Twice-A-Week Service Ahead

The unemployment compensation office in the courthouse here will be open twice a week starting the second week of this month, State Rep. Robert W. McCarthy announced today.

The office will be open on Tuesdays and Fridays. Previously it has been open only one day a week. McCarthy began an attempt this week to get the office open more often when approximately 600 persons filed claims for unemployment compensation.

Many had to wait in line four hours to file their claims. R. C. Mulholland, Decatur office manager, conferred with McCarthy Friday and said the office would be opened two days a week.

Mulholland said his office, which is headquarters for this district, is handicapped by lack of personnel. His office handles several cities in central Illinois, including Lincoln, and has only 18 employees.

Mulholland said there is a chance that Lincoln will get a fulltime office in the next six months or a year. He told McCarthy he is looking for "better quarters" for the office. The office now is in the basement of the courthouse.

Leopold Will Try Again To Get Out of Prison

JOLIET, Ill. (AP) — Nathan Leopold turned to the Illinois Parole and Pardon Board today in a new attempt to get out of prison.

The five-member board planned to hear Leopold's latest application for parole.

Leopold, 53 now, has served 33 years and four months for his part in the 1924 thrill killing of Bobby Franks. He claims he is "bitterly remorseful" and asks a chance to justify his existence in the world outside prison walls.

His attorney, Elmer Gertz, said a series of witnesses have been called to testify along the general line that Leopold has been rehabilitated, it is safe to release him and that he can do successful work.

May Be Questioned

Gertz told a newsmen he expects Leopold to be called for a statement and questioning at the session in Stateville Penitentiary.

The board also planned to hear a bid for parole of Roger Touhy,

Chicago who is doing street for kidnaping.

Leopold, then 19, and 14-year-old Bobby Franks, then 14, were killed May 21, 1924, and stuffed in a culvert.

They stated, in their confessions, they wanted to do a perfect crime.

They entered prison Stateville in 1924, to serve life for murder. Leopold was sentenced to 30 years for kidnaping.

Leopold was slashed to death by a fellow inmate in 1936.

Twice Turned Down

Leopold failed in his bid for parole in 1933. The board turned down two subsequent requests for re-hearings. Governor William G. Stratton refused executive clemency July 1, 1937.

That left Leopold only one chance — the regular parole board.

A spokesman said the board will meet Feb. 29 in Joliet to consider its decision.

Review of Week's Chicago Livestock Trade

CHICAGO — A reduction in cattle and hog numbers at Chicago this past week helped strengthen the meat trade, and forced live prices higher on most cattle and hogs.

The bulk of the prime steers found a much broader demand this week, as order buying interests as well as local killers were in competition for the toppy kinds. Six loads of prime steers sold at \$32.50, the week's top. High choice and low prime steers also sold at the advance from \$29.50 to \$30.00 with the bulk of

the prime selling from \$30.00 up. Most of the advance was realized during the midweek trading, and that now puts the top kinds 50 to 1.50 above last week's close.

Trade Is Strong
Choice grade steers also enjoyed a stronger trade and sold generally 50 to 75 higher with most all weight choice steers cashing from \$25.50 to \$28.50. Many of the shorted medium kind, however, sold only on the strong side with mixed; good and choice 1000 to 1200 pounders selling from \$22.50 to \$25.00. The plainer grade utility standard and low goods cashed from \$17.00 to \$24.00.

The top of the heifer market moved back to \$28.50 by midweek and most choice and prime kinds sold strong to 50 higher than the week previous, with the bulk of the high choice and prime heifers now selling from \$27.75 to \$28.25. Choice grade heifers sold from \$24.75 to \$26.75 while the short fed kind cashed from \$24.00 to \$25.00. Plainer grade good and standard heifers cashed from \$20.00 to \$24.50, and the plainer kinds did not register the full advance of the week.

Trading on butcher stock found a slow market that was active and stronger all week, as cow prices moved the highest since 1932. Bulls sold stronger, \$21.25 top, and the bulk of the bolognas from \$18.00 to \$20.50. Vealers were unchanged, as fancy milked calves topped at \$32.00 and the bulk of all kinds sold from \$15.00 to \$28.00.

Swine Keep Steady

Moderate hog receipts added with a stronger pork trade went to make for a steady to strong hog market during each trading

pete more for the lightweight mediumweight butchers, a rowed the spread even in heavier top lightweight hog butchers cashed from \$17.50 to \$18.25.

