Union, and "I would welcome more of it" to provide the Russians with a more accurate reflection of the American point of view.

German Aid—On the basis of his recent talks with West German officials, Kennedy has concluded that the Adenauer government intends to provide aid to underdeveloped nations on a continuing basis.

"As to how much they will be able to do on a continuing basis, that is a matter which they have to determine and I am sure will be a subject of discussion between the United States, the Germans, and other interested countries."

Algeria—Kennedy hopes current negotiations aimed at ending the war in Algeria will prove fruitful.

Oil Prices—The President expressed concern over what he called the sharp increase, 12 per cent, in the cost of fuel oil in Eastern and Northeastern United States.

"That increase," he said, "has seemed excessive, and as you know, several agencies of the government are now investigating to find out what was the cause of that..."

Meriwether—As for his nomination of Charles Meriwether to be a director of the Export-Import Bank, Kennedy was asked whether there was anything in Meriwether's background that would embarrass the administration.

"No," the President replied. "I have sent Mr. Meriwether's name up (to the Senate) after reading the FBI report and other records."

RAGEDY TRAIL:

Face Charges Death of Children

Then wrapped them in blankets, weighted the human cargo, and tossed the dead boys into Lake Pontchartrain in Louisiana. Then there were three.

Debbie, 3, was next-to-youngest of the children, and the next to go. She died at Gary, W. Va., May 21, 1960. Six days later, Dudley wrapped her body in a blanket and left it in the woods off a highway near Jenkins, Ky.

At Gary, authorities said they would launch an investigation into Debbie's death. The McDowell County prosecuting attorney, Harry S. Camper, said a carnival played in a baseball park at Gary last May.

Reduced To Two
Then there were two. With Carol Ann's death last month, only one: Christine, 2½.

Christine was with the Dudleys when they were arrested Feb. 10 at Fuquay Springs, N.C., a day after the discovery of Carol Ann's body. She seems in good health and is now in a foster home in Lawrenceville, under care of the Brunswick County Welfare Department.

Mr. Dudley, a frightened-looking woman with black hair, is in jail in Lawrenceville. Her husband—tall, dark-haired, bespectacled—is in the State Penitentiary in Richmond, where he was transferred recently after attempting suicide.

Warrants charging the Dudleys with murder were dispatched to Brunswick County police by the commonwealth's attorney of Hanover County, Leslie Campbell. The couple first, however, must await disposition of the Brunswick County charges of neglect by County Court.

The Dudleys — in 1952 are known to have had 10 children. Christine and two married daughters who live in Fayetteville, N.Y., are all who now survive.

One child, Edward, born to the couple in 1937, died when three months old. Another born in 1941, Kenneth Jr., died in New York in 1947. Dudley served a prison term for burying him illegally.

Claims Increasing

CHICAGO (U) — Claims for unemployment benefits rose again in Illinois last week although filings for initial claims dipped slightly.

Robert Johnston, state labor director, said Wednesday that persons filing for additional benefits under an emergency program accounted for some of the increase.

The total claim figure rose to 194,975 from 190,782 the week before, an increase of 2.2 per cent.

In the same period, from 20,382 to 19,363.

The additional benefits were claimed by 3,941 persons.

Logan Farm Meetings to Begin Friday

A survey of all farms in Logan County which produce feed grains will get under way in the next day or so, according to Harry Martin, Office Manager of the County Agricultural Stabilization and Conservation.

The survey is being conducted throughout the "major feed grain producing area" (which includes Logan County) as an advance step in connection with proposed feed grain programs now under discussion. The proposals would include adjusting the 1961 acreages of feed grains which are corn, grain sorghums, oats, and barley.

To put such a program into operation for 1961 crops in a manner which would be fair to all growers, accurate data must be obtained immediately for the possible establishment of feed grain base acreages for all farms in the major feed grain producing area. Such information will include the acreage history of corn, grain sorghum, barley and oats, as well as the acreage devoted to other crops and land uses, for all farms in the area where one or more of these feed grains were produced within the past 2 years.

Cooperation Asked
Farmers who supply feed grain and other acreage figures at this time will not be obligated to participate in a feed grain program if one becomes available, but will be eligible to participate. However, Mr. Martin points out that a program can be quickly put into operation if the necessary farm acreage information is on file at the county office. He asks farmers' cooperation in providing information that will be needed before a program can be started.

Martin said in Logan County "It is the intention to obtain the acreages of feed grains and other crops on all farms through meetings in various communities. Meeting places and dates have been scheduled."

