The news conference also covered such subjects as:
Teamsters — Eisenhower said federal agencies were alerted long ago to corruption which has been revealed in the union. He said this was with a view to seeing whether any action could be taken beyond legislative steps already proposed.

He spoke in response to a question as to whether the administration is planning any action as a result of widespread corruption in American life, particularly involving Teamsters and the trucking industry.

Eisenhower said he didn't know whether officials in the Justice and Labor departments have anything to propose yet or not.

Syria — The situation in that troubled nation, where Communists have been making inroads, seems to be solidifying to some extent, the President said.

He said that Jordan, Libya, Iraq and to some extent Saudi Arabia apparently are somewhat less alarmed.

Budget — Eisenhower said he doesn't see how the defense budget can be cut below 38 billion dollars.

Nor, right now, does he see how the entire budget can be brought down by two billion dollars to a spending level of 70 billions for the 1959 fiscal year starting next July 1. Budget Director Percival Brundage has said the administration will attempt to restructure spending to that figure.

Asked where cuts could be made, Eisenhower replied that if he could answer that, one of his hardest problems would be solved.

Pleaded Guilty On Legal Advice, Vannoy Asserts

Charles E. Vannoy testified Thursday forenoon in Logan county circuit court that he pleaded guilty to the Dec. 31, 1933, shotgun slaying of Joe Carr upon advice from his attorneys R. Marlin Baker and Darrell Klink.

Vannoy, now serving a life term in the Menard branch of the Illinois state penitentiary, said he was informed by Baker that Judge Frank S. Bevan would follow a recommendation of State's Attorney Marvin Hamilton and pronounce a sentence of 25 years, thereby enabling him to be eligible for parole in eight years and three months.

He changed his plea to guilty, Vannoy said, over the objections of his mother, Mrs. Mabel Kelso, and his sister, Bertha Scroggin, who begged him to have a jury trial.

Vannoy further stated that he first learned of the suggestion that he plead guilty on April 16, 1934, the night before he appeared in court to change his pleading. He was visited at the county jail by his attorneys, and again talked with them in the circuit court library the next morning, at which time his mother and sister were present.

Baker, Vannoy said, advised him to state to Judge Bevan that he was not pleading guilty because of any "deal" arranged with the court.

Vannoy is represented in his post-conviction hearing by attorneys Homer Harris sr. and Harold S. Trapp, jr., who questioned the witness Thursday morning. Edwin C. Mills is special state's attorney, with Judge Hubert H. Edwards of Pontiac presiding.

Pleading Guilty Vannoy's Own Idea, Witness Claims

Entering of a guilty plea to the Dec. 31, 1933 shotgun slaying of Joe Carr originated with Charles E. Vannoy himself, according to testimony of R. Marlin Baker, who was Vannoy's defense attorney at the time.

Baker was called to testify in the post-conviction hearing shortly before noon Friday in Logan county circuit court, and was questioned by Edwin C. Mills, special state's attorney.

Homer Harris, sr., and Harold Trapp, jr., representing Vannoy, presently serving a life term in the Menard penitentiary, rested the case for the petitioner at 11:30 a.m.

"Get It Over With"

Baker related discussions with Vannoy at the county jail, and said Vannoy asked several times

whether he couldn't plead guilty "and get it over with."

He and Darrell Klink, the other defense attorney, Baker continued, advised Vannoy against pleading guilty, and continued to prepare the case for trial.

The guilty plea was entered before Judge Bevan on April 17, 1934, Baker said, after two conferences with State's Attorney Marvin Hamilton in which Hamilton agreed to recommend a 25-year sentence. This agreement, another murder case which might influence public opinion and other matters, Baker said, all tended to make the defense counsel decide on a plea of guilty in the Vannoy case.

Judge Not Required

Consequences of the plea, Baker added, were explained to Vannoy fully, as well as the fact that Judge Bevan was not required to follow Hamilton's recommendation.

Last witness to testify on behalf of Vannoy was his half sister, Mrs. Bertha Scroggin, of Lincoln. She said the question of Vannoy entering a guilty plea was not brought to her attention until just before he entered court to make the guilty plea. She attempted to talk him into having a jury trial, she said.

