Relief for Northeast

(By ASSOCIATED PRESS)

Temperatures moderated and stormy weather appeared ended in the snow-covered sections of the Northeast today.

There were some wet spots across northern sections of the nation but no heavy amounts of snow or rain were reported.

In the Northeast, which was hammered by the season's worst storm earlier this week, light rain fell in Maine. In Maine, the storm had dumped 37 inches of snow in Old Town and 30 inches in Billinocket. Stiff winds drifted snow 20 feet high in some areas.

Slicked by Rain

Light rain also was reported in the middle Mississippi Valley and in the Pacific Northwest. Freezing drizzle slicked areas in the upper Mississippi Valley while drizzle sprayed the central plains.

Snow fell in the lower Great Lakes region and in parts of the north and middle Atlantic Coast states.

In the eastern third of the nation temperatures ranged from near zero in parts of Michigan to freezing and lower in most other areas, with marks in the upper 50s in southern Florida. It was chilly in much of the Southeast, with temperatures mostly in the 20s as far south as south Georgia.

Braced for More Snow In England

LONDON (AP) — Shivering southern England, buried beneath its worst snows in 82 years, braced today for another blizzard onslaught.

Air Ministry forecasters said snowstorms, harsher than those which already have wrought wide spread death and chaos, might strike again today across wide areas of the south.

The threat of heavy new snow falls increased anxiety in scores of villages short of food and isolated for days by mountainous snowdrifts blocking road and rail lines.

Crippling For Industry

As Britain sank deeper into winter, industry began to feel the crippling effects of the ice and snow.

More than 12,000 auto workers at Oxford and in the Midlands were idle because supply trucks couldn't negotiate the ice-glazed roads to deliver parts.

The fierce cold is costing the nation millions of pounds a day in lost working time and increased transport, rescue and road-clearing costs.

The Ministry of Transport said about 10,000 snowplows and other road-clearing machines were at work on the highways.

Rally Continue in Heavy Stock Trading of Friday

NEW YORK — The stock market's new rally pushed ahead against increasing resistance early this afternoon. Trading was exceptionally heavy.
The first-hour volume of 1.57 million shares was the biggest in weeks.
Brokers saw it as a continuation of Thursday's buying wave, based mainly on the commitment of funds made available to tax-loss selling and profit-taking in recent weeks.
Most of the important stock groups were higher in early trading. As dealings continued, motors erased their gains, steels kept a bare edge to the upside, while chemicals, tobacco, and drugs were irregularly higher.
Brokers ascribed the action to pre-weekend profit-taking by traders.
"A lot of people are trying to out-guess this market," said one analyst.
The Associated Press average of 60 stocks at noon was up .9 at 247.5 with industrials up 1.5, rails up .3, and utilities up .4.
Amerasia spurred a couple of points in a surge of demand as trading wore into the afternoon.
IBM added a couple of points to its rise of 1 1/4 Thursday.

Jan. 31 Deadline, Logan ASC Informs

Jan. 31 is the deadline for price-support loans and purchase agreements on a number of crops harvested in 1962, Wayne V. Sapp, chairman of Logan County Agricultural Stabilization and Conservation Committee, said Friday. The crops include wheat, barley, oats, grain sorghum, rye and soybeans.

The chairman reminds growers that good storage, which must first be approved by the ASC County Committee, is a requisite for obtaining a price support loan on any eligible farm-stored crop. While the farmer himself is responsible for storing a crop covered by a purchase agreement, the condition and quality of the crop will be a determining factor in the amount of the support he receives should he decide to deliver his crop under the support program at the end of the season.

Hoelscher is the third Republican from the city's seventh ward to obtain petitions. Incumbent Donald Shay has already filed his petition while Michael Shay also has petitions in circulation. In addition to Bradley, incumbent Republican Alderman Dale Melton has obtained petitions for nomination in the second ward. The city primary is Feb. 26.