"If farmers will review the crops raised during the past two years, and have such information available, this will enable ASC to carry out this work faster and more economically," Martin said.

"HARD TO WHIP"

ATLANTA — In back row: (above) Ralph Rose, vice-president of Atlanta; Paul Taylor, Marysville, Ohio; Michael Crouch, Elmwood, Ill.; Randall McCutcheon, junior vice-president of Reedy, W. Va.; John T. Craft, chairman of Wichita, Kan., in front row, Charles H. Craft, executive secretary-treasurer of Wichita, Harley Sutherland, Cloverdale, Ind.; Bernard Emanuel, president, Bloomfield, Iowa; and Jack Ward, Marysville, Mo., were present for the recent meeting of the National Sheep Shearers Assn. directors in Atlanta, with Ralph Rose as host.

W. E. Hughes of Harrod, Ohio, a member of the association also attended. The association is an independent, non-governmental voluntary organization of sheep shearers who are aware of the common need to share the problems, experiences and achievements of the hundreds of men dedicated to the job of shearing. These men are also aware of the need of a better wool market and are trying to do something about it. The new group has a potential membership of 5,000.

The purpose of the association shall be to provide national advertising for the benefit of wool and lamb producers either directly or through affiliated associations; to promote activities that make toward improvement of the sheep industry in general and provide on the job training for young men in FFA, 4-H, or any others who desire to improve their skill or desire to enter the sheep shearing profession; to encourage cooperation of all sheep shearers, to have a dedicated and loyal spirit toward the sheep shearers, to have a dedicated and loyal spirit toward the sheep shearing profession and to advance the basic importance, prestige and position of sheep shearers in the national economy.

The N.S.S.A. is not a union. Sheep shearing is a profession, it is claimed. Ralph Rose of Atlanta has been shearing sheep since he was 19 years old. He and his father, Elmer Rose, of Peoria, started the trade in 1937 in Tazewell, Woodford and Peoria counties. After serving with the First Marine Division in the South Pacific in World War II, he decided to take up the barber trade. Attending barber school in Peoria he received his license and harbored in winter while he sheared sheep in summer. In 1950 he moved to Atlanta and in the ten years of shearing he has sheared for more than 300 customers and retains his barbership here. He has completed in several contests at the Inter-national Livestock Show receiving 3rd place twice, and placing in the top eight several times.

An average day's shearing for Ralph is 100 to 125 head, although he has sheared more than 200 and three times has hit 225. To Ralph "sheep-shearing is fascinating work," he says, "after you shear for a few years you wouldn't like any other kind of work."

Clear, Neutral English in New Testament's Revision

By RAYMOND E. PALMER
LONDON — A New Testament in modern English, 13 years in the writing, went on sale today.

Known as "The New English Bible, New Testament" it strips away the language of the King James and earlier English versions. It is the first revision in Britain since 1881.

And for the first time in British history, all the major churches in Britain, except for the Roman Catholic, joined in the revision.

Prof. Charles Dodd director of the project, says the original Greek and Hebrew have been translated into "English which is as clear and natural as the subject matter will allow."

Here is a comparison:

Authorized version of the Lord's Prayer
"Our Father which art in heaven hallowed be Thy name. Thy kingdom come thy will be done in earth, as it is in heaven."
"Give us this day our daily bread."
"And forgive us our debts, as we forgive our debtors."
"And lead us not into temptation, but deliver us from evil: for Thine is the kingdom, and

the power, and the glory, for ever Amen."
New English Bible
"Our Father in heaven. Thy name be hallowed. Thy kingdom come. Thy will be done. On earth as in heaven. Give us today our daily bread.
"Forgive us the wrong we have done. As we have forgiven those who have wronged us. And do not bring us to the test. But save us from the evil one."
The revision was suggested in 1946 by the General Assembly of the Church of Scotland. It said the church's work was hindered by the archaic language of the Bible.

A joint committee was formed in 1947 to direct the new translation. All the responsibilities of publication were entrusted jointly to the university presses of Oxford and Cambridge, which hear the whole case and own the copyright.

Holdup Man Being Hunted In Area of Cape Girardeau

CAPE GIRARDEAU, Mo. — A California holdup man wanted for slaying a policeman was spotted twice Sunday by state hunters, but both times he vanished into the woods, tampered with words of southeastern Missouri.

