Rally Enters Stock Market

NEW YORK (AP) — The stock market rallied mildly in moderately active trading early this afternoon. Wall Street showed relief that the Federal Reserve board had not upped the discount rate, as was generally expected for late Thursday.

Prices moved ahead briskly at the start, then the best gains were sliced and the market's pattern became irregularly higher at best.

Key stocks kept gains running from fractions to a point or more but an assortment of small losers appeared here and there.

After three straight sessions of selling pressure it was apparent that prices were low enough to arouse speculative interest in spite of the long Labor Day weekend ahead. The market will be closed on Monday.

The trend was mostly higher among steels, motors, rubbers, aircraft, oils, drugs and electronics. Coppers were lower. Chemicals and tobaccos were mixed.

American Motors was up about a point to stand out in the automotive section.

L.C. Speaker Calls for Study, Hard Work Habits

"Don't let that be you," warned Norman Ross, Chicago news commentator, as he spoke at the Lincoln college convocation Sunday afternoon.

Ross, who received an honorary degree, used this quotation to alert his listeners to the possibilities and needs for education—

"This, in America, is the high tide of mediocrity, the great era of the goof-off, the age of the half-dope job. The land from coast to coast has been enjoying a stampede away from responsibility. It is populated with laundry men who won't iron shirts, with waiters who won't serve, with carpenters who come around some day, maybe; with executives whose mind is on the golf course... with students who take cinch courses because hard ones make them think."

Students All Live

Ross expressed a wish that the students hearing him "will be students the rest of your lives—even when you are 90. It can be

done." The speaker urged the students "take something away from your two years at Lincoln college that will intoxicate you with the desire to learn."

He expressed the regretful opinion "It is difficult in these days for any of us to tell each other we use the same words. We mean different things. I don't have to tell you how tragically difficult it is for one country to talk to another. The languages, the ideas, the prejudices and the goals are different."

Ross added "it is difficult to talk even between the sexes... I mean real communication from spirit to spirit and soul to soul and mind to mind."

Education Guages Income

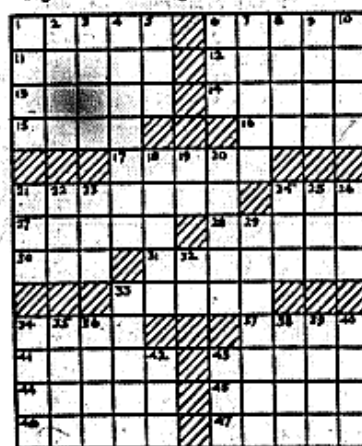

The convocation speaker informed the students "if you graduate from elementary school, you can expect to earn \$116,000; from high school, \$165,000; and from college, \$426,000." He then asked — "can you afford not to go to college?"

Pleased by Lower Illinois Auto Toll

By The Associated Press

Traffic safety officials today applauded a sharp decrease in the number of Illinois auto fatalities over the Labor Day weekend.

At the close of 72-hour holiday period at midnight Monday, there were 14 traffic deaths, 3 drownings that resulted from boating accidents, 3 non-boating drownings and 2 deaths from miscellaneous accidents.

TERMED "REMARKABLE"

"It was an extremely satisfactory record," said a spokesman for the state traffic coordinator's office. "Compared with adjacent states, all of whom showed increasing death rates, Illinois' accomplishment was remarkable."

The spokesman attributed the decrease this year to all-out efforts by local and state law enforcement agencies, and awareness of traffic perils by motorists.

Two persons drowned Monday. Raymond Meister, 32, of Peoria drowned at Spring Bay on the Illinois River near Peoria. He was trying to rescue Mrs. Mary Lookhart, 22, of Peoria, who fell off his cabin cruiser. She was rescued. In Chicago, Lawrence Lowell, 9, drowned in a South Side pool.

Saturday, Aaron Maddox, 51, of Quincy, drowned in a boating accident on the Mississippi River. Teacher Electrocuted

Miss Mary Joyner, 49, a Chicago high school teacher, was found electrocuted in her home Monday evening, and Carl Marshall 23, of Elviston, died Sunday of a gunshot wound.

one-car smashup Sunday near Taylorville.

Louis C. Bauman, 31, Cicero, and Jack Westphall, 24, Aurora, two-car collision Sunday near Osageo.