Under cross examination by Mills Thursday afternoon, Vannoy testified he did not believe Judge Bevan was telling the truth when the judge explained that he was not bound by any promises to anyone in passing sentence.

Trusted Counsel

Vannoy stated that he trusted his attorneys, who told him before he entered court to plead guilty, that the judge would follow State's Attorney Hamilton's recommendation and pronounce sentence of 25 years.

When pressed by Mills to explain why he thought Judge Bevan was not telling the truth, Vannoy said, "you can't come into open court and tell a deal was made. You can't bring it out into the open."

Also testifying Thursday afternoon were Vannoy's mother, Mrs. Mabel Kelso of Lincoln, and former State's Attorney Hamilton.

Hamilton said two conferences were conducted on the case, one of which was attended briefly by Judge Bevan, who specifically stated the court would not be bound by any agreement.

Judge Hubert H. Edwards, of Pontiac, is presiding at the hearing.

Swimming Pool Funds Approved

One barrier to construction of a swimming pool, skating rink and building at Mt. Pulaski was removed Thursday by Circuit Judge Frank S. Bevan, who gave approval to use of more than \$50,000 from the Clarence Tomlinson trust for the project.

Judge Bevan approved a request from Ed Dittus and Orville Downing, trustees of the Tomlinson trust, who petitioned the court for permission to use funds from the estate, which were left for benefit of the Mt. Pulaski township community.

Financing of the project is to be through volunteer labor and contributions, the petition stated. The Tomlinson trust has purchased the block of ground next to the Mt. Pulaski grade school for a playground site, and the swimming pool and skating rink are proposed for this location.

Vannoy Ruling Expected in Circuit Court Here Oct. 14

Judge Hubert H. Edwards, of Pontiac, is expected to rule Monday, Oct. 14, on whether Charles E. Vannoy is entitled to a jury trial on the charge for which he is now serving a life term in Menard penitentiary.

Vannoy's post-conviction hearing concluded Tuesday in Logan county circuit court with arguments by attorneys this afternoon. Final witness to testify at the hearing was State's Attorney Darrell Klink, who was on the stand this morning.

The hearing resumed Tuesday morning before Judge Edwards after testimony was entered Thursday and Friday of last week. Vannoy is seeking a jury trial in hope of gaining his freedom from the penitentiary. Sentenced in 1934.

Vannoy was sentenced by Judge Frank S. Bevan on April 27, 1934, for the murder of Joe Carr in a Lincoln tavern the night of Dec. 31, 1933. Vannoy, in asking a post-conviction hearing, alleged that he pleaded guilty to the murder charge under the misapprehension that Judge Bevan would pronounce a sentence of only 25 years.

At the time he was charged with the murder, Vannoy was represented by attorneys R. Martin Baker and Klink. Klink testified Tuesday that he felt, before Vannoy pleaded guilty, that Judge Bevan would not follow a 25-year sentence recommendation of then State's Attorney Martin Hamilton.

Klink was questioned on direct examination by Special State's

Tells Of Talks

Conversations with Vannoy at the county jail and at the courthouse prior to Vannoy's entering a plea of guilty were described by Klink, who said Baker informed Vannoy of all circumstances surrounding the case, and the decision of whether or not to enter a guilty plea was left to Vannoy.

Vannoy said that he wanted to plead guilty, Klink asserted, both at the county jail on the night of April 15, 1934, and during the house conference attended by his mother and sister the next morning, which preceded his entering court to change his plea to guilty.

The two attorneys, Klink stated, had prepared defenses for Vannoy in the event the case went to trial, and considered "the unwritten law" among other defenses.

Klink also recalled a conference in Baker's office attended by Vannoy's sister, Mrs. Bertha Scroggin, during which Mrs. Scroggin was disturbed because Vannoy had told her he might enter a guilty plea.

Mrs. Scroggin, who testified last week, alleged that no mention was made of her brother pleading guilty until just before he entered the plea, during the courthouse conference.

Ag Scientists Plan War on Bean Enemy

ST. LOUIS (U) — Worried agricultural scientists from the Midwest gathered here this week to plan an attack against a worm the size of a grain of salt. It's threatening the nation's soybean crop.