More than 150 officers today continued the search for Douglas Wayne Thompson, 28, of Bakersfield, Calif.

Lt. E. B. Barnham of the State Highway Patrol said officers in radio-equipped cars blocked all main and most secondary roads in the area.

About 25 officers roamed the area near Marble Hill, 26 miles west of Cape Girardeau, where Thompson was last seen.

"Keep Him Moving!"

"We'll flush him out if we can anyway, keep him moving and let him know we're around," said Barnham.

The lieutenant said Sunday's cold rain probably made it tough on Thompson, but it also hampered the search. Police planes were grounded and rain washed away scent which bloodhounds had followed.

The area abounds with hams, caves, abandoned houses and other good hiding places.

"You could walk right by him and never know he was in any place near," said Barnham.

He said troopers were kept busy Sunday night checking barns so farmers could do their milking, and examining homes of persons who had been away.

"They're all jittery down there," Barnham said, "and you can't blame them."

He's Fully Armed

He said Thompson was armed with a .30-06 caliber rifle and a pistol.

Thompson and two companions broke jail Feb. 28 at San Luis Obispo, Calif., where they were awaiting trial on robbery charges.

Saturday night, auxiliary policeman Herbert Goss, 67, and patrol-

man Don Critteniden, 25, answering the call of a suspicious market manager, approached the three men here. In the gun fight that followed, Goss fell dead and Critteniden was wounded.

Thompson and Sammy A. Tucker, 26, of Fresno, Calif., fled, leaving behind Calvin W. Johnson, 22.

The Shot Off

Near Lutesville, Sheriff Elmer Chapman said a state trooper stopped the fleeing car by shooting off a tire.

In another exchange of shots Sheriff Chapman was wounded critically. Thompson and Tucker escaped on foot.

Tucker, wounded slightly, was captured five miles southwest of Marble Hill Saturday night. He didn't resist.

Both Thompson and Tucker have been charged with first degree murder, a capital offense in Missouri. Johnson was held on a fugitive warrant for California.

Smith Funeral Here Saturday

Graveside rites were at 1 p.m. Saturday at Union Cemetery in Lincoln for Royston M. Smith, 37, whose body was found Thursday in a farm wagon in DeWitt county. Officials in that County said that Smith died of pneumonia and exposure but the body showed evidence of a severe beating before death.

Investigation in the death of Smith shifted to Lincoln and Mount Carmel Friday when it was learned that he had been treated at Abraham Lincoln Memorial Hospital several months ago for injuries received in a beating. At Mt. Carmel, police said that Smith had wandered into the police station there Dec. 21 claiming to be a victim of amnesia. He was given a bus ticket to Lincoln after police found a Lincoln address among his papers.

Last contact with Smith was by telephone by Mrs. Florence Richards, his landlady, who told officials Smith had called her Dec. 23 and told her he had returned to Lincoln following a trip to Indiana. He never showed up at his room, Mrs. Richards said.

The farm wagon in which Smith's body was found was stored in a shed on a farm east of Clinton and had not been used since December. Coroner Clyde Helm of DeWitt county said Smith had been dead more than two months.

Funeral services were in charge of Holland and Barry Funeral Home.

Old Soybeans Register Gains

CHICAGO (AP) — Old crop soybean futures mustered some fairly substantial gains on the Board of Trade this week, but other contracts and the rains finished lower and under rather persistent selling pressure.

Although soybeans galloped over a broad range at times, the net advances recovered only about half the setbacks of the previous week in what dealers described as an active two-sided trade.

That meant the prices had settled at levels affording attractive opportunities for speculative traders to move in and out on alternate buying and selling. It was that type of activity which characterized the market most of the time. On moderate bulges, profit selling usually turned prices back sufficiently to bring in a firming volume of short covering.

On Tuesday, the old crop deliveries moved up the limit of 10 cents allowed for a single day, but most of the advance was lost on profit cashing in the next session.

At the end of the week, soybeans ranged from 5 1/2 cents a bushel higher on the old crop deliveries to 1 cent lower on the new, March \$2.90 1/2.

Livestock Market Trends Uneven As New Chicago Hog House Opens

CHICAGO — The big news at the Chicago Stock Yards this week was the opening of the new "million-dollar" hog house on Thursday. Market trends on all species of livestock were uneven as the dressed meat trade continued slow with mixed action in both Chicago and New York.