Top hogs sold at \$20.00; the bulk of the lightweight kinds sold a quarter high the close of last week, from \$19.75 to \$20.25. These weight hogs, mostly on the 3 and 3 order sold from \$19.75. Butcher hogs of mixed 2 and 3 grade lots from \$19.25 to \$19.50, this lightweight butchers weight 250 lbs. Mediumweight butchers cashed from \$19.00, while the heavier kinds continued fully steady \$17.50 to \$18.25.

The sow market remained nearly steady, as top sows unchanged, while the sows over 450 lbs. moved higher. Extremely light runs have had a great deal with the advance of prices was the top for smooth light weighing 300 lbs. or under the bulk of the lighter kind ed from \$17.75 to \$18.25. A weight sows sold from \$17.75, while the heavier cashed from \$16.75 to \$17.75.

Slightly heavier lamb at the Chicago market this past week, sent live weak to 25 lower. Strictly lamb were absent in most trading sessions, therefore top remains untested. Church Destroyed

PANA, Ill. — A landmark of this central Illinois city, the First Baptist Church, was destroyed by a swiftly-moving fire Saturday.

Two other downtown buildings also were damaged by the blaze that firefighters from Taylorville and Pana fought during the evening hours.

The Rev. Albert Rust estimated damage to the church at \$200,000. There was no damage estimate to property at the Masonic Temple and Burkhardt Furniture Store.

Authorities said the fire apparently began in a 100-year-old rear section of the church and spread to the temple and furniture store. Cause of the fire was not determined.

Big Grant To Student Of Cancer

CHICAGO (U) — A 34-year-old University of Chicago scientist says he is "pleased" and "humble" with a grant of more than half a million dollars by the American Cancer Society to devote his lifetime to cancer research.

"Naturally, I am pleased," said Dr. Paul Talalay, a German-born physician biochemist in commenting on the grant which will provide his annual salary at the university until he reaches retirement age.

He Remains Humble

"I also am humble, realizing the responsibilities that go with the honor. However, the whole idea is that the money will be given to the University of Chicago to support me and to pay my salary for special research."

"I wouldn't know what to do with half a million dollars and neither would you," he told a reporter.

Dr. Talalay, who has been doing research in the activity of sex hormones and their enzymes, has been at the university since 1950. He received his medical degree from Yale University in 1948.

The grant, the largest ever made by the society to support the research of a single individual, represents a big part of the entire 11½ million dollars the society allocated throughout the nation for research in 1957.

Works Seven Days

Associates at the university said Dr. Talalay, who was educated in England and the United States, normally spends seven days a week in the laboratory.

Sunday, however, he said that for the "first time in years, I'm going to have a pleasant day with my family." He has a 4-year-old son and a 1-year-old daughter.

Announcement of the grant was made Saturday at a national meeting of the society attended by some leaders in the field. They made plans for a 30-million-dollar fund drive for research, education and service.

Knife-Wielding Terrorizer Object of Chicago Search

CHICAGO (U) — Authorities today intensified a search for the companion of a knife-wielding teen-ager who slashed, robbed and held captive a student nurse and three hometown girl friends visiting Chicago.

One of the attackers was seized Sunday by a Chicago Transit Authority detective who heard the girls' screams in the lower landing of a West Side El station.

Police identified the attacker as Henry Marshall, 19, Negro. Marshall told police he came to Chicago from Vicksburg, Miss. a month ago.

Negro From South

Marshall identified his knife-wielding accomplice as Johnny Lee Trimble, also a Negro from Vicksburg.

The women were Miss Betty Kime, 24, a nurse in training from Grand Rapids, Mich. - and her chums, Misses Anne Dykstra, 24, Jean Young, 21, and Grace Vruwink, 22.

Miss Kime and Miss Dykstra were stabbed and taken to the Cook County Hospital nurses infirmary. They were reported in fair condition.

Miss Young suffered minor scratches in her struggle with the two men.

CTA Detective Albert Nicpon, 57, who came to the aid of the four women, also was stabbed. He also was reported in fair condition.

Had Seen Movie

The women told police that they were alighting at the Polk St. station after attending a Loop movie when they were confronted by the two attackers.

Police quoted the women as saying the two men forced them into the basement of the station where their purses were taken.

Stock Market Turns Higher

NEW YORK (AP) — Scattered gains gave an irregular stock market a slightly higher tendency early this afternoon, trading was moderate.

Key stocks showed fractional changes, seldom approaching a point on either side.

A few so-called secondary issues showed a bit more vigor but the usual market leaders moved narrowly.