Their enemy is the cyst nematode, which now ranks as a major agricultural problem in the South and Midwest — where 80 per cent of the nation's soybean crop is grown.

Nematodes damage plants by burrowing into their roots, piercing healthy cells with a microscopic syringe-like beak and sucking out vital plant juices. This causes plants to wither. Migrates To U.S.

Until four years ago, it was found only in the Orient. It was discovered in North Carolina in 1953 and since then has spread to Missouri, Tennessee, Kentucky, Arkansas, Mississippi and Indiana.

Some 200 persons, including 14 agricultural scientists, attended the two-day meeting in St. Louis in an effort to stop the pest's damage which totals more than one billion dollars annually. They agreed that:

1. Some species of nematodes — there are more than 1,900 — feed off nearly every plant that grows, including lawn grass, shrubs and flowers.
2. One infestation in the Midwest has become serious enough to warrant federal and state quarantines of some infested fields.
3. So far, Midwest studies have proved nematodes cause severe damage to soybeans, cotton, melon, vegetables and strawberries, and there are indications the pests also hurt red clover, wheat and orchard crops.
4. Infestations appear to be spreading slowly through the

Midwest.

Presence of the nematode in Missouri only 30 miles from the southwestern Illinois line prompted the Illinois Department of Agriculture to start testing that state's soil. So far, said Director Stillman Stanard, tests of soil samples taken from 555 farms in 53 of the state's 102 counties "show there is no cause for immediate alarm in Illinois."

Prof. G. F. Warren of Purdue University said cantaloupe fields in southern Indiana have had widespread nematode damage. He said production in many of these fields could be wiped out if the pest is not controlled soon.

Dr. V. G. Perry of the University of Wisconsin said some control over the minute cysts can be realized for plants through four methods. They include biological (natural enemies) controls, chemical or soil fumigation, the use of nematode-resistant stock, and cultural practices like crop rotation.

Judgements Asked in Logan Court Filings

Two complaints, both asking money judgments, are on file Tuesday in the office of Logan County Circuit Clerk Earl Madigan.

Eugene Johnson, Bloomington, asks \$800 for damages to an auto in his complaint brought against Loren Schroeder of Logan county. Plaintiff alleges that his car was being driven south on route 66 at Bloomington by Lee E. Florence when it was struck from the rear by an auto operated by the defendant.

Associates Discount Corp., South Bend, Ind., asks a judgment of \$740.80 in its suit against Wayne H. Lowman, claiming the amount due on a conditional sales contract for a new automobile.

The petition states that Lowman entered the contract with Partlow & Rust Chevrolet Co. on June 1, 1936, and the plaintiff became owner of the contract, on which defendant was to pay \$3,789.99.

Defendant, the petition continues, failed to make the payments and the car was repossessed and resold for \$1,650.

Confessed Spy Admits Taking Pay of Another

Hayhanen Digs up \$5,000 From Cache

NEW YORK (U)—Confessed spy Reino Hayhanen said today that he had dug up and kept for himself a cache of \$5,000 allegedly intended for payment to Mrs. Helen Sobell.

Hayhanen gave the testimony as trial resumed today in Brooklyn federal court of Rudolph I. Abel on charges of masterminding Russian espionage in this country.

The witness previously testified the \$5,000 in cash had been buried at Bear Mountain, N. Y., by Mrs. Sobell, the wife of convicted spy Morton Sobell, who called Hayhanen's testimony concerning her a "smear." Sobell is serving a 30-year term in Alcatraz for his part in the Rosenberg atom spy ring.

In testimony Tuesday Hayhanen said the \$5,000 came to him with secret instructions to determine whether Mrs. Sobell would serve as an agent. He was executed in 1933.

Julius and Ethel Rosenberg were convicted as atom spies and executed at Sing Sing Prison in 1955.

Hayhanen has turned govern-

ment witness at the espionage trial of Abel, which continues today.

He convicted, the 55-year-old Abel could be executed.

Mrs. Sobell issued a statement immediately upon hearing of Hayhanen's testimony.

