by it. In Los Angeles it came as a sharp jolt. At Lancaster, in California's Antelope Valley, sheriff's deputies said they could see the mushroom cloud rising into the clear dark sky more than 200 miles to the east. At Klamath Falls in southern Oregon, some 500 miles from the test site, residents said the flash "lit up the sky." It was also seen along and south of the Mexican border. Radius of visibility of the big flare-up was something in excess of 500 miles. Los Angeles is about 250 miles from the test site, San Francisco and Salt Lake City about 350.

COSTS FOR JUSTICE UP

The cost of justice, never an inexpensive item, has gone up this week signed a bill which increases the fees collected by police magistrates and justices of the peace.

Under the new law \$4 instead of \$3 will be the cost in advance of each case handled with an additional \$4 fee if the defendant appears and contests the charge.

Fees for issuing a mittimus or transcript jump from \$1 to \$2.

Logan county justices of the peace and police magistrates are paid from the court-cost fees they collect. Stratton Signs Bill Requiring Lobbyists Register in Illinois

SPRINGFIELD, Ill. (AP) — Registration of lobbyists, keeping election polls open an extra hour to 6 p.m. and raising the state auditor's bond from \$50,000 to \$500,000 were among bills in the latest batch signed by Gov. Stratton.

Stratton Wednesday signed into law the lobbying measure sponsored by Rep. Paul Powell (D-Vienna). It was chosen by the Legislature over a tougher one proposed by Sen. Egbert Groen (R-Pekin).

Must Register
The Powell bill requires lobbyists to register so they may be identified in a pamphlet circulated among the lawmakers. It forbids lobbying on a contingency basis, or a promise of compensation with the understanding that a certain bill passes or fails. Violating any of the new law's provisions calls for a fine of up to \$200. A \$5 registration fee is charged.

The Groen proposal, which died in the House, was criticized by some lawmakers as being too strict, particularly in the matter of accounting for money paid to influence legislation.

Stratton also approved measures:
Requiring physical examination of children entering kindergarten.
Authorizing the state Health Department

to examine public swimming pools and to close any bathing area if necessary to prevent spread of infection and disease.

Requiring that a persons seeking a license for holding boxing or wrestling matches file a statement showing he is of good moral character.

Have to Read, Write
Providing that election judges must be able to speak, read and write English and have a working knowledge of arithmetic.

Denying state aid to any school district where there was racial or religious discrimination in hiring of teachers.

Pay to Relocate
Calling for the state to pay the cost of relocating utility facilities when it is necessary to move them because of highway work.

Only in Emergency
Prohibiting eavesdropping through electronic devices except in cases of police emergency.

Prohibiting re-sale of magazines and books whose covers have been removed or obliterated.

Allowing school teachers a duty-free 30-minute daily lunch period.

Requiring that child care facilities be licensed by the state Welfare Department.
Exempting Chicago Transit Authority from the public utility tax, permitting the authority to use Chicago Park District streets without paying for it and allowing the CTA to extend its existing facilities without a referendum.

Report June Reader Gains

In the monthly library report for June, Mrs. Claire Kresse, librarian, reveals that a total of 5,045 books have been read. This is one of the biggest months for many years, says Mrs. Kresse. Last year for the same period of time only 4,529 books were taken out. Of this total, 3,265 were read by children, which is an increase of 445 over last year.

Fiction claims 2,309 readers with an increase of 279 and travel has 555.

Seventy-three new persons have registered at the library with 25 of these from the county. This is the largest number ever registered from the rural area in one month, Mrs. Kresse reports.

Mrs. Kresse says there is still seven weeks for children to enter the summer reading program at the library. She would like to have more children interested in the program.

Linda Allen continues to lead the program having read 42 books about states and 52 other books for a total of 94. Dianne Lehnert is second with books about 35 states plus 44 other books making a total of 79. Both girls represent Washington-Morroe school.

Asks Trip For Dulles

WASHINGTON (U) — Sen. Mansfield (D-Mont) proposed today that Secretary of State Dulles visit eastern Europe for a "first-hand exploration" of changes behind the Iron Curtain.

And Mansfield called on the administration to abandon what he said is its policy of "irresponsible fear" of Russia and shift to one of "positive action for peace."

The senator criticized Dulles for denying American newsmen permission to report "first hand" on developments inside Red China. At the same time, he said he had "every confidence" Dulles will "bring the China press coverage incident to a conclusion in the near future." However, he told reporters, that was simply "a devout hope."

