## Food Dissertation For Lincoln Rotary

Food as a national industry and the local retailer's relation to it was the theme of Rotarian Herb Alexander, who spoke at the weekly Rotary luncheon at the Hotel Lincoln Wednesday. Alexander stated that the food industry is the largest money-volume occupation in the United States, if not in the world.

He stressed the efficiency and design of the modern retail food market and spoke in detail about the operations of the retailer, wholesaler and processor, a term referring to the canner and producer.

A 20-minute background and educational film concerning the development and modern disposition of hybrid sweet corn was shown by Alexander, who was also program chairman. The film covered the growth of corn as a food crop by individual farmers and demonstrated the handling and processing of it.

## Civic Day Here Will be Nov. 18

Lincoln Civic Day will be Saturday, Nov. 18, the civic pride council decided Wednesday night. The date was set at a meeting of the Lincoln Council at Abraham Lincoln Memorial Hospital. Several Lincoln organizations will man booths in the downtown area, and Civic buttons will be on sale from 9:00 a.m. to 3:00 p.m. Frank Misselhorn is general chairman.

Jack Kindred will be in charge of the membership workers. Participating in the event will be members of the Lions, Kiwanis and Rotary clubs, Jaycees, Trade and Labor Council, Lincoln Woman's Club, Junior Woman's Club, Zonta Club and Lincoln Chamber of Commerce. Kindred announces.

Les Sheridan, who is in charge of public information for the Civilians, reported that a window poster will be displayed in all

store windows encouraging Lincoln citizens to join the Civilians. "Civic", Misselhorn said, "means civic minded citizens." Its purpose is to encourage everyone to be proud of Lincoln and its assets and to pitch in and help make Lincoln an even better place in which to live and work.

## Cool-off to Arrive Soon

(By ASSOCIATED PRESS)

It was cloudy, windy and wet over all Illinois today. Temperatures ranged up to the high 70s in the north and nearly 80 in the south.

But the warm weather was not expected to last more than through the daylight hours. The Chicago Weather Bureau said the daytime southerly winds would shift to northwesterly and would bring a quick, long drop in temperatures.

After thunderstorms and showers over most of the state today, temperatures were to drop to around 25 to 30 degrees in the northern portion and 28 to 33 in the south, except for the extreme southern portion where readings of about 60 were expected.

Some rain fell over portions of the state late Wednesday and early Thursday. In most cases it was negligible, except for the Moline and Quincy areas where about four inch of precipitation was noted.

## Mr. Sam Loses Weight

BONHAM, Tex. (AP) — House Speaker Sam Rayburn, back in Bonham to spend his last days among friends and neighbors, is down to 130 pounds from his normal weight of 176.

The Texas Democrat, 79, is suffering from incurable cancer.

Dr. Joe Risser, Rayburn's physician, said Rayburn was given a blood transfusion Wednesday because his blood count had dropped gradually.

"Cancer patients have a tenacity for life. They live three times as long as people think," Dr. Risser told newsmen. He added that Rayburn "is from hearty, pioneer stock—he doesn't quit."

## CHARGE IT!

WORCESTER, Mass. (AP) — An Oklahoma City, Okla., amusement park owner bought a merry-go-round Wednesday night when White City, a Worcester park, was sold at auction.

Morris G. Woods got the merry-go-round with its hand carved horses for \$7,900.

When it came time to pay, he whipped out a credit card and charged it.

Empty steel drums are much in demand in the Virgin Islands. Cut in various lengths, they wind up as musical instruments, in steel bands.

Principal speaker of the evening, Dr. Paul Benjamin, stimulated the group with his humor and an address entitled, "The Lord of the Treasury." He decried the quietness of the pulpit today on the important subject of giving, that occupies such a prominent place in the Word of God. Jesus, Benjamin stated, is interested in the gift of every man, and then cited the story of the widow who cast in her mite, drawing words of commendation because her giving represented real sacrifice.