The statement, made at the Manhattan office of the Committee to Secure Justice for Morton Sobell, said in part: "This meaningless testimony is just a way of smearing me at a time when my husband's case is before the Supreme Court in a request for a new trial. Neither my husband nor I have ever committed espionage or conspired to commit espionage."

Hearing Nov. 1

Hearing is scheduled for 10 a.m. Friday, Nov. 1 on a petition for establishment of an annual maintenance assessment roll for the North Branch Lake Fork Special Drainage district of Logan, Macon and DeWitt counties.

Petition for the assessment roll was filed in Logan county court Tuesday by William D. Miller, Lynn D. Rau and Lloyd C. Holland, commissioners, stating that an annual maintenance assessment of \$4,000 is required.

Repair and maintenance work, commissioners state, includes labor and materials to clear and remove trees, shrubs and other obstructions in the water channel, and keeping the system of bridges in good repair.

The United States nickel really contains only 25 per cent nickel. The remainder is copper.

Hops for Rome, Nonstop Flight Record Try

Weather Outlook Good For 2nd Wyatt Effort

GALVESTON, Tex. (AP) — Bill Wyatt took off for Rome this morning in what he hopes will be a record solo hop in a light plane saying, "This time things look very good."

The weather looked good almost all the way for the second try for the record hop. Wyatt lifted the gasoline-laden craft at 6:25 a. m. The lean former Marine fighter pilot from Dallas, cheerful and spruce, told the small crowd gathered in the cool dawn he was looking forward to seeing Rome.

Wyatt, 25, a bachelor from Dallas, hopes to set a record with the 5,693-mile hop. He was turned back Oct. 4 by bad weather after reaching Chalkettown, Prince Edward Island, just south of Newfoundland.

After Record He said he expected to reach Rome in 36 to 40 hours and beat the light plane mark of 4,973 to Teterboro, N. J., set in 1930 by William Odom.

Wyatt's single-engine ship has been modified to carry 246 gallons of gasoline, enough for 44 hours of flight, he hopes. It normally carries four passengers, but the extra space is filled with gasoline tanks.

Suspend Liquor License for 30 Days in Logan

The liquor license of Fotios Margonis, doing business as the Logan Center Tavern, Fogarty Crossing, r.r. Broadwell, is suspended for a period of 30 days, beginning Oct. 9, as the result of an order received by State's Attorney Darrell E. Klink from the state liquor control commission.

The order dismisses an appeal filed by Margonis from a decision of the Logan county liquor commission, and upholds the 30-day suspension order signed by Herman H. Henry, chairman of the board of supervisors.

Margonis was charged with sale of liquor to minors, and his hearing before the local liquor board was on Aug. 27. His appeal to the state board was heard Sept. 16, and that board's decision has now been rendered to the state's attorney.

Margonis is also charged with sale of liquor to minors in an information charge in county court.

U.N. Speaker To be Heard Here Oct. 23

Miss Nancy Shand of Oak Park will be in Lincoln Wednesday for the observance of United Nations week. At 1:30 p.m. she will speak at the high school assembly and at 2:30 p.m., will give the program at First Methodist church for the Women's Society of Christian Service.

Miss Shand recently returned from two years spent in Europe, North Africa, and the Middle East under the sponsorship of Rotary International. The period in which she was an Ambassador of Good Will was a time of crisis in both North Africa and the Middle East and through the assistance of key people, Rotarians, students, churchmen, oil magnates, government officials and villagers, she was able to get many points of view. Her work was mainly with Technical Assistance, refugees, and UNESCO.

Miss Shand has degrees from Blackburn college and Northwestern University where she graduated in 1951 and from the University of North Carolina. She also took special work in the University of London and the University of Lund in Sweden.

Miss Shand comes to Lincoln through the combined efforts of the League of Women Voters, the Lincoln Woman's club, the Chestnut Woman's club, the American Association of University Women, the Methodist WSCS and Lincoln high school.

The public is invited to both the programs.

FIRE WARNING

Father, Two Sons Escape; Blame on Defective Wires

BELPRE, Ohio (AP)—A fire blamed on defective wiring Sunday killed a mother and seven of her children and left three other members of the family homeless.