The market was fairly active in a mixed opening. Then trading slowed until the second hour when there was a slight pickup with some improvement in prices.

Economic news remained ragged and economic forecasts were contradictory. A government report that unemployment had a huge jump of 1,120,000 in January brought no immediate reaction.

RURAL FIREMEN remained on the scene for several hours of near-zero weather Wednesday morning when they responded to an alarm at the Burtonview rural school. The blaze started from a faulty flue, and burned a hole in the roof at the rear of the frame building. Observers of Space Barrel Rider Happy

SAN ANTONIO, Tex. — Air Force scientists showed optimism today as Airman Donald Farrell passed the halfway mark on his simulated moon flight. The blond, six-foot airman from the Bronx, after theoretically flying over lunar wastes, was speeding earthward again in his make-believe flight in a compact space cabin.

The airman, still bright and chipper, completed the halfway mark at 9:35 p.m. Wednesday night. His seven-day flight is scheduled to end Sunday.

Getting Surprised

"We are constantly surprised," said Lt. Col. George R. Steinkamp, "at Farrell's continual alertness, lack of fatigue, and especially his lack of boredom." Steinkamp is head of the department of space medicine, School of Aviation Medicine, at Randolph Air Force Base here.

Steinkamp and other scientists show guarded optimism over man's ability to withstand the strains and stress of air travel. But he said, "We've got to run other tests." He let it be known that Farrell is just the first Air Force guinea pig for space flight tests.

Air Force scientists said the many instruments attached to electrodes taped over Farrell's body show no significant changes

whatever. They measure respiration, heart action, blood pressure and other physical conditions.

Only Once Irritated

Only once has the 23-year-old son of a Wall Street accountant shown signs of irritation. He can have either radio music or taped music channeled into his space cabin.

Factory at Cicero Burns; Fireman Hurt

CHICAGO — A fire early today destroyed a large factory building owned by the Strom Steel Ball Co. in suburban Cicero and ignited an adjacent structure before the blaze was contained.

Fire Marshal Theodore Wesolowski estimated damage to the Strom facilities and a Roth Rubber Co. building at one million dollars.

No one was at work in either plant. William Zahrobky, assistant fire marshal, was treated for smoke inhalation.

Firemen from Cicero, Berwyn and Chicago fought the blaze for about four hours before it began to subside. Cause of the fire was not determined immediately.

Starts in Ceiling

Wesolowski said the fire apparently started in a false ceiling above the first floor of the Strom building. Firemen were unable to enter the structure because of smoke when they arrived, he said, and then the entire building burst into flames.

Sparks and heat from the Strom plant — fanned by a 15 m.p.h. wind — ignited a shipping dock at the Roth factory. Flames from the 60 by 200 feet Strom building rocketed 150 feet into the air.

Walls of another nearby plant, owned by Amphenol Electronics Corp., were scorched.

Stock Market Turns Higher

NEW YORK — The stock market snipped its string of daily declines at six and was ahead in moderately active trading early this afternoon.

Leading issues rose on a broad front, rising fractions to more than a point.

Drugs, helped by some reports of record earnings, were pacesetters as they continued their recent advance.

Nude Man Eating Soap Scares Women Shoppers

NEW YORK (AP) — A nude young man who ate soap was an unadvertised special in a Manhattan supermarket.

Two dozen women shoppers screamed and shouted as the good looking fellow strolled along the aisles loading a shopping cart.

The clamor of the women rushing from the store attracted a big crowd.

The store owner called the cops. When they arrived they found the naked shopper chewing on a cake of soap.

He fought when they tried to put a butcher's apron on him. Finally subdued and covered, he was taken to Bellevue Hospital for psychiatric examination.

He refused to give his name or address.

Week's Review of Livestock at Chicago Market; Prices Higher

CHICAGO — The price level for cattle, sheep and hogs rose to the highest point for February in several years in trading at the Chicago Stock Yards this week. Prime steers soared to \$34.25, the highest top since 1925.

The price spread between top good and top prime steers has widened to \$10.00 per cwt., compared to \$3.00 only six weeks ago. Most to choice and prime steers moved 30 cents to \$1.50 higher than a week ago.

This kind of market with a broad local and Eastern order buyer demand. Average choice steers did not meet with the strong action of the better kinds and the bulk of this grade sold from 25.50 to 26.50. Short-fed good and choice grade steers sold steady to 50 cents lower as the bulk of the supply moved seaward from 22.50 to 26.50. Light weight, thin, plainer grade steers were scarce and met with a strong demand, selling mostly from 13.00 to 22.50 and most of the sales were 25 to 50 cents higher on this kind than a week ago.