Special calls were made to both hospitals and Lincoln State School in connection with the operation.

A second air raid warning was received at 4:06 p.m. and the all-clear signal was given 13 minutes later.

Lincoln Man Contributes Dog For Seeing Eye Pl

"Rinty," a male German shepherd dog that formerly lived in Lincoln, has begun learning the way of the land in Indiana with his new master, James C. Prather, who is blind.

The seeing-eye dog for the Indiana man was made possible through a contribution of Rinty by William D. Loeffler of Lincoln to Leader Dogs for the Blind, Rochester, Mich. Rinty recently received his degree as a Leader Dog, and will be at Prather's side constantly to guide him wherever he may want to go.

Rinty has been in training at the famous Rochester school since Jan. 31, 1937. Loeffler, through members of the Lincoln Lions club, knew the school needed dogs and decided to give his very intelligent pet. He was curious about the progress his German Shepherd was making, and was pleased to learn that the dog would graduate from the course with honors.

Letter of Thanks Loeffler now has a photograph of Rinty and a letter thanking him for making it possible to carry on work of producing Leader Dogs for the Blind.

Rinty became acquainted with Prather May 22, three days after Prather arrived at the school. If they have not been separated since, Rinty was trained for obedience, basic training, and to look advanced work and training in heavy traffic and among barking crowds at Pontiac, Mich.

There were more than four hours of street training duty, and finally the "Team" made its first trips through stores.

Rinty learned to recognize such hazardous conditions as moving traffic, pedestrians, and barking crowds, and to keep his master safe from danger. He was dangerous to his new master, by Clifton Sear.

Meanwhile, Prather discovered

in the home he lives like other pet, having time to and play. He eats once a day and is groomed once a day. Most of enjoying this freedom will be the same for his family pet.

Although Rinty's training Prather's training in his use the Leader Dog school approximately \$1200, Prather's amounts to only \$150, the over an eight year period a balance of \$1400 per year graduated that year. In 1938 is contributed to Michigan United Fund. The fund is for the benefit of the blind people who are blind born and come

Examination of Television Set Reveals Hazard

CHICAGO (U) — A portable television set involved in the electrocution of a 6-year-old suburban Skokie boy has been termed deadly by an authority on electricity.

Dr. Eric T. Gross, professor of electrical engineering at the Illinois Institute of Technology, Tuesday tested the set and said: "At this time there is certainly enough electricity coming from the top plate of the set to kill someone."

To Probe Death

Cook County Coroner Walter McCarron ordered the tests by Gross and other experts prior to the convening of a jury in two weeks to prove circumstances of the electrocution of Howard Erenstein Jr.

The boy was killed by an electrical shock Sunday as he brushed against an aluminum cart on which the set had been resting in the Erenstein home. The mishap occurred as the family was watching TV in the kitchen.

In the tests a light bulb was connected with the top of the TV set. Voltage from the set lit the bulb.

Another set identical to the one touched by the boy also was tested with a light socket. It failed to light the bulb.

New on Market

The set, an 18-inch portable, was manufactured by the General Electric Co., Syracuse, N. Y., and put on the market this year.

During the tests, the back of the set was removed and an insulated brace that usually connects the chassis to the cabinet was found to be broken.

Experts said the set could become "live" with electricity if the brace touched a terminal of a tube or a charged section inside the cabinet. However, when the set was opened the brace was touching nothing.

McCarron was told the set was dropped Monday and perhaps the brace was broken then and not before the boy's death.

General Electric called the electrocution an "unfortunate incident." The company promised a thorough investigation.

A GE engineer from Syracuse, N. Y., Mert Jones, was present during the test but took no part in the testing.

Mixed Reaction To Dulles Plan For Newsmen

WASHINGTON, D.C. — Secretary of State Dulles' offer to allow a "limited number" of American reporters to visit Red China for a trial period got a mixed reaction off Capitol Hill today.

Sen. Mansfield (D-Mont) called it "the first break in the paper curtain" and "better than no American coverage at all on Red China." He commended Dulles for proposing it, but news representatives who received the offer Thursday balked at the limitations it contained.

Sen. O'Mahoney (D-Wyo) objected to the idea of the State Department saying "who could, and who could not report."

The State Department, which controls passports, now bars all Americans from going to Communist China, which this country does not recognize.