The fire swept the tiny second-story apartment of Mr. and Mrs. Lloyd Snider. The father and two sons were not in the building.

Killed were Snider's wife Vivian, 36; four daughters, Linda, 14, Sheila, 11; Mona, 7, and Reta Jo, 5 months; and three sons, Mickey, 9, David, 3, and Danny, 2.

Firemen said they were suffocated.

The father and his oldest child Ronnie, 16, were visiting "Mrs. Snider's mother in Vienna, W. Va., not far from this small Washington County community.

Another son, Darrell, 13, was in Camden-Clark Hospital in Parkersburg, W. Va., across the Ohio River.

Stricken by Grief

The grief-stricken father turned his concern almost immediately to his two remaining sons.

James Ronan, Chicago lawyer who is Democratic state chairman, will be feature speaker at the Jefferson-Jackson Democratic club dinner Nov. 7 at 7 p. m. at the Tropics.

Proceeds from the dinner are to be divided between the local, state and national party.

From his mother-in-law's home, he told a reporter by telephone Sunday night:

"I don't know where I'll be going or where I'll be staying. I've got to find a place where I can keep my boys.

Firemen, summoned by the Sniders' neighbors, Mr. and Mrs. Russell Kerns, found the victims' bodies in two rooms of the apartment, above a vacant store.

Firemen said Mrs. Snider and four children were in a bedroom-sitting room and the other three children in another bedroom.

Benson Starts On World Tour

WASHINGTON (AP) — Secretary of Agriculture Benson hopes that a world trade tour he starts today will help get another year's extension of an important farm surplus disposal program.

Large quantities of the surpluses moving abroad are being sold under a law that permits the Agriculture Department to accept foreign currencies as payment and allow those currencies to be spent in the purchasing countries to help finance various U. S. government operations.

This law, the Agricultural Trade Development Act, expires next June 30.

Benson wants it extended until the middle of 1959. He feels that more time is needed to get rid of big farm surpluses and to develop permanent markets in countries getting the benefit of the law.

HEAR SPRINGER

METHODIST MEN heard a budget talk by Congressman William L. Springer and installed officers at their Monday evening dinner meeting at Washington-Monroe school. The Champaign congressman (left) is shown with Tom Harris, who was installed president to succeed Charles Hoelscher.

(Courier Photo—McClellan)

Tom Harris was installed president of Methodist Men at their Monday evening meeting at Washington-Monroe school. Others installed are: Darrell E. Klink, vice president; Floyd McGee, secretary; and Dan Attebery, treasurer. The installation was conducted by the pastor, the Rev. H. Sheldon Pattison.

After-dinner singing was led by Dean May and devotions were presented by Tom Rainey.

Alvin Bray, secretary to Congressman William L. Springer (22nd district) of Champaign, was a guest. Springer was introduced by Klink and his remarks on the federal budget were as follows:

In the last 25 years the big city telephone directories are not the only pieces of information that have gone up in size.

None So Rapidly

In fact, no single published instrument has risen faster than the federal budget. From the budget of only 7 million, 20 years ago, it went to almost 70 billion this last year. That is almost 10 times what the federal budget was in 1937.

One of the real tasks of any administration in Washington is to keep expenditures within some reasonable figure. With the maximum effort in this last session, Congress was able to cut almost five billion.

Whether this trend can continue will to a large extent depend upon the demands that are made by the State, local governmental bodies, and individual citizens for more services. As long as the demand for these services outweighs the counterbalancing demand for less federal taxes little,

or no, reduction can be made.

Hear From Home

The expressions of people at home were felt in both Houses of Congress this last year. In short, the demands for reduction far out-weighted the demand for more services. And that is the reason a smaller budget was adopted in the end.

This last year was the most hopeful one of the seven years that I have been in Washington. The last four balanced budgets have been encouraging. At least we seem to be reversing a trend which had existed previously for 22 years, Springer concluded.

Really 'Blue Monday' For Stock Market

NEW YORK (AP) — The stock market has just suffered its bluest "Blue Monday" since Sept. 26, 1955, the first trading session after President Eisenhower's heart attack.