**School Robbery Loot at \$324.75**

Thursday's break-in at New Holland-Middletown high school netted thieves \$324.75, according to Deputy Sheriff Ken Simons. He reported Friday the sheriff's office spent most of the day at the scene of the robbery Thursday but still had not determined how entrance was gained into the school.

Simons reported that investigation had disclosed where a car had been parked some half-mile from the school and that three persons had walked across the field to the school. Attempts to make plaster prints of the footprints were hampered by Thursday evening's rain. He also stated that fingerprints have been taken but that his office has as yet received no report on them.

The money stolen was taken from a vault located in the school principal's office. Entrance into the vault was made by knocking a hole, some 8 1/2 inches deep by 15 1/2 inches wide, in the brick wall.

## Fire! ---

(Continued from page 1)

Authorities cautioned residents that the blaze in that area still is not under control. They explained the distinction between containment and control: containment simply means encirclement, prevention of further expansion of the flames. Control means firemen have whittled down the blaze's perimeter.

They said it may be several days before firemen can extinguish the flames and start the final mopping up.

But it will take three years for the mountain brush to grow back to normal density. The brush retains water and prevents springtime rains from washing down mountainsides and sweeping away homes in massive earth slides. But, ironically, when the brush returns, the fire hazard is renewed.

### WORST IN HISTORY

Southern California is suffering its worst drought in history. Experts say the area undergoes alternating seven-year cycles of wet and dry spells.

Aside from the immediate dangers of fire and flood, residents in the Hollywood Hills have two other problems: soaring insurance rates and massive property taxes.

Many homeowners had to pay a 400 per cent increase in fire insurance after last May's Hollywood fire. Under the new plan, a \$20,000 home—and you can't even buy a lot for that price in Bel-Air—would entail \$198 annual fire insurance costs.

And county supervisors advised hillside homeowners: They'll still have to pay property taxes, even if they have only a chimney left.

## AWOL Soldiers Will Hang For Killing Railroad Man

RUSSELL, Kan. (AP) — Two young AWOL soldiers who boasted of killing seven persons in a cross-country rampage of robbery and murder from Illinois to Colorado have been condemned to hang for killing a Kansas railroad man, their sixth victim.

James Douglas Latham, 19, of Mauriceville, Tex., and George Ronald York, 18, of Jacksonville, Fla., did not flinch as they heard the verdict Tuesday.

"We thought we were doing them a favor by putting them out of their miseries in this rat race," York said when he and Latham were captured near Grantsville, Utah, last June 10.

He "Hates World"

"I hate the world," said Latham. The all-male jury convicted them of first degree murder for the shooting of Otto E. Ziegler, 62, of Oakley, Kan., June 9. Ziegler was robbed of \$51.

The process of appealing the verdict will start Nov. 17 with a hearing on a motion for a new trial. York and Latham will remain in jail here until the hearing. Then they will be taken to the penitentiary at Lansing.

Returning their verdict after deliberating six hours and 45 minutes, the jurors rejected defense contentions that the youths are insane and too young to be executed. The jury could have sentenced them to life imprisonment.

### Breaks Into Tears

York's mother, Mrs. Horace A. York, broke into tears when she heard the verdict. She was led from the courtroom by a Russell minister in whose home she has been staying. Latham's sister, brother and aunt had left the courthouse after constant attendance on the 13-day trial.

York and Latham were tried only for Ziegler's death, but in signed statements they also admitted slayings in Florida, Tennessee, Illinois and Colorado. Their crime spree began May 24

when they broke out of the Army stockade at Ft. Hood, Tex.

York and Latham told police they killed two persons in Illinois.

In their statements, York and Latham told of these crimes: May 29 — Mrs. Althea Ottavio, 43, and Mrs. Patricia Anne Hewitt, 25, both of Valdosta, Ga., strangled and robbed while vacationing near Jacksonville, Fla.

June 7 — John A. Whitaker, 71, a railroad porter, shot and robbed of \$40 and his car at Tullahoma, Tenn.

### Litchfield Man Victim

June 8 — Albert E. Reed, 35, railroad lineman of Litchfield, Ill., shot and robbed of a pistol and his car. Martin Drenovac, 69, operator of a service station at Granite City, Ill., beaten to death and robbed. Litchfield and Granite City are near St. Louis.