For Six Months

Dulles proposed a six-month trial of his limited plan Thursday at a meeting with five representatives of American news organizations. But they disagreed with his proposal that the num-

Long Distances Talker Mystifies at Springfield

SPRINGFIELD, Ill. — Folks around Clarence Wendling's filling station on the outskirts of Springfield were still speculating today about a most amazing man — "the talker."

A lonely man, he was, hungry for conversation. He walked into Wendling's station Tuesday and talked for 24 hours, mostly on the pay telephone to distant cities. He deposited more than \$300 in the cash box.

Calls Paris, France

He called Paris. Paris, in France; not the one in Illinois. He called Monte Carlo. He called Texas, New York, Wisconsin — Las Vegas, Nev. He talked at length with people in all those places.

He talked, through an interpreter, with a teacher in Paris and recited poetry to her. He called Princess Grace in Monte Carlo.

Monaco, but the gist of the conversation — or whether he actually talked with the princess, or a friend — nobody caught.

The telephone company sent out a serviceman to unload the phone cash box about halfway through the 24-hour stint. The man kept sending out for more change. Soon all the business houses in the area were stripped of all their nickels, dimes, quarters.

Talks And Eats

He also sent out for sandwiches and continued talking, mouth full, as he ate. He took nips from a bottle of liquid.

Once, as he waited impatiently for more change, he gave \$25 to a customer. Just so he'd have someone to talk to. Another visitor to the station got \$12. Just for listening.

Wendling said the stranger's conversation was interesting.

"He told the finest words," Wendling said. "He used big words. Sometimes he'd say big words out. And he'd wonderful poetry."

Puts In \$300

"You know," the stationer said, "he stuck more than 300 dollars into that phone box. Still be talking if we all run out of change."

Wendling, who described the talker as about 35, and plainly, said he showed no identification to him, indicating a "quite important" figure, not a real big shot. Wendling declined to disclose his identity.

cultured. This, she believes, is because so many Turkish people have received valuable educational and scientific knowledge from the U.S.

Ankara is now becoming more industrialized, with factories producing clothing, jeeps and boats, Rona states.

Entertainment, too, is similar to American pastimes. Rona and her friends attend an average of three movies per week, and their favorite American film stars are Gregory Peck and Donna Reed.

COLLECT RECORDS
Popular music and collecting records are also activities for young Turkish people, although not many American artists are known there. European performers are most popular. Rona says she is definitely "not an Elvis Presley fan."

Arriving in New York May 29, Rona attended an orientation program in Washington, D. C., May 30 to June 3. Since June 5 she has been living, working and relaxing with Illinois farm families. From here she will go to Wisconsin and Idaho before returning to Turkey about Nov. 29.

The Shellhammer family is enjoying Rona's visit, as they are interested in international affairs. Their son Dalen, who operates the farm with his father, is a former employee of the U.S. state department. Rona is the third IFYE exchange student to visit the Shellhammers, who have also been hosts to foreign students in college with their son.

SHARE IN WORK
In the host country, IFYE participants live on farms, share the family work and social life of the community, and do their part in contributing to a better understanding of the customs, life and culture of their home countries. The 18 IFYE's who were in Illinois from foreign countries in 1936 lived with 57 host families.

In the United States, no government funds are used to finance the IFYE exchanges, according to Mrs. Mabel Albrecht, home adviser, and Farm Adviser Harold Brinkmeyer. Each state extension service that participates underwrites a portion of the cost.

Courier Carriers to Defend State Title

Eight Lincoln Daily Courier newsboys will go to the State Fair this year at Springfield to defend the paper's title in the Illinois Newspaper-Throwing contest.

Since the contest was started in 1945 the Courier has been represented five times and Courier carriers have won three state championships.

The latest to bring back the honor was Harold Limmis, son of Mr. and Mrs. Robert Blanford, 1203 Fourth st. He won the title last year.

Won By Hargrove

The 1935 winner also was a Courier carrier, Richard Hargrove, son of Mr. and Mrs. Earl Hargrove, 630 Limit st.

Charles Dutz was the first Courier newsboy to win the title. He won it in 1949. He is the son of Mr. and Mrs. Charles H. Dutz, 109 Sixth st.

Each time the Courier newsboys have entered the contest they have placed in the top 10 and this year will be competing for their third state title in a row.

The Courier team will be chosen through an elimination contest Aug. 5.

Newspaperboys (and girls) all over the state are preparing for the contest at the fair in which

a score of valuable prizes and trophies, including the Gov. William G. Stratton trophy will be awarded. The contest is on the opening day of the fair. Fair dates are Aug. 9-18.