Toastmaster Talk For Kiwanis Club

How Lincoln-Logan Toastmasters club operates was explained for Kiwanians at their Tuesday luncheon at Hotel Lincoln by Harry Bucher. A past president of the Toastmasters, he is also a past area governor.

Initial step in the election of 1960 Kiwanis officers was taken with naming of a nominating committee of past presidents by Pres. Finlay Cameron. On the committee will be Homer Harris, Jr., Robert Taylor, Armin Fricke, Dr. Dean Goebel and Norman E. Landauer.

Declaring Toastmasters is not a service club, Bucher said it is set up to assist its individual members in building personality and leadership. Citation Accompanies Ross Degree

For his contributions in the world of news, Norman Ross of Chicago received a doctor of humane letters honorary degree from Lincoln college Sept. 6. The citation accompanying the degree read by Pres. Raymond Dodley, follows:

From high school days, you have interested yourself in political and diplomatic history. This interest you used as a basis for your undergraduate study at Stanford University, and continuing in this field, you did graduate work under the auspices of the Rockefeller Foundation in American political and diplomatic history. You deepened this background with intensive study of the Russian and Chinese languages at Oxford University.

All of this study came to fruition in the services of your country, when during World War II you prepared and broadcast a weekly commentary of the world and war situation over the Armed Forces radio network. In addition to these important information duties, you wrote and published many stories and commentaries widely distributed to our Armed Forces.

Since your war service you have, through careful reporting, deep understanding and brilliant

interpretation, brought to the radio audience and no great television and radio daily events which occur in disturbed and fast moving. In addition to concise and backed commentary on your news broadcasts, you through your V.I.P. tel program, brought a long of news makers within the and to the ears of a wide audience. On this program, you brought light through a fully personal exchange of complex problems and events.

In addition to your full of professional assignments have given freely of you and talents to the Chicago Council of Foreign Relations, to Free Europe, to the CAF program, and to youth organizations too numerous to list. In addition, you have received World Understanding Award from the Council of Foreign Relations and a citation from your industry in the form of an award.

To these, it is my honor the recognition of Lincoln for distinguished public

Mob Attacks Police Officers in New York

NEW YORK (U) — A crowd of 300 attacked two policemen with soda bottles, stones and sticks Wednesday night when they arrested two teen-age gang members of a West Side street.

The arrested youths, Reuben Aguirre, 16, and Tomas Martinez, 18, were members of the Buccaneers gang. Other members of that gang were involved in the slaying of two 16-year-old boys in a Hell's Kitchen playground Aug. 30.

Patrolman Frank Pillar said he found about 20 boys gathered in a sidewalk and ordered them to disperse.

"Free Country"

"I ain't moving for you," Aguirre was quoted as saying.

"This is a free country."

"You're under arrest," the patrolman said.

"I ain't going with you," retorted Aguirre, who is president of the Buccaneers.

Pillar said the boy lunged for his nightstick and a shouting crowd gathered. Pillar held tight to Aguirre as Patrolman Richard

Then, Ware withstood the barrage of hurled objects until seven radio cars arrived with reinforcements. It took nearly an hour to clear away the crowd. Charges On File

Martinez, who was arrested for throwing a bottle, was charged with felonious assault. Aguirre was charged with resisting arrest and disorderly conduct.

The police crackdown on young criminals, begun last Friday, has resulted in the arrest of more than 425 youths under 21.

On Staten Island, 30 young men and teen-agers rode into a police station demanding to know why two patrolmen had chased them from a candy store. They arrived in a motorcade.

Five were booked on disorderly conduct charges.

Police said they were "cocky" but orderly in the police station, and that the charges stemmed from their conduct at the candy store.

Complaint By Owner

The owner of a candy store had complained that a young

at first, but left when the policemen started to call for reinforcements.

Less than an hour later, the group drove up to the station house to voice the complaint.

Weight Control Classes Will be Logan Heart Committee Project

A series of nutrition-weight control classes will be launched by the Logan County Heart committee. Classes will be at Abraham Lincoln Memorial Hospital.

Organization of the classes was prompted by reports from medical and health authorities who generally agree that overweight is one of America's most serious health problems today. Health agencies and insurance companies who have made studies on obesity estimate that 30 to 25 per cent of the population in the United States today, or one person in every four or five, is overweight to the point that his health is affected.