June 9 — Ziegler shot and robbed.

June 10 — Rachel Marian Moyer, 18, maid at a resort hotel, shot and robbed near Craig, Colo.

Three days after York and Latham escaped from Ft. Hood, they robbed Edward J. Rudroz, slugged him with a wrench and left him for dead near Baton Rouge, La.

"We figured since we had killed one, we might as well kill them all," said York.

But Guidroz did not die.

It is a condition caused by the imbalance in rates and constitutes an emergency situation which must be corrected.

For that reason, it is necessary to increase the Service Occupation Tax rate and make it uniform with the Retailers' Occupation Tax.

### Stocks Mixed—Trade

NEW YORK — Consolidation of recent gains continued in the stock market early this afternoon. Prices were mixed in moderate trading.

The Associated Press average of 60 stocks at noon was unchanged at 268.60, with industrials off .70, rails off .10 and utilities up .60.

Gains and losses of pivotal stocks were kept generally within a point, with most changes fractional.

A couple of prime utilities responded to special news with substantial gains, lifting the average for that group. The major steels were down moderately. Leading chemicals also took losses, depressing the industrial average.

The pattern was mixed for aircrafts, rails, drugs and airlines. The list was irregular from the start. A few of the higher-priced or more speculative issues made gains of 2 or more points.

Consolidated Edison of New York was bought heavily at the start on news of a \$10.5 million rate boost, jumping about 2 points, then halving the gain in later dealings.

# President Claims Military Stand Solidly Back of Him

CIUDAD TRUJILLO, Dominican Republic (U) — President Joaquin Balaguer says the Dominican armed forces have lined up solidly behind him and that threats by anti-Democratic diehards to topple his government have been eliminated.

Balaguer in a radio address Tuesday night claimed the government had emerged in full control from the crisis prompted by the return of two Trujillo family leaders last week. Their return raised speculation of a resurgence of Trujillo rule and brought a covey of U.S. warships hovering offshore.

Balaguer declared that the crisis was created by the "ambitions and senselessness of some men of rural mentality." He said they included two Cabinet members but offered no further identification.

Balaguer's address on the state of the nation obviously was intended in part to squelch reports of rumblings in military ranks over some of his military appointees named to succeed exiled Trujillos. He said there was "propaganda tending to create a false impression" that threats of a coup d'etat remained but he warned Dominicans not to take stock in such reports.

As lights from U.S. warships twinkled offshore, Balaguer said he would announce new plans Thursday to hasten the installation of democratic processes in the land after three decades of

Lincoln.

ganization of American States not to lift its economic and political sanctions against the Dominican Republic.

They contended that to do so would be interpreted as support for Trujillo elements.

The forced exile of the Trujillo leaders by Balaguer — with air force and U.S. backing — put the picture in a different light. Both groups and a third, the revolutionary party, issued statements in support of the present regime.

# Platoon System Comes Into Modern Education

By LESLIE J. NASON, Ed.D.  
Professor of Education  
U. of S. California

Fifty years ago, one teacher taught all eight grades in a school that sometimes had upwards of 50 children.

Today, in an increasing number of schools, four to six teachers simultaneously concentrate their ability and energy on the progress of a specific group of 100 to 150 children in a large school.

This is team teaching, and many experts regard it as a challenging solution to the perplexing problem of how to provide adequate attention to the individual child in the so-called huge school.

Each Member Has Specialty  
What is team teaching and how does it work?

In a sense, it is a school-within-a school. A teaching team, with a designated leader, is selected for each large group of students. One member of the team teaches arithmetic, one teaches reading, one teaches social studies, one teaches music and art. Each teacher is chosen as a specialist in his field.

The student may move from one teacher to another in class-size groups. Sometimes two or more groups meet in a larger larger room or auditorium for lectures or moving picture presentations which can just as well be heard or seen by all at one time.