Heifer Market Up. The top of the heifer market rose to 29.00 early in the week, but an acute shortage of high choice and prime heifers by mid-week dropped the top back to 28.50. The bulk of the high choice and prime heifers are now selling up from 27.50. Most of the better action is centered on the topky kind. The major share of the week's supply was standard, good and low choice kinds, and the trading was noticeably slower as buyers were attempting to cut the live costs on this kind. Good honest fed choice heifers weighing between 900 1100 lbs. sold from 25.00 to 27.00, while some of the short-feds of this grade cashed from 23.50 to 25.50. The plainer quality good-grade heifers sold from 21.50 to 24.00. Standard and utility heifers cashed.

The board which heard his plea is headed by Franklin U. Stransky of Savanna, Ill. The members are John M. Bookwalter of Danville, Robert J. Branson of Centralia, Joseph G. Carpenter of East Moline and Joseph F. Novotny of Chicago.

If denied parole, the next date for a hearing has been previously set for 1955. Of course, he could petition for a rehearing before then, as he did this time.

Reds Offer Freedom to Passengers on Airliner

TOKYO — The Communists today offered to give up anyone from the South Korean airliner that flew north Sunday who wants to quit North Korea. But it hedged by demanding that the South Korean government negotiate the release directly with the North Korean regime.

"Among those who were aboard the plane which came over to the North, there are some who desire to return," Pyongyang radio said, "If they desire so, they will be allowed to go where they want to."

Already Made Clear

But the Red radio added: "Our side has already made it clear if the South Korean authorities really want to realize the hope of those desiring to re-

ment. This strengthened the belief in Seoul that the plane had been seized in the air by Red agents after a battle.

Speculation Aroused

The new Communist demand for negotiations with President Syngman Rhee's government aroused immediate speculation that the Reds are seeking talks into which they could introduce their demands for withdrawal of U. S. troops from South Korea and unification elections under the auspices of "neutral" nations.

U. S. and South Korean spokesmen have rejected both demands, contending that the Americans cannot pull out until the peninsula is safely unified and elections in the North will

Beck Denies Guilt After Sentencing

SEATTLE — "I am no more guilty than anyone in this courthouse," said Dave Beck after he was sentenced Thursday to up to 15 years in prison for stealing \$1,900 from the Teamsters Union.

The recently deposed master of a labor empire with 1 1/2 million members issued a formal statement indicating a long fight in the courts to escape the prison sentence.

"I am sure that in due time justice will prevail," he said.

Hard To Believe

Beck, 63, stood in shaken disbelief when King County Superior Judge George H. Revelle sentenced him for grand larceny for misappropriating funds from the sale of a union-owned car.

Beck's son Dave Jr., 37, had been sentenced earlier in the day on two counts of grand larceny for misappropriating \$4,650 from the sale of two union cars.

A twitching muscle was the only movement from the flushed elder Beck when Judge Revelle told him: "Though we are dealing with a relatively small amount of money as measured against the good you have done, if I were in such a position of trust and had committed such a violation, I would expect to answer for it with the greatest consequences society permits."

Judge Revelle and Prosecutor Charles O. Carroll both said they would recommend to the State Board of Prison Terms and Paroles, which sets minimum sentences, that Beck serve at least three years, less time off for good behavior, which could trim his prison time to two years.

Attorneys for Beck Sr. said they would appeal the grand larceny conviction. Beck Sr. remained free on \$3,000 bail.

Sentencing of young Beck was deferred for three years on condition that he (1) pay a \$2,000 fine plus the costs of his trial, (2) repay the \$4,650 to the Teamsters Union with his own funds and (3) sever all connections with organized labor either as an officer or employee.