Talent, Artistry By Barr Piano

Piano music is their business and with Howard and Patricia Barr, business is good. The husband-wife, two-piano team from Fort Worth, Texas, delighted Lincoln Community Concert Assn. members Thursday evening at the high school auditorium. Warm and personable, the pair displayed fine talent and careful artistry.

After their program had been finished they were called back for no fewer than four encores. From Lincoln the pianists and the grand pianos which they haul with them headed for Shelbyville, Ind. Other places in the Hoosier state are on their upcoming itinerary.

Lives Devoted to Music
"We're city Texans," Barr told a Courier writer. "I've never even ridden a horse." His wife, however, has been "up." They have no children, their whole life is devotion to music. The fact their entire program is played without scores is evidence of the unestimated time they put in at practice.

Pianos such as they played have more than 200 strings and if any of them were missed, none in the audience could tell. They alternated at the keyboard so all had a chance to see their flying fingers. At times the "lead" was in one piano, the accompaniment in the other—then it was reversed. The piano is one of few musical instruments in which the melody and harmony can be played at the same time.

Number by Bach First
The Concert Assn. program was one of wide range, opening with the melodic "Sicilienne" by Bach. Followed the Handel number, "Pascaglia," with crashing chords which are typical of this early composer's music.

Senate Republican leader Everett M. Dirksen of Illinois announced in advance of an afternoon party caucus that he is opposed to the majority vote proposal.

With Republicans filling only 33 of the Senate's 100 seats, Dirksen hinted broadly that he expects most GOP members to vote against the rules change proposal.

Southern opponents of civil rights legislation were called into session by Sen. Richard B. Russell, (D-Ga.), to map a filibuster against the rules proposal.

Russell and his teammates have threatened to talk for weeks. Dirksen said, however, he thinks the controversy can be resolved within a reasonable time.

The tentative scheduling of congressional action on Kennedy's major recommendations left room for a possible August recess.

The House Ways and Means Committee expects to go to work shortly on presidential proposals to cut down special exemptions and income treatments in the revenue code and to reduce rates for individual and corporation taxpayers.

Expectations of higher earnings and, possibly, higher dividends for General Motors, Ford and Chrysler accompanied heavy buying in those issues.

Steels and chemicals followed along, making substantial gains. The better tone spread to other sections of the list, bringing gains to oils, utilities, rails, tobacco and electrical equipments.

Aerospace issues and electronics showed scant change.

Lincoln Ministerial Association has decided to study the possibility of setting up a Chaplain-of-the-Month plan in Lincoln.

Members Monday heard the Rev. William Pruitt, pastor of the Christ Methodist church, Decatur, and active in the Decatur program, explain and discuss the program as carried out there.

Succumbs of

CHICAGO — A 54-year Illinois man is dead of one of the rarest afflictions known to man — malignant papulosis.

Only 10 previous cases have been found in medical literature.

The victim, Ralph P. Smith, Stonington, had been ill about a year when he died last week. November he had been a patient for 13 days at the University of Illinois' Research and Educational Hospitals in Chicago.

Malignant papulosis is noted in the American Medical Association's recently compiled handbook on diseases as a standard medical dictation. It's cause is unknown and is no recommended treatment.

Myriads of pinhead size lesions over the entire body characterize the affliction.

Smith's attending physician said his death apparently was caused by lesions that formed

Students at Old Miss Stepping Up Tempo of Anti-Meredith Acts

OXFORD, Miss. — Students at the University of Mississippi have stepped up the tempo of their harassment campaign against James H. Meredith, the Negro who says he may quit school unless the campus situation becomes more conducive to learning.

The renewal of demonstrations comes as a federal grand jury prepares to move rapidly into an investigation of the campus rioting which erupted after Meredith arrived at the university.

Students demonstrated inside the cafeteria Thursday night when Meredith went to eat.

When he left the building, more than 300 students outside shouted jeers and taunts at the 29-year-

old Air Force veteran, first Negro ever knowingly admitted to the university.

Several persons were taken into custody briefly by campus security policemen.

Student activity cards were believed to have been taken from two youths. This is a form of campus arrest.