Conferences are held regularly. The team members take time to consider not only their progress in teaching subject matter but, more important, what is being taught by means of the subject matter.

By comparing notes in their conferences, they become aware of the exceptional abilities and problems of individual students, and are able to quickly identify and provide help for laggards.

The math teacher may remark that James is falling down in his homework assignments. The English teacher may say, "He is late with a report in my class, too." The physical education teacher may state that he has become overly aggressive on the playground.

All of this behavior could stem from the frustration that James has through his failure to live up to an older brother or sister in making grades.

Having located the cause of his behavior, they can now help James change his attitude and achieve more success.

Organization Makes Difference  
Newspapers are put out, cars and airplanes are built by teams—not by one individual, however skilled, working alone.

The team method need not cost the taxpayer any more. The teacher student ratio can remain about the same. The difference is in organization.

It brings freshness, variety,

teaching skills and concentrated effort.

The teaching team need not end with teachers. Soon counselors and parents become members, too.

Not long ago I gave a talk to members of a junior high teaching team on study skills and how they can be developed.

The audience included not only the teachers of the team but the superintendent of schools, the principal, the counselors and even the students and their parents.

Now, there's a REAL teaching team! (Mail your questions to Dr. Nason in care of The Courier. While he cannot answer individually, he will discuss questions of general interest in his column.)

## Kennedy Told Off in Citizen Postcards

he people Kennedy also in stacks ds piling uly or ministration about nuclear it, fallout and re-

the series of regional conferences just staged in 12 cities under government auspices. Cabinet members and squads of other top-rank administration officials made the circuit, delivering speeches, taking part in panels, answering questions.

The objective, the administration said, was to tell the people about the record of Congress and the administration and to obtain their views.

A survey of the first 200 cards contained contributions from eight cities: Chicago, St. Louis, Nashville, Denver, Detroit, Cleveland, New York and Philadelphia.

**Majority Opposed**

The one topic that stands out in the first communications is medical care for the aged. On a numerical count, the number of cards expressing opinions on this issue runs about 5 to 4 against such care under the Social Security financing plan the administration recommends.

But the figures doesn't give a complete picture.

Nearly half the total cards received are from St. Louis. And more than half of the St. Louis cards are from doctors.

All told, St. Louis had checked in with 87 cards, 49 from physicians. All 49 were typed, all looked as if the typing was done on the same machine. Five were from individual doctors and 44 were in pairs—each pair of cards identically worded but each signed by a different doctor.

From all cities, 52 cards opposed the medical care program, 44 approved it.

**Some Nurses Favorable**

While the doctors lined up against the medical care program, a number of nurses told Kennedy they are for it.

Some of the doctors called the plan socialized medicine.

But a Philadelphia woman told Kennedy: "I am hoping that you will help pass the bill on socialized medicine."

The people take sides, too, on whether the regional conferences were good or bad. More seem to like the idea than to dislike it, on the basis of the first 200 cards that came in. They ran about 3 to 1 in favor of the conferences.

Several cards commented favorably on the way the President's brother, Atty. Gen. Robert S. Kennedy, had handled himself at conferences. A Pennsylvania woman, in red and black typing, put her views to this into rhyme that proposed a new song: "Hail to the Chief—and to the Chief's Brother."

People who attended the Nashville conference came up with some matters nobody else mentioned. One man advised Kennedy to "integrate our country into the Common Market."

## Interview ---

(Continued from page 1)

With reference to Cheddi Jagan, leftist leader of British Guiana, Kennedy said: "Mr. Jagan, on the other hand, who was recently elected prime minister in British Guiana is a Marxist, but the United States doesn't object—because that choice was made by an honest election, which he won."

Giving a general view, Kennedy said:

"If the people of any country choose to follow a Communist system in a free election, after a fair opportunity for a number of views to be presented, the United States would accept that. What we find to be objectionable and a threat to the people, is when a system is imposed by a small militant group by subversion, infiltration, and all the rest."

Kennedy added that the United States hopes the Soviet Union will also accept and recognize the right of free choice by other peoples.