Livio Alfonso, Taylorville, superintendent of the contest, estimates that several hundred participants will take part in this year's competition.

Join in Parade

In addition to opportunity to win prizes for throwing, the entrants are permitted to join the grand parade which signals the opening of the fair and receive free tickets for rides at the carnival on the fairgrounds. They are also given admission tickets to the grounds.

Each entrant is allowed to throw three papers. They can be brought from home and may be rolled in the fashion to which the carrier is accustomed. Bicycles are furnished for those who are unable to bring their own. The contest continues on an elimination basis.

Girl, 17, Spends 40 Hours With Bodies in Wreckage

ALLIANCE, Neb. (U)—Complete recovery was predicted today for 17-year-old Judy Diehl, who endured 40 agonizing hours trapped in a crashed airplane with the bodies of her parents and a friend.

Dr. O. L. Seng said the Cozad, Neb., girl was in "fair condition" and "we expect complete recovery."

Judy suffered a fracture of the upper left leg, possible fractures of the lower legs, lacerations and abrasions when a light plane crashed 25 miles south of Bingham, Neb., Friday night.

Waves to Searchers

The girl's foot was caught under a seat and she was forced to remain in the plane until she sighted a search plane overhead and waved a white scarf Sunday.

"We were amazed to find someone alive," said Don Christiansen, photographer of the Alliance Neb. Times-Herald, one of the best at

the scene.

Christiansen said the bodies of Judy's father Merritt Diehl, 45, and of the pilot, Milo German, 55, Cozad plastics plant operator, were in the front seat. Judy's mother Carolyn 45, was beside the girl in the rear of the plane. Had Been Asleep

Judy, in "surprisingly good condition" when rescuers reached her, said she did not remember the plane crashing. She said that upon waking up "I knew the others were dead."

She had only a banana to eat during the long hours, but was able to use a belt buckle to open a canned beverage and to "catch some rain water" to drink.

She suffered bruises, contusions and a fractured rib. Police theorized that the attack might be related to her pianist son's 25-million-dollar suit against Confidential Magazine. (International

No Invitation For Zhukov?

WASHINGTON (U) — Soviet Defense Minister Georgi Zhukov reportedly will not get an invitation to visit the United States. But the State Department has been quietly assuring European allies that they will be kept fully informed of any talks held between U.S. and Soviet defense officials.

Western nations apparently were upset last week by President Eisenhower's news conference statement that an exchange of visits between Zhukov and Secretary of Defense Wilson might be useful.

The Eisenhower remarks stirred expressions of opposition in Congress. In House debate Friday, Zhukov was described as "the Butcher of Budapest" — the man behind Russia's iron-fisted suppression of the Hungarian revolution last fall.

Gunman Hunted In Lacon Region

LACON, Ill. (AP)—Marshall County and state police today put up roadblocks in an effort to capture one or two gunmen who Saturday wounded a Lacon constable.

Constable Emory Baldwin, 50, was treated for back and shoulder wounds. He was shot as he approached a cottage on the Illinois River just north of Lacon in north central Illinois after receiving a report of a break-in there.

Bloodhounds Sunday led a search party of 20 officers along the river in an unsuccessful attempt to find the bandits.

Marshall County Sheriff Jay Evans theorized that the attackers might have escaped in a rowboat and traveled downstream toward Peoria.

He said Mike Domolin, wanted for questioning in a Mount Hope, Ohio, murder might be one of the gunmen. He said Domolin was identified in the Ohio murder by the dead man's wife. A car bearing Ohio license plates from the Mount Hope area was found outside the Lacon cottage.

No Break in Northeast's Rain Dearth

By The Associated Press

Scattering thunderstorms were expected to pelt the nation's mid-section again today, but for the drought-stricken Northeast there was no relief in sight.

A teasing trickle of rain was forecast for extreme southern New England. But elsewhere in the parched area it will be sunny and warmer.

The drought in the northeast already has caused millions of dollars to crops. Friday Gov. Foster Furcolo declared Massachusetts in a state of emergency.

Some 32 cities and towns in that state are suffering from a drastic water shortage forcing emergency measures.

RAIN SCATTERED

Some "heavy downpours," the first substantial rainfall to hit Massachusetts since mid-April, fell on southeast portions of the state Friday. Scattered areas of Rhode Island also received some rain.