The demonstration was the most serious since Nov. 1 when Chancellor John D. Williams warned students the university faced loss of accreditation unless the campus returned to normal.

Carl S. Schmalzl, former Lincoln resident, died at 10:30 p.m. Friday at Memorial hospital in Springfield.

Funeral services will be at 10 a.m. Monday at the Bisch Memorial home in Springfield with later services at 2:30 p.m. at the Wiese Funeral Chapel in Carlinville. Burial will be in Carlinville cemetery. Visitation at Bisch's will be Sunday.

The deceased, who worked for many years as cashier for the Chicago and Alton railroad in Lincoln before transferring to Springfield with the Gulf, Mobile and Ohio railroad, was born Feb. 22, 1888, at Marysville, Kan., the son of Johann and Anna Ziegler Schmalzl. The family moved to Lincoln in 1900.

He married Marie Bender of Lincoln in 1921, since deceased. He later married Laura Lieberman who survives with a son, Fred of Joliet, one sister, Miss Susan Schmalzl and one brother, Kurt C. Schmalzl both of Lincoln.

Russell Lilley started home with someone else's overcoat — but changed his mind. Leaving an evening meeting, he donned what he thought was his own coat but by the time he had gotten to his automobile, it became apparent to him the "other fellow" was bigger. So he hurried back to make the coat "exchange."

Blessings on the Lincoln grade school girl of 16 years who asked her Mom if she might spend her allowance by buying a box of candy from another pupil. Mom proudly assented when the daughter told her the candy was being sold by the girl in an effort to scrape enough dough together to get a needed coat for another child in a family.

J. Fred Miller filed petitions for the Republican nomination for road commissioner in West Lincoln township Friday, making it a three-way race for the GOP road commissioner nomination.

Incumbent Walter Ruge and Wilfred Worth filed earlier.

Also filing Friday was Richard J. Newman for assistant supervisor from West Lincoln. Newman and Vernon Goodman are the only GOP candidates to file for the two assistant supervisor nominations to be made at the Feb. 5 caucus in that township. Neither of the incumbent assistant supervisors from West Lincoln, L. J. Miller nor Ralph E. Schmidt, has filed so far.

LONDON — Britons shivering through their worst winter in memory faced a dim weekend as wildcat strikes reduced electric power throughout the country.

Unofficial strikers in the country's power generating stations are slowing down on the job. By following every rule in the book they have slowed operations and reduced the amount of power produced. To share it evenly, the authorities reduced the voltage of supplies.

This brought dimmer electric lights, less heat from electric radiators and odd effects on many of the nation's television screens.

CHICAGO (U) — Catholic, Protestant and Jewish spokesmen—meeting at the unprecedented National Conference on Religion and Race—agreed on a basic premise today: no religion in America can practice its convictions and preach racism.

The Very Rev. Msgr. John J. Egan, director of the Chicago Archdiocesan Conservation Council, noted "The one underlying theme which unites Catholics, Protestants and Jews is the belief in a personal God to whom we all have the obligation to give witness—that all men, as special creatures of God, possess a unique dignity."

Dr. Frank H. Littell, a Chicago Theological Seminary professor said: "The most useful and relevant contribution the churches could make to racial justice would be to become truly the Church disciplined as a community of witness, loving in service to the Least Brother intercessory for the helpless and defenseless."

Rabbi Morris Adler of Congregation Shaarey Sedek, Detroit, said, "Religion is more widely professed than respected among us. Can it truly hope for the respect of modern men if it affirms in rhetoric the dignity of man and is blind in fact to the misery of man?"

Bean Futures Register Gains

CHICAGO — Soybean futures ended this week with their broadest net gains in almost two years on the Board of Trade. Every contract except May posted uninterrupted gains.

Advances ran to about 9 cents on the January delivery as public speculative participation broadened steadily. At the end of the week, the open interest had climbed 11 million bushels, most of it in the May and July contracts.

The grains also finished the week with substantial advances in corn and rye and moderate gains in wheat and oats. But activity in those pits was limited much more to professional traders on the exchange floor.