A person is considered overweight when he is 10 per cent or more above his desirable weight as determined by standard tables and by his physician.

Overweight persons may be more likely to develop many chronic illnesses earlier than people of average weight. Overweight adds to the work of the

heart. Studies also show that overweight shortens life.

Have Four Purposes

"Our aims and purposes for the nutrition-weight control classes are four-fold," said Dr. D. M. Barringer, chairman of the medical advisory committee of the nutrition-weight control program.

"We hope to alert people to the health hazards of overweight; to encourage people with

special overweight problems to see their family physician; to help people understand the advantages of maintaining desirable weight and to stimulate interest in achieving this purpose; and to help people achieve and maintain desirable weight in healthful ways through a group approach."

Classes will be opened to men and women over 21 years of age, and they must be referred by a physician. Applications will be available at physicians' offices, or can be obtained from Mrs. Grace Matheis at Abraham Lincoln Memorial Hospital.

Ice Show Will Be at Bradley

The National Alumni Association of Bradley University will sponsor a five day stand in Peoria of the 1939 edition of Holiday On Ice. The world-famed ice show will be at the Bradley Field House Sept. 23 through 27.

Recovery in Stock Trade

NEW YORK — The stock market recovered moderately today. Trading was quiet.

Most leading stocks advanced from fractions to about a point. Motors were the most active group and moved ahead except for Chrysler which took a slight loss. Rails made a rebound. The trend was mostly higher among steels, coppers, electrical equipments, electronics and electrical equipments.

Aircrafts dropped, showing some nervousness over chances of a thaw in the cold war now that Soviet Premier Nikita Khrushchev is in the country. Oils, aircrafts, building materials and rubbers were mixed.

The market staged a mild upturn from the start as it carried through on Tuesday's recovery move which halved sharp losses. It looked like a trading market as oversold issues were picked up at marked-down prices.

TORONTO, Ont. — Officials expressed belief today that knowledge of the Toronto Art Gallery's burglar alarm system enabled thieves to make off with \$64,000 worth of masterpieces.

The thieves worked through the night, hacking six masterpieces from their frames and damaging two others.

Stocks Break, Then Steady

NEW YORK 16 — The stock market dropped sharply today but early this afternoon had steadied above its lowest prices. Trading was fairly active.

As selling reached its climax the ticker tape ran late for an 11-minute period. Stocks began to rally while the tape was running late. Steels, motors, rails and oils were briskly traded on the downside.

Leading stocks were down from fractions to about 2 points. More speculatively issues showed losses going to around 5. They shaved early declines which stretched to

Logan County corn yields may be better than expected if yield checks made by Farm Adviser Harold Brinkmeier and Assistant Glenn Bevington are any indication.

A minimum tillage corn plot at the William Wager farm near Broadwell was checked Tuesday afternoon and yielded 118 bushels when weights were converted to a dry shelled corn basis. Moisture tests showed a variation of 26.4 to over 35 per cent. This high yield was recorded on a plot that has been in continuous corn which was plowed early last spring and after the middle of May with a Burch planter mounted on a wheel disk. A pre-emerged spray 24-D was applied at planting time, the corn was cultivated twice and sprayed a second time to control late weeds.

Stock Market Rally Fizzles

NEW YORK (AP) — A stock market rally fizzled and prices moved unevenly this afternoon. Trading was fairly active.

Gains and losses of key stocks went from fractions to a point or so.

The list staged a brisk rebound at the start after three straight sessions of serious decline. But after the initial buying was out of the way there was nothing to sustain the recovery and prices milled in a hodge-odge of plus and minus signs.

Motors and steels were pace-makers at the start and continued active in later dealings when most showed small losses.

Some of the space age stocks and other wide movers recouped 3 to 6 points at the start but few held gains later.

The steel strike was in its 70th day. Uncertainties remained in regard to the outcome of Premier Khrushchev's visit.

Initial gains of fractions to a point among the leading steels and automobiles were largely canceled.

Recovery of Muong Het would be a major achievement for the government. It was the first town to fall in the path of the Laos advance of Aug. 30, the biggest operation of the 10-week-old war.

LONDON (AP) — The official Soviet news agency Tass asserted