It was a different story in New Mexico Friday. Floodwaters flashed through the desert country in western New Mexico after a series of cloudbursts.

From 50 to 150 persons were evacuated from their homes for a short time in Grants, a uranium mining town, when two creeks overflowed.

About 1,800 cars were lined up bumper to bumper for 4½ miles on Rhine Continental Highway 66 at Cimarron, about 23 miles west of Albuquerque, after a traffic accident blocked the road and the rampaging waters made a detour impossible.

RAIN TO FALL

Today's wet belt will extend from the western slopes of the Rockies eastward to the Mississippi River and the Gulf and south Atlantic Coast states. Rain also will fall through the central Appalachians, the Weather Bureau reported.

LAST FLURRY:

Lively Election Campaign Ends, Argentina Will Vote

BUENOS AIRES (U.S.)—Argentina's liveliest political campaign in more than a decade ended today with a final flurry of denunciations and victory predictions.

Sunday the nation's voters will elect a constituent assembly to take up the job of rewriting the constitution of 1853. The provisional government of President Pedro Aramburu—which threw out the Peron-written constitution of 1949—says the assembly's main task will be to limit the executive's powers and specifically to prevent the president from running for reelection.

That would do away with a provision that ousted President Juan Peron put in so he could succeed himself.

Aramburu has called for the constituent assembly to meet Sept. 1 and for general elections to be held next February to choose a constitutional government.

Peron, now living in exile in Venezuela, has called for his followers to "vote in blank" to demonstrate the power he claims he still wields in Argentina.

COOL-OFF PROVIDED

Campaigning closed at midnight and a 24-hour ban on electioneering was in effect today to give a cooling off period before the voters begin trooping to the polls.

More than nine million men and women are eligible to cast ballots.

Aside from the diehard supporters of Peron, the pro-Aramburu forces are opposed chiefly by backers of radical party leader Arturo Frondizi.

Frondizi wound up his fiery campaign with an attack on the provisional government and the Peronists. He charged that Peronist orders to cast blank ballots were fraudulent and urged supporters of the deposed dictator to vote for his party.

LEAFLETS BROADCAST

The streets of Buenos Aires were strewn with thousands of political leaflets and posters of scores of parties—a far cry from the virtual monopoly of the "Vive Peron" slogans posted during the fallen president's time.

Thousands of Peron supporters turned out yesterday, however, on the fifth anniversary of the death of Eva Peron. Police broke up parades in Tucuman in the far north and in La Plata.

Hoffa Now Strong Man

CHICAGO (U.S.)—Jimmy Hoffa has emerged as the apparent strong man in the race to succeed Dave Beck as president of the powerful Teamsters Union.

Hoffa's growing strength in the 1½ million member union was sharply focused yesterday when some 800 cheering, shouting Teamster leaders voted unanimously to endorse the Detroit-er's candidacy for the \$50,000 a year post.

The caucus was called by Hoffa's supporters especially to boom the 44-year-old Hoffa for Beck's job. Beck is stepping down amidst charges by a Senate Rackets Committee that misappropriated large sums of money from the union.

Hoffa himself was acquitted by a jury July 19 of bribery and conspiracy charges brought by the same committee which said he tried to plant a spy on the committee staff.

Harold J. Gibbons, St. Louis Teamster chief, offered the restoration backing Hoffa.

OVERTAKEN BY LAW:

29-Year Old Hanging Ended Southern Illinois

BENTON, Ill. (U.S.)—Thirty years ago today, a black-robed judge solemnly split the tomb-like silence of a crowded courtroom to announce, "Charley Birger, the law has overtaken you."

Then Circuit Judge Charles H. Miller sentenced the self-styled "toughest guy in southern Illinois" to hang at the Franklin county jail.

An estimated two dozen persons were violently killed in connection with Birger's gangland life.

The Benton jury which con-

demned his home Dec. 12, 1926 - 33 days after another mayor, Jeff Stone of Colq., was murdered.

Thomasson said Birger commanded him and his brother to kill Adams and gave each \$50 for the murder. He said he was confessing because Birger killed his brother when the gang's hideout at Sandy Rest was burned to the ground, with four bodies in the ruins.

Thomasson got a 10-year sentence.

The Benton jury which con-

demned the backwash of the Birger-Shelton reign of terror remained even into the 1950's, when gangland connected murders, burnings and bombings occasionally cropped up.

Birger's conviction, however, appeared the turning point.