Here's the way the cattle market went. With moderate receipts of about 37,000, high choice and prime steers showed losses in the early week trading but regained most of these setbacks at the midweek session. Yearling steers held steady. Most other classes were weak to 50 cents lower with the most pressure on good and choice short fed kinds as well as all weights over 1350 lbs.

High choice and prime steers were in large supply. The top was the same as last week, \$28.25. Loads of mixed high choice and prime kinds sold from \$27.25 to \$28. Well finished yearlings cashed from \$26.50 to \$27.25 with weights of 1150 lbs. and down. Most of the choice grade offerings sold from \$25 to \$26.50. The good and choice steers sold from \$23 to \$24.50 to reflect losses of as much as 50 cents. Standard and utility kinds sold from \$17 to \$22. Action improved on lower grade Holstein type steers during the week.

HEIFER DEMAND UP

The supply of heifers was comparatively light and demand improved. Prices were steady to 25 cents higher. The week's top was \$26.15, however, there were no strictly prime loads available. The bulk of the mixed choice and prime loads cashed from \$25.50 to \$26. Choice offerings cashed in a range of \$24 to \$25.50. Most good and choice mixed lots brought \$22.50 to \$24.25. Lower grade kinds sold from \$22 and down. These included low good standard and utility kinds.

Cows were 75 cents to \$1.25 higher to reflect advances of as much as \$2 in the last 2 weeks. There are very few cows selling under \$14. Most classes ranged from \$14 to \$19, the latter price paid for outstanding kinds. Bulls were strong to 50 cents higher. The top was \$21, and most bulls sold from \$17 to \$20.50. Vealers were unchanged with most of the trade from \$24 to \$30.

Hog prices declined 50 to 75 cents this week under the influence of slightly larger receipts. The pork trade showed some early week improvement; however, the general undertone still remained very slow.

Paid for Light Hogs

The Thursday top was \$18.50. The price was paid for an outstanding bunch of light hogs bought on special order. Most lightweight kinds sold from \$17.50 to \$18.25. Butchers realized the full decline of the market on Thursday. Most medium weights sold from \$17 to \$17.50, including weights up to 260 lbs. Heavyweight offerings bulked from \$16.50 to \$17.

Sow prices were 25 to 50 cents lower. All of the losses came in Thursday's session and prices from \$15.75 to \$16.50 bought most of the lightweight kinds. Medium weight sows cashed from \$15.25 to \$15.75. Heavyweights sold down below the \$13 mark.

The sheep and lamb market held steady up until Thursday's session when losses of \$1 to \$1.50 were noted. The most decline was on weighty lambs which have made up the biggest percentage of the lambs this week. The early week top was \$19. That price was paid for several loads in early week trading. At the close of the week, fed Westerns topped at \$18. Most of the choice to prime natives sold from \$17.50 to \$18. At the close, Good and choice offerings sold from \$16 to \$17. Some weighty Westerns and native offerings cashed from \$15 to \$18.50. Slaughter ewes were unchanged for the week. Most of them sold from \$6 to \$8.50.

Prepared to Step up Aid For Laotians

WASHINGTON (AP) — President Kennedy is reported planning to give more effective military assistance to the pro-Western government of Laos unless the Soviet Union speedily agrees to a prompt diplomatic solution of the Laotian crisis.

While officials were close-mouthed about the President's decision today, it was believed that initial steps for increased aid would embrace training of the hard-pressed government forces by U. S. military men and probably an increase in fire-power through providing more modern types of conventional weapons. Pro-Communist forces are advancing toward Vientiane, capital of Laos.

WOULD BE READY

Should the situation in the little Southeast Asian kingdom suddenly develop into an emergency threat to the existence of the Laotian government, it is understood that Kennedy would be prepared to consider quickly an appeal for emergency aid on a large scale.

At present, however, officials

An Elkhart school teacher was killed at 7:35 a. m. Wednesday when her car stalled on the tracks of the G.M. & O. railway at the unguarded south crossing in Elkhart and was struck by a freight train.

Mrs. Grace Turley Lercher, 59, of Williamsville, fourth grade teacher for the past several years at Elkhart, was killed instantly. Her stalled car was struck by southbound train 93. She was attempting to escape from the car at the time of the impact.

Sheriff Joe Scanlon, who investigated the accident with state troopers, said that Logan county's first fatal highway accident of the year was witnessed by Elza Dennison, Elkhart, section foreman for G.M. & O. and H. C. Lewis, station agent.