Truman Saves 'G' 'Em Hell' for

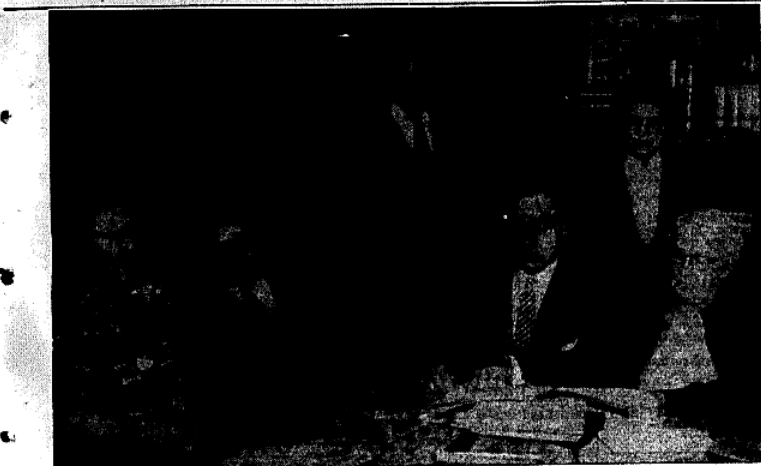

WASHINGTON — President Truman, appearing on a "Give 'em hell" movie, has been talking politics around the country. But he said he's holding out for a fund-raiser Saturday night.

A Democratic victory "in the air, and I'll tell you why," he told newsmen.

In an interview Thursday, Truman said the United States is in "enough trouble" to need a Democratic president back in the White House. He predicted Democrats would score a "whopping victory" in the congressional election sweep on to take the prize in 1960.

Whenever the country is in trouble, he said, it always turns to the Democratic party.

CROP Post For Shelton

Ralph Shelton, New Holland, has been selected as a CROP district supervisor for Logan, Mason and Menard counties, according to word received today from Elvin D. Frantz, state CROP director at Springfield.

Shelton will be working with church and farm leaders through the organization of county CROP boards and in the promotion of a drive for farm commodities later in the year. The foods collected annually through CROP, the Christian Rural Overseas Program, are shipped by Church World Service and other agencies to areas of need overseas. Most of the distribution is by missionaries and other church workers.

Shelton, a farmer and an active leader in his community, recently accepted a special citation as chairman of the state CROP committee, honoring Illinois for being second in contributions in the nation in 1937.

Wilson Radway, of Elkhart, Ind., presented the award. Kansas was the only state to exceed Illinois last year. A goal of 200,000 bushels of corn has been set for the 1938 drive.

Boys Take Fright After Seeing Body in Casket

KANSAS CITY (AP) — Six teenage boys have been arrested for allegedly breaking into a three-story mausoleum housing 16 bodies and opening a casket.

Richard Kelly, a sheriff's investigator, said the boys "got scared after pulling the casket out of the wall and seeing the body in it." They gave no reason for their vandalism, he said, but it was apparently the result of a dare.

The mausoleum, a landmark at nearby Holden, Mo., was entered July 29. Officers didn't say why it took so long to complete the investigation leading to the arrests.

All six were charged with desecrating the dead and trespassing on a private burial ground, a felony. None of the six have been attending school.

Stocks Uneven In Day's Trade

NEW YORK, Feb. 24 — A sluggish
stock market declined unevenly
early this afternoon.

Losses of fractions to a point
among key stocks were relieved
by a scattering of gains in about
the same range.

The market assumed its slight-
ly lower tone in a moderately ac-
tive opening and maintained it in
uneventful transactions.

Motors, aircrafts, chemicals,
rails, oils and distillers took
small losses. Steels, base metals,
utilities, radio - televisions and
building materials had an irregu-
lar edge to the upside.

Corporate news remained spot-
ting in the latest batch of eco-
nomic news.

Knowland Has Eye on Presidency

WASHINGTON (AP) — Sen. William Knowland of California has set his sights on the 1964—or possibly 1968—Republican presidential nomination.

Knowland, the Senate Republican leader who is running this year for governor of California, practically took himself out of the 1960 presidential contest with a conditional endorsement of Vice President Nixon.

"If I am elected governor of California I expect to serve out my term," he said in an interview. "I think Dick Nixon is likely to be the presidential nominee and I would support him."

Knowland made it clear, however, he is not foreclosing the possibility that he himself would become a candidate for the 1960 nomination if anything should happen to eliminate Nixon from the race.

Refers To General
The Republican leader said he had no intention of "Shermanizing" himself to the extent of saying he would not accept the nomination or would not serve if elected. He referred to the statement made after the Civil War by Gen. William T. Sherman.

Knowland's decision to wait it out beyond 1960 apparently is based on the belief that (1) Nixon now is far ahead in the contest for the nomination, (2) that 1960 might not be a good year for the Republicans and (3) that he is young enough at 49 to bide his time until 1964 or even 1968.