That day in 1927 when Judge Miller pronounced the raven-hair mobster's death sentence, Birger disavowed his position as a lead of a band of gangsters that turned southern Illinois into a battleground.

But the backwash of the

Guard Against More Chicago Race Riots

CHICAGO (AP)—Five hundred policemen patrolled Chicago's far south side today to prevent recurrence of racial disturbance which injured at least 35 persons Sunday.

The flareups reached pitched battle stage Sunday afternoon in crowded Calumet Park, and Sunday night at South and Ewing Ave. There were several instances of isolated attacks by roving gangs who stoned cars of Negroes and policemen.

Negroes retaliated in the disorders.

No new incidents were reported today.

Capt. Albert Anderson, supervisor of the second police division said the movement of area residents of the mixed, predominantly white neighborhood to their jobs in the industrial district went smoothly.

Anderson said the emergency police detail would be doubled this afternoon when day shift workers leave their jobs.

The affected area contains less than four square miles, including Calumet Park, and lies between the Indiana state line and the Calumet River.

The first disturbance occurred at Calumet Park, where some 100 Negroes were holding a picnic. Police said a group of between 50 and 60 white persons began throwing stones at the Negroes. About 25 persons, most of them Negroes, were injured, none seriously. Some 100 policemen answered the riot call and quelled the fighting.

Police estimated that some 3,000 persons witnessed the brawl but there were several other thousands in the big park seeking relief from the 90-degree temperatures.

Some 300 policemen, both white and Negro, were on duty in the south Chicago and East Side districts Sunday night and this morning as fresh rioting erupted. The districts, in the city's far south east industrial section, are predominantly white.

AUTOS BURNED

Most of Sunday night's police calls came after white persons

burning shots to break up many crowds.

Police officials said all days off for policemen had been canceled temporarily.

Police described the disturbances as one of the worst racial outbreaks in several years. Major rioting occurred in nearby Trumbull Park housing project when Negroes moved into the white district. A special police detail, which at times numbered several hundred, was moved into the district and the rioting ended.

GIRL, 15, SHOT

A 15-year-old white girl was shot in the left ankle. A Negro motorcycle policeman, seeking to arrest a youth who had stoned him, said his gun discharged accidentally when someone jostled him.

Other policemen nearby rescued the motorcycle policeman, William Hunt, from a crowd which witnessed the shooting. The girl, Marilyn Hultquist, was not injured seriously. Hunt suffered a possible fractured nose and injuries to his right eye when he was hit by a brick.

About 10 persons suffered minor injuries in last night's fighting. Only Hunt and Miss Hultquist were hospitalized.

Fourteen men and several juveniles were questioned in connection with the stone throwing, car burning and fighting. They were held without charge.

Pledge No Agreement

BERLIN (U) — The United States, Britain and France pledged today they will not sign any disarmament agreement that would "prejudice the reunification of Germany."

A declaration signed by the ambassadors of the Western Big Three and West German Foreign Minister Heinrich von Brentano stated that Germany can be reunified only after free elections are held in both parts of the country split by the Iron Curtain.

The declaration was made just seven weeks before the crucial West German parliamentary elections Sept. 15. In the campaign the opposition Socialists have charged that Chancellor Konrad Adenauer is ruining any chance of Soviet agreement to reunification by keeping West Germany in the North Atlantic Alliance.

MAY FIX QUOTAS

Under the Trade Agreements Extension Act of 1955 the President has authority to fix quotas if he decides it is necessary.

The recommended reduction in imports would be effective for one year starting as of last July 1 and the Cabinet committee would review the situation annually. Under the committee recommendation, total imports would be limited to 1,031,000 barrels daily.

Eisenhower said increasing oil imports threatened to impair national security. Independent oil operators have contended that exploration for oil in the United States and put too much dependence on imports which would be cut off in event of an emergency.

Most of the imported oil comes from Venezuela, but the Middle East and Canada also provide crude. Most of the Canadian oil goes to the Pacific Coast, on which Monday's order placed no restrictions.

'Confession' Signature by Don Wedler

DELAND, Fla. (U.S. — Donald J. Wedler today signed a statement that he killed Marilyn Sheppard, a Cleveland attorney for Dr. Samuel Sheppard reported.

William Corrigan said the 23-year-old Florida convict "willingly signed the statement in the presence of Sheriff's Deputies Howard Demott and Jack Lynady."