Successive selling waves Monday slashed an estimated \$6,350,000,000 from the quoted value of stocks listed on the New York Stock Exchange, based on the fall in the average.

The high-speed ticker tape ran behind the pace of transactions on no less than seven separate occasions when sellers rushed to unload.

Take Beating, Too

The so-called blue chips took a beating along with stocks of lesser quality. Even American Telephone, regarded as an investment-type issue for cautious people, broke 3 1/2 points. Du Pont fell 6 1/2.

When the ticker tape ran late, brokers and analysts looked for some recovery movement after prices were pounded down — buying by so-called "bargain hunters." This is the usual pattern. But there was little or none of it Monday.

Instead, prices hovered around their low figures only to be hammered down again when the ticker tape was swamped with selling the next time.

Blamed on Combination

Wall Streeters reported no single news event, rumor, or other factor behind Monday's shakeout but rather a combination of "more of the same." The market, they said, was still worried about tight money and uncertain business prospects. Production cuts or layoffs were reported by several more companies. The scaling-down of defense spending was emphasized by the Navy's

two brothers, Carroll Ray of Lakeside, Calif.; and Kenneth Ray of Lincoln. A brother, Herschel, preceded her in death.

Mrs. Jeffries was a member of the Methodist church.

cancellation of 21 million dollars in contracts with Lockheed Aircraft Co. The steel industry's operating rate slipped below 80 per cent of rated capacity.

Brokers reported that despite the 70 per cent margin requirement some stocks were sold because more margin was required. Other stocks were disposed of merely because their owners were nervous — they had seen their holdings fall far enough. Additional sales were reported for establishing tax losses on income tax returns.

Only Half as Bad

Although this was the sharpest decline since the first Eisenhower "heart break," it was only about half as bad, judging by the fall in the average. Nevertheless, it was part of a three-month erosion of prices since the market reached its high for the year July 12, coming then within an ace of its all-time bull market high.

The market got an extra push to the downside last week on news of the Syrian-Turkish crisis. The week before that, the Russian space satellite was the main upsetting factor.

Communist Troops, Police Ready for Any Disorder

VIENNA (U)—The first anniversary of the Hungarian revolt against Communist oppression began quietly today in Budapest. Red troops and police stood ready to smash any demonstrations. Drizzling rain fell on the bleak streets where a year ago demonstrations exploded into revolution. Traffic moved normally.

Western embassies in the Soviet satellite capital reported at mid-morning that all appeared normal. Workers appeared to be going to their jobs, students to school.

Communist leaders have warned repeatedly that they would crush mercilessly any attempt to observe the anniversary publicly, whether with street marches and meetings or even by wearing of black mourning bands.

Premier Janos Kadar, the Communist puppet installed when the Soviet troops smashed the revolt last November, warned again Tuesday against any outburst.

"If somebody wants a fight, all right, we can fight too," he told a meeting of the Patriotic People's Front, which includes Communists and fellow travelers.

"We Communists will use force to remain in power," he said, but "we prefer peace."

Armed guards at barracks and strategic buildings were strengthened. Elaborate measures were taken to prevent unauthorized persons from getting hold of vehicles, typewriters or duplicating machines.

Soviet troops were kept out of sight in barracks in Budapest and in nearby camps. But strong Russian forces were reported ready to move into Budapest if needed by the Kadar regime just as Soviet tanks smashed into the city last Nov. 4 to put down the freedom fighters.

Upward Trend Brighten Stock Market Dealings Wednesday

Shares Rebound in Wake of Downturn

NEW YORK (U)—A strong buying move sent the stock market spiraling upward in very active dealings today.

Gains ranged to around \$5 and there were numerous issues posting advances of \$2 and \$3 a share. The ticker tape lagged eight minutes behind floor transactions at one time.

The brisk buying followed a decline which has been going on since mid-July and which sent stocks to a new 2½-year low on average Tuesday.

Brokers said the market was due for a technical rebound after its recent declines. They noted President Eisenhower's announced plans for a series of talks to bolster confidence in U.S. strength had restored some confidence in the market.

The market has been declining since mid-July. Many paper profits have been erased.