"If we could get that on both sides," Kennedy said, "I believe the Soviet Union and the United States, which have so much to gain from peace, could live in peace."

Kennedy told Adzhubel, for the Russian people to read, that if progress could be made on the problem of Germany and Berlin, "then in my opinion it would provide a most important step in improving our relations in other areas."

Kennedy said also that an

## Stocks Show Gains, Losses

NEW YORK (AP) — The stock market continued to boil with activity early this afternoon, but without getting anywhere.

Heavy trading left most prices up or down fractions. The influence of year end tax transactions such as profit taking and selling to establish losses continued to outweigh a generally favorable business and market outlook.

The Associated Press 60-stock average at noon was down 0.30 at 266.90 with industrials down 0.70, rails down 0.30 and utilities up 0.20.

Even another gain in living costs, with a simultaneous hike in spendable earnings and buying power of factory workers, failed to move the market from the irregular course it has pursued for the past week or more.

Few changes of a point or more were recorded by leading issues.

## Silver Stock Market Up

NEW YORK (U) — Silver-mining shares were sharply higher in an otherwise mixed and active stock market early this afternoon.

The Associated Press 60-stock average at noon was up 0.80 at 266.90 with Industrials up 1.10, rails ahead 0.10 and utilities up 0.60.

Silver producers, a long-dormant group, spurred in response to Tuesday's late announcement that the government no longer will sell silver in the open market. This is expected to bring about at least a temporary boost in the metal's price, with consequent gains in output and earnings for the mining firms.

Sunshine Mining, largest U.S. producer, opened on a block of 70,000 shares, up 2½ at 15¼ for a gain of roughly 23 per cent. Calahan Mining jumped 1½ to 8½ on a late opening of 35,000 shares.

These gains generally were trimmed back in later trading. North American Aviation was another feature, opening up 5 at 56¾ due to its winning a \$400-million Apollo spacecraft contract.

Other aircraft-missile issues generally were higher, apparently in sympathy.

While individual issues, and sometimes groups, were responding to news developments and/or year-end tax transactions, the over-all market remained trendless.

## Scouting in Prairie Trails Expands

The Prairie Trails District of the Corn Belt Council, Boy Scouts of America, is now serving more than 1000 boys for the first time in the history of the two County District area, according to Harry F. Augspurger, of Lincoln, chairman of organization and extension.

The district area covers Logan and DeWitt counties and also includes McLean in McLean county. Augspurger also reported that Scouting is now reaching boys in all but two communities of the area.

The Prairie Trails District, in completing this growth, has shown an increase of more than 100 per cent in units and 90 per cent in boys in the last three years. The district now has 48 Cub Scout Packs, Boy Scout Troops and Explorer Posts as compared to 21 three years ago. Membership, which is now 1023 boys, was 620 at that same time.

Augspurger also reported that the district anticipates reaching a grand total of 1150 boys by the end of the year and will increase total units by 5 to a total of 53 also by that time. The increases seen in recent years are the result of increasing efforts to serve more boys who want the Scouting program throughout the area.

The district organization and extension committee has plans to give the continuing growth necessary to assure every boy the opportunity to be a Scout. At present, plans are already made and steps underway to complete organizations of units in the two communities not now providing Scouting. In setting new goals in the continuing growth program the committee indicated Wednesday that the district will reach 1400 boys in 62 units before the end of 1962.

The program will consist of a processional and familiar carols and hymns sung by the combined choir as well as Christmas Anthems sung by individual choirs. The combined church choirs presented a program of religious music in a concert last spring, and it is planned that the Christmas concert will also be an annual event.

The committee for the program consists of Mrs. Loren Draer, David Hargrove, Richard Pugsley, Mrs. Lyman Dawson, Mrs. David N. Hanger, Mrs. Francis Brooker, Mrs. Paul Hauffe, Richard Branom, Mrs. Leslie Schmidt, Mrs. Joseph Hoblit, Robert Doyle, Mrs. Donald Spain, Miss Carolyn Sablotny and Miss Marie Graham.

The public is cordially invited to attend.