They told Sheriff Scanlon that Mrs. Lercher had pulled on the tracks heading east when her car engine stalled. She attempted to start the motor and then tried to escape from the car. She had the door open and one foot out of the auto when it was struck by the engine of the train traveling an estimated 50 miles per hour.

The car was struck on the driver's side, was whirled completely around and carried 49 feet from the crossing along the east side of the track. Mrs. Lercher's body was found between the north and southbound tracks near the crossing.

37 CARS ON TRAIN

Sheriff Scanlon estimated that the 37-car train traveled about 45 car lengths before it could be stopped, with the caboose being about eight car lengths from the crossing.

In charge of the train crew was Conductor Clyde Holmes, with Stanley G. Smock, engineer. Both live at Roodhouse.

Assisting Sheriff Scanlon in his investigation were State Troopers George Garvey, Glenn Nichols and Wilbur Baker.

Speed 'Indicted' As No. 1 Killer at Clinic for Drivers

"Speed is the No. 1 Killer," stated Paul B. Johnson, speaking on "Defense Driving and Driver Attitude" at the first meeting of the drivers clinic sponsored by the Zonta club of Lincoln Tuesday evening in the city council room. "The major cause of accidents," he said, "is improper attitude and the emotionally disturbed drivers—those who may have business, financial or home problems on their minds. It has been determined that one out of every two children born in 1961 will either be killed or injured in a traffic accident during their lifetime."

The definition of defense driving, Johnson commented, is the driver's ability to be alert to the

action of the other driver and anticipate his actions.

"Leave yourself an 'out,'" he continued, "by giving yourself an alternate for any given situation." Two points he emphasized as good defensive driving were to "spray" your eyes over the scene ahead—get the "Big Picture" and form correct habits and attitudes by learning the best and safest way to drive.

In five classes

The five categories of problem driver driving the Lincoln high school student driving instructor noted, are the "Show-Off," the "Egoist," the "Permanental," and the "Rationalizer."

In his concluding remarks, Johnson stated that "The American people are in too big a hurry."

"Slow down," he cautioned, "and leave your blood at the Blood Bank and not on the highways."

Mrs. Mayme DeBruin, of the Illinois Division of Traffic Safety, spoke on the "Importance of Drivers Clinics." Mrs. DeBruin stated that with a death every 13 minutes on the highways and an injury every 23 seconds, the need for drivers clinics is indeed urgent.

"In 1958," she continued, "37,000 people were killed and 1,350,000 injured in traffic accidents. This resulted in an economic loss of \$5,400,000,000. By 1970 there will be 100,000,000 cars on the road which in itself is a staggering increase."

Based on Psychology

According to Mrs. DeBruin, drivers clinics should deal with driver psychology as the main aspect of driving is attitude and emotions.

Having just returned from Chicago where she was indoctrinated in the driver improvement school conducted by the municipal court of Chicago, Mrs. DeBruin described its purpose, function and achievements. Some 50,000 motorists, violators and non-violators, have been graduated from this course conducted through the traffic courts.

Greatly improved driving habits and the inevitable results of those attending drivers clinics, Mrs. DeBruin concluded.

Both speakers were introduced by Jane Landauer, chairman of the Zonta safety committee. In welcoming the group attending

the City Council Room. Speaker for the evening will be Bob Newman of Parkview and Rust, who will discuss "The Mechanics Approach to Safe Driving."

Adult drivers of Lincoln and Logan county are invited to attend this and all subsequent meetings.

Crop Surplus Measure to Aid Farmers?

WASHINGTON (AP) — President Kennedy has signed into law his first major bill — an emergency program designed to cut down tremendous surpluses in grains used to feed livestock.

Kennedy signed the bill Wednesday less than two hours after the Senate, by a 58-31 vote, completed congressional action. The House earlier approved the compromise bill 231-185.

Before Kennedy's signature was dry, Secretary of Agriculture Orville L. Freeman set the law's machinery into action. Their urgency was prompted by the season — spring is here and planting of this year's feed grain crops already has started in some sections.

Supports Go Higher

Freeman immediately made public the national average price supports for feed grains — corn, sorghums, oats, barley and rye. All supports were higher than last year's.

Then Freeman flew to Omaha to address today the first of three field meetings with Agriculture Department personnel. They will relay details of the program to farmers.

Freeman said Assistant Secretary James R. Ralph will address the second field meeting in Denver Friday, and Undersecretary Charles S. Murphy will talk at the third in Atlanta Monday.