The Knowland strategy apparently takes into account the possibility that Nixon might be nominated and defeated in 1960 and thus open up the field for Knowland in 1964. If Nixon were elected in 1960 and again in 1964, Knowland still would be available in 1968 if he continued to hold the California governorship.

Blame H.S.T. For Campaign Of U.S. Fear

WASHINGTON (AP) — Republicans accused former President Truman today of conducting a "fear" campaign they said could bring about an economic depression.

Truman's Saturday night broadcast against the "economic misrule" he said had produced a Republican recession was assailed by leading GOP senators as a disservice to efforts to lift the business downturn and to lift employment.

Sen. Wiley (R-Wis.) said that this is not a period when "men who have been in high places can afford to ignore their responsibilities."

Not Bound For Dogs
Citing income and employment statistics, Wiley said the country is not going to the dogs.

"But if the people are going to continue to be told that everything is haywire they are going to get in a mental condition where they will stop spending and then anything could happen," he said. "What Harry Truman is doing is creating fear of the worst kind."

Sen. Francis Case (R-S D) agreed in a separate interview, while nearly a score of other Republicans issued weekend statements criticizing various parts of Truman's speech at a \$100-a-plate dinner.

The statements used such words as irresponsible, cynical, untrue, demagogic and reckless.

But Sen. Mansfield (D-Mont) said he agrees with Truman's statements that the country is "tired of being bamboozled by the Republicans" and is likely to give the Democrats sweeping victories in this year's congressional races and in the 1960 presidential contest.

"Spuds and Sputniks"
"The big issue in this year's campaign is spuds and sputniks," Mansfield said in an interview. "If the people don't have the spuds, there won't be any more Sputniks as far as we are concerned."

Truman said that the results of five years of Republican White House rule could be added up in five million or more unemployed, millions more working part time, increasing bankruptcies, neglected school programs, overcrowded colleges and hospitals and highways in need of rebuilding.

Adlai E. Stevenson, who spoke to one section of the double-header dinner said that five years of Republican rule had been "stained by heavy failure in many areas — the excesses of McCarthyism, the disintegration

Kinsey Institute Has Report on Pregnancy

NEW YORK (AP) — One in 10 American women becomes pregnant before marriage, the Kinsey Institute reported today.

Of those pregnancies which do not lead to quick marriages, 89 per cent end in abortion, the institute said, 8 per cent produce illegitimate children and 5 per cent end in miscarriage.

A copyrighted article in the current issue of McCall's magazine is based on the report, the first issued by the Institute for Sex Research at Indiana University since the death of the institute's founder, Dr. Alfred C. Kinsey, in 1956.

The report, titled "Pregnancy, Birth and Abortion," also said: **Abortion Prevalent**

Among all women of child-bearing age now alive, one in seven has had or will have a premarriage abortion.

Most unmarried women who undergo abortions continue sexual relations afterward. Only 3 per cent stop.

"Shotgun weddings" are comparatively rare. Only 19 per cent of single women who become pregnant marry during their pregnancies. Half these marriages eventually break up.

Women born during the Gay 90s were less sexually promiscuous than those who reached adolescence during and after the Roaring 20s. The flaming youth of the 20s apparently set a new sexual pattern for the nation.

Two thirds of the single women who have had abortions reported no unfavorable consequences whatever.

Linked to Religion

The more devoutly religious a woman is, the less likely she is to become pregnant before marriage.

Of women who marry after reaching 30 years of age, 31 per cent having premarital sexual relations become pregnant and 30 per cent have abortions.

The magazine article is based on the third book in the famous Kinsey reports on sexual behavior.

Urging Heart Fund Giving

"This is the last week of Heart Month, but it is not too late to help your heart with a contribution to the 1958 Heart Fund," says Mrs. Mildred Johnson, chairman for the Logan County Heart committee of region 10 of the Illinois Heart association. Letters have been sent to Lincoln residents asking their sup-

por to be published May 14.

The statistics are derived from the group of nearly 8,000 women interviewed for the institute's 1953 report, "Sexual Behavior in the Human Female." After eliminating certain women what remained was a sample of 5,293.

Only One in Five

In its 1953 report of female sex behavior, the institute said half the women questioned had sexual experience before marriage. Of these, one in five becomes pregnant, the new report said.

"Pregnancy before marriage is not just a rare problem, not just a mischance which affects an occasional ignorant farm girl, but a widespread social problem," the report said.

What kind of women are most likely to have sexual relations before marriage and become pregnant? It depends on many factors, according to the article, varying from "a chance fragrance in the summer air" to "a woman's own sexual appetite."