The attorney's belief in Wedler's story is directly opposed to conclusions of Cleveland police officials after they talked with the prisoner a week ago.

READ OF CASE?

Dr. Samuel Gerber, coroner of Cuyahoga County, Ohio, and James McArthur, former chief of Cleveland detectives, said Wedler knew only as much about the sensational July 4, 1954, slaying case as he might have read in newspapers and magazines.

He knew no details, Gerber and McArthur said.

Corrigan, on the other hand, said "I think this guy did it." The lawyer who defended Dr. Sheppard in the trial which resulted in his conviction for the slaying of his wife and a life term, said:

"The confession of this man fits in with so many of the details with which we are familiar and convinces us beyond doubt that Donald Joseph Wedler is guilty of the murder."

"We plan to move immediately in the State of Ohio to bring this case to a successful conclusion."

Corrigan said Wedler told him he is willing to go back to Ohio, will waive extradition and will submit to examination and lie detector tests by anyone qualified except the Cleveland police department or the coroner.

How Corrigan would bring a murder charge against Wedler before a grand jury for indictment was not disclosed. Such a step would be necessary to bring him to trial in Ohio.

Youth Contest Author in Appeal for Participation

Participation was held up as the key to success for 1957 Junior Good Citizens nominees as they were honored at a banquet here Monday evening.

This key was held forth by Mrs. Allyne V. Nugent, co-publisher of the Daily Courier. She cited the young people as examples who will be an inspiration to others in participation for community good. "Thank you for being the type students you have been," she said to the youth group.

The publisher urged that participation take the line of that which is "good for the majority." She implored the youths to listen to their elders—"they will pass on to you certain things which you must accept for yourselves."

Author of the annual Junior Good Citizen contest, now in its 10th year, Mrs. Nugent declared that juvenile delinquency can be blamed on nonparticipation. Each of the nominees was presented a J.G.C. identification card from the Courier, placed in a miniature "ice cream parlor" type chair place card holder.

Congratulations were extended to the youths for the Fair association by Wilbur G. Colburn, president. "This is a year you'll never forget and as leaders, we ask you to carry on and keep our community going."

John L. Nugent, Courier co-publisher, presented Wilbur E. Layman, Fair secretary. The latter announced that Gov. William G. Stratton and Mrs. Stratton will be present at the Fair Monday evening, Aug. 5, when the J.G.C.s are first presented at the Fair.

IDEA BEING COPIED -

Layman revealed the Junior Good Citizen idea is being copied by other fairs throughout the U.S. The publication of the International Fairs and Expositions has reviewed the Logan Fair set-up, one which Layman termed as having "dignity and honor." He optimistically predicted a fine fair in 1957, pointing to large entries and a heavy advance ticket sale. The Fair association seeks to present a fair of dignity and respect, Layman said. He presented season tickets for each of the Junior Good Citizen class.

Miss Sue Heipzel, who will direct presentation of the youths

Layman were other head table guests. Assisting in arrangements for the dinner at the Eagles lodge hall were Mrs. Frances Montgomery, Miss Lena Wertheim and Miss Mabel Musick of the Courier. Emcee was Ken Goodrich, also of the Courier.

Hospital Refusal Reports Denied

ALEDO, Ill. (AP) — Authorities have denied charges that a 15-year-old migrant farm worker suffering from polio was refused admittance to two Iowa hospitals for lack of funds.

The boy, Carlos Rodriguez Jr., died Sunday in Lutheran Hospital, Moline, Ill. He became sick about a week ago after he came to Aledo from Texas with his parents, Mr. and Mrs. Carlos Rodriguez, and about 35 other Mexican farm workers.

Stanley Foote, of Aledo, chairman of the Mercer County polio chapter, said he was told by the boy's father that he and his wife unsuccessfully attempted home cures for their son and sought to have him admitted to hospitals in Muscatine and Davenport, Ia. Foote quoted the father as saying the boy was refused admittance because the family had no money.

Short of Space for Storing Logan Corn

Logan county ASC office expects to accept delivery of more than five million bushels of corn, starting sometime next month, and is concerned because of the possibility of a lack of enough storage space, Harry Martin, office manager, said today.

He advises farmers who have loans at the lower rate, \$1.28 a bushel, to watch the local market and liquidate such loans.

"It is possible that the higher loan rate corn will be accepted first and in some instances fill the storage space where farmers normally deliver their corn. This might cause long hauls for the corn which is under the lower price support," Martin said.