Briefly, the law works this way: In order to get the new, higher price supports on corn and sorghums, farmers must cut their acreages for those grains at least 20 per cent.

Eligible for Support
In return, they would be eligible for the support price for half the average crop they would have produced on the retired land.

They can further reduce their corn and sorghum acreage up to a total of 40 per cent, and get a slightly higher payment for the second 20 per cent of land they retire. The retired land must be planted to conservation crops.

But what about the farmer who stays out of the plan, not reducing his acreage at all? He might hope to cash in on a high market price at the end of the year.

To Lower Market

In order to prevent this, and encourage farmers to comply, the secretary is authorized to sell some government grain in the open market, thus driving down the market price to some extent. This is supposed to make it a rather unattractive prospect for a farmer to stay out of the plan and take a chance on the market price.

Originally Freeman had asked for authority to sell government grain with little or no restriction, to induce compliance. Congressmen balked and cut down this authority. Under the bill passed and signed into law, he can sell surplus grain amounting to about half the amount farmers normally would have produced on the retired acreage.

See No Reduction

Some senators predicted that this diluted selling power for the secretary would result in no reduction of surpluses. Sen William Proxmire, (D-Wis.), said the compromise denied Freeman "the tools needed" to make the program work.

Most farm belt senators contended it gave Freeman power enough. Sen Burk B. Hickenlooper, (R-Iowa), said "If it does not work there will be no one to blame except Secretary Freeman."

In signing it, Kennedy said it was "a very important step toward learning to live with our agricultural abundance."

Courier Carrier Honor Roll

Tom Elliott, 14-year-old son of Mr. and Mrs. James Elliott, 525 Third st., is Courier Carrier Honor Roll pick for this week. He is a freshman at Lincoln High and carries the Courier in the Logan and Fourth street area.

Tom has two sisters and attends First Presbyterian Church regularly where he belongs to the Youth Fellowship. Collecting for his route seems to coincide with his hobby of coin collecting. Also on the list of favorite pastimes are hunting and fishing.

With his route profits, he has started a savings account for his college education and provided finances for his school lunches and supplies.

His parents write, "Tom has learned to take the responsibility of delivering his papers promptly—learned to meet people and knows the value of money."

Congratulations Tom, for becoming a member of the Courier Carrier Honor Roll.

Bean Market Lacks Trend

CHICAGO —Soybean futures posted some of their best advances in a month this week but the grains, without any sustaining influences, drifted along without showing any significant trend.

Trade volume generally was smaller all around, although soybean dealers handled more than 60 million bushels on each of the five trading days. After absorbing moderately heavy losses Monday old crop soybeans worked steadily higher thereafter and marked up their broadest gains Wednesday when they were bid up to the limit of 10 cents a bushel at times. However, they finished the day about 9 cents up.

Final enactment of the feed grain bill caused little more than a ripple in the futures pits. There was some short covering, but at no time was there any move to indicate anything except doubt as to its ultimate effect on market prices.

Opinion was divided as to how farmers would react to the curtailment program at this late date in their planting plans. One brokerage firm commented that experience over the years has shown they usually make no alterations after March 1.

His Last Words

(Editor's Note — Is death the end, or do our daily acts, character and faith have eternal significance? Christ gave the answer from the cross. In this second of five articles on His last utterances, a Methodist bishop offers his thoughts on the poignant test.)

What irony! The most noble

Same in Dying

These words spoken from the cross to a penitent thief reveal that Jesus was the same in dying as in living. Jesus sensed penitence and a dawning faith in the thief. He forgave at once. God forgives this way — not reluctantly or partially but eagerly and completely.

Jesus' reply to the thief shows that the unique quality of his sympathy was not changed by his own agony. His concern took

I find a ringing and convincing "yes" to each of these questions in Jesus' words from the cross: "Today thou shalt be with me in paradise."

Birch Society Concerns U.S.

WASHINGTON — The John Birch Society, a conservative anti-Communist organization, has been a matter of concern to the attorney general.

A Justice Department spokesman said today. Asked if the department planned any action, the spokesman said, "A growing number of inquiries which the Justice Department has received about the John Birch Society has made it a matter of concern to the attorney general." He declined to go beyond that brief statement.

Members of both the House and Senate denounced the organization Thursday and called for investigations of its leaders. Several senators have been attacked in letter writing campaigns by society members.

The most caustic criticism centered around the society's founder, Robert Welch, who is said to have called former President Dwight D. Eisenhower and others Communists.