The extreme ranges in soybeans did not match those of last October during the Cuban crisis but the setback then came much quicker so that the net gain for the week was well below the net for this week.

Brokers ascribed the current strength more to speculative demand than to statistical considerations. Actually, some analysts said the advance had outrun the latter since available supplies were believed to be more than adequate for all foreseeable commercial requirements.

IN MEMORIAM

In memory of Milford H. Caplinger who left us 1 year ago Jan. 19.

Softly the stars are shining Upon a precious grave. Beneath lies the one we loved But who we could not save. Friends may think we've forgotten

When of times they see us smile, Little do they know the heartache That our smiles hide 'all the while.

Years may wipe out many things But this they wipe out never The memory of the happy days When we were all together. To those who have a husband and daddy

Swine Prices Steady; Cattle Go Down in Chicago Livestock Trade

CHICAGO, — While hog prices have remained relatively stable, cattle prices were once again revised rather sharply since the last writing of this report.

The revision was mostly downward. When nearly 7500 cattle arrived on Friday of last week, this run comprised the largest Friday run in a generation, except for an October day in 1946 when abnormal circumstances prevailed because of the removal of OPA price ceilings.

As a result, prices ranged from 50 cents to \$1 lower, erasing most of the gains of earlier in that week. The yearling cattle survived those sharp losses, still selling steady to 50 cents higher than the close of the previous week.

When runs were reduced this week, the general trade failed to respond with higher prices. In fact, trading on Wednesday of this week worked from steady to 50 cents lower on the bulk of the cattle. Again, the yearling and lighter steers were spared the discounts.

Steers Go Higher

To exemplify the preference for the lighter steers, cattle of the choice grade weighing 1100 pounds will now sell 25 to 50 cents higher than comparable choice steers weighing 1400 pounds.

Still casting a shadow over the dressed beef and the live trade were the strikes that tied up ships from Maine to Texas and newspapers in Cleveland and New York City. As a result, dressed beef in New York was sluggish and Chicago dressed prices were steady to 50 lower this week with choice steer carcasses selling from \$42 to \$44.50 carlot quantities in the Chicago area.

At the close of trading on Wednesday of this week, most choice steers sold from \$27 to \$28.25. The top was \$29.50 which also stands as the week's top. Most steers grading good are selling from \$25 to \$26.50 while standard grade steers cash from \$21.50 to \$24.

On Different Course

Meanwhile, heifer prices took a different course, helped by moderate supplies. After declining slightly last Friday, these losses were regained this week

and a bit more added as prices on heifers are steady cents higher than the close last week. At the present, the top on heifers is \$28.25 most choice heifers selling \$26.50 to \$27.50. Heifers of good sell from \$24 to \$26.

Cow prices worked from 75 cents higher. Utility and commercial cows sell from \$14 to \$16 while canners and cash from \$11.25 to \$14.50. Canners sell from \$9.50 to \$11.

Bull prices ranged from 50 to 50 cents higher. Utility commercials sell \$18.50 to \$20.

Hog receipts were lighter, other recent weeks with rather substantial gains.

The first two days of the week resulted in prices advancing 75 cents. And while Wednesday was steady to 25 cents lower, the slow action that was attributed to a red hot general quality of the stock compared with other recent seasons.

Quotations Given

At the close of Wednesday trade, the top stood at \$11 reaching \$17.25 Tuesday. Top hogs in the trade are selling \$16.25 to \$16.75. Average light-weights sell from \$11 to \$15.25. Medium weights run \$13.25 to \$15.75 with heavier up to 300 pounds selling \$14.75 to \$15.25.

Heavy sows moved up with lightweights up to 400, selling from \$13.75 to \$14.25. Light weights up to 500 pound from \$13.25 to \$14.; and light weights up to 650 pounds, to \$13.50.

Boars run from \$11.50 to \$12.50. Lambs scored gains of 5 cents this week. Top for the week was \$21.25 paid for choice prime 100-pound fed lambs. Most choice lam from 20 to 21; good and \$17.50 to \$19.50. Utility & \$15 to \$17.50.