This week brokerage house board rooms have been crowded with people, intently watching the illuminated ticker tape and asking, "When will the turn come?"

Take Varying Views
Some Wall Street prophets feel the decline may be bottoming out. Others aren't so sure. Few, if any, expect an immediate return of a rampaging bull market.

Looking back on the decline many agreed with Gerald Loeb, partner in E. F. Hutton & Co.: "It's a little too late to sell and a little too early to buy."

In the first two days this week the market has taken a severe drubbing on heavy selling waves. On Monday the break was the largest for any day since Sept. 26, 1955, following President Eisenhower's heart attack.

Tuesday things were a little better. The market didn't go down quite as much as on Monday. But it did sink to a new low for more than 2½ years.

Cite Uncertainty
In back of the downturn brokers pointed to numerous items, which could generally be summed up in the word "uncertain-

ty" about the domestic and international situations.

On the domestic front there were such items as tight money, defense order cancellations, minor layoffs at scattered points, failure of business to boom as much as the more optimistic had anticipated.

On the international front there were such items as concern over the Middle East and whirling evidence, in the form of Sputnik, that Russia is ahead of the United States in missile developments.

Getty, Oilman, Richest United States, Survey Finds

NEW YORK (AP) — Jean Paul Getty, a Minnesota-born oilman, is the nation's richest man, according to a magazine survey published today.

Getty tops a list of 76 Americans with fortunes estimated at 700 million to a billion dollars.

The survey, conducted by Fortune magazine, placed Getty, who will be 65 on Dec. 15, in the 700-million to a billion-dollar category.

In London Getty said, "It doesn't make any difference to me personally if I am worth 5 million, or 200 million, or 1 billion or several billion dollars."

He said he doesn't know the exact total of his holdings but "would hope to get several billions" if he sold out.

"Remember," he added, "a billion dollars isn't worth what it used to be."

Getty was a millionaire in oil when he was 23. He said luck helped him get rich.

"In the depression I did what the experts said one should not do," he said. "I was a very big buyer of oil company stocks."

Getty has a home in Santa Monica, Calif., and business headquarters in Los Angeles.

Son of Lawyer

He was born in Minneapolis, the son of a lawyer who moved to California and left 15 million dollars when he died in 1930.

Six Rockefellers — David Rockefeller, Nelson A. Rockefeller, and Mrs. Jean Rockefeller of New York — are in the 100-to 200-million-dollar category, as is Mrs. Edsel Ford.

Oilmen in the 100-to-200 million-dollar category include James G. Thompson of Houston; Jacob H. Cohn of Baltimore; William H. Phipps of Los Angeles; and C. V. Starr of Dallas.

Funeral of Earl LaRue, 64, Friday At Middletown

Services for Earl LaRue, 64, of
rural Middletown, who died at 7
p.m. Wednesday after being in
an auto accident two hours be-
fore, will be at 2 p.m. Friday
in Middletown Methodist church
with burial in Irish Grove ceme-
tery.

Friends may call at Hender-
son-Jennings Funeral Home in
Mason City starting at 7 p.m.
Thursday.

LaRue was pronounced dead on
arrival at Lincoln Memorial hos-
pital.

He and his wife, Mary, 61 were
in a car when LaRue appar-
ently suffered a heart attack and
lost control of the vehicle. It
turned upside down in a ditch
about five miles west of Broad-
well.

To Home Instead

The couple, both deaf mutes,
were aided by Smith Bracey and
Clifford Klemm who told state po-
lice they thought LaRue should go
to the hospital but Mrs. LaRue
indicated she wanted to take him
home.

About an hour after he arrived
home he became violently ill
and was taken to the hospital.

Coroner John Barry plans an in-
quest.

LaRue was born July 2, 1893, at
Middletown, a son of Abe and
Mollie LaRue. He married Mrs.
Mary E. Flanagan Sept. 3, 1947,
at Carrollton. Survivors include
his wife; three stepsons, Harry
Flanagan Jr., Dalton; John Flana-
gan, Florida and Raymond Flana-
gan, California; two stepdaugh-
ters, Mrs. Hazel Mazeurk, Dalton;
and Mrs. Nora Mason, West Vir-
ginia.