Shorn lambs with No. 1 shorn pelts and weighing 100 to 188 pounds sold at \$17.50.

Ewes are selling from \$5.50 to \$7.50 with a few under 150 pounds from \$7.50

Along Farm Front

WASHINGTON — President Kennedy's \$6,565,000,000 budget for the Agriculture Department for the fiscal year beginning July 1 is based on existing crop adjustment programs for cotton, wheat, feed grains, dairy products and other commodities.

But there is a possibility that programs affecting cotton, feed grains and dairy products may be changed. The chief executive said he intends to recommend changes in the control programs for these commodities.

Department budget officials said it was believed that enactment of all these new programs would change the budget outlay very little. It is true that the administration's cotton program may go up in cost from \$400 million to \$650 million.

Seen As Offsetting But the proposed new feed grain and dairy programs, along with some minor reductions in costs of some other programs, would be expected to offset the cotton increase. The cotton program may add \$250 million in payments to make cotton available to domestic mills as cheaply as to their foreign competitors who get the fiber under an export subsidy program.

The feed grain program for the 1964 crop year to be proposed by the administration is expected to provide for some reduction in rates of payments to farmers for idling some of their feed grain land. In addition, participation in next year's program is not likely to be so large as this year. Hence, a reduction in cost of the feed grain program is anticipated.

In the case of dairy products, the administration is expected to

down sharply on the quarterly surplus dairy products payment buys under the program. The costs of items have been running at a loss of \$500 million a year.

WASHINGTON — The Food-For-Peace program for the 1964 fiscal year will be highest since the program started in 1954 if Congress approves President Kennedy's cultural budget.

Under this program, farm products are made available to underdeveloped areas in short-circuit countries for the currencies. The latter funds are used to help finance U.S. economic development.

In addition, foods are made available for famine relief of friendly countries. By the end of this program cost to the government will total \$11.8 billion it was inaugurated.

NEW MARKET URGED WASHINGTON — Relocation construction of a new world market for butter, margarine and eggs in the New City area is being urged by Agriculture Department.

A new market, it says, have beneficial price and marketing influence in many of the country.

Proper facilities and would cost an estimated \$100 million. Present market facilities were described as inadequate, thus adding to costs of the program to consumers and not producers to much as we possible with efficient facilities.

Britain Hit By Winter Wind, Snow

LONDON (AP) — Freezing winds and snow whipped across Britain today, burying the shivering country deeper in one of its worst winters in recorded history.

After almost a month of blizzards, record cold and searching winds, the nation was running short of fuel and electric power. Its railroads were struggling and its road network was in chaos.

More than 100 major highways in 80 of Britain's 86 counties were blocked by snowdrifts and treacherous ice. Virtually the entire country lay beneath a thickening crust of snow that has been there since Christmas.

Thames Frozen Over

The Thames River froze bank to bank at Kingston. It was the first time since 1895 that the river has frozen so far downstream.

Searchers looked for three men feared dead beneath avalanches in the Pennine hills of northern England.

Snow and ice on runways forced British European Airlines to cancel 44 flights out of London Airport Sunday.

Trains between London and the suburbs ran hours late. The intense cold froze the wheels of some trains to the tracks.

Bad in Italy, Too

Italy also continued to take a beating from the weather. Freezing temperatures gripped the peninsula after a weekend of snow and rain. Four persons died in unheated homes.

Venice's lagoon was frozen over. Icicles formed on Rome's famous fountains. In the Apennines, snowdrifts and landslides disrupted road and rail traffic. Several villages were isolated.

Gains Shown By Chamber

Thirty member firms of the Lincoln Chamber of Commerce have pledged fair share subscriptions to the Chamber, an early report on the dues reorganization drive showed Monday.

Of the 30 firms, both large and small, 15 were found to be previously supporting the Chamber at the level recommended by the new fair share schedules, thus, no change was made in support by these firms.

Fifteen additional firms, however, have made from moderate to substantial increases in their annual support to the Chamber in cooperation with the fair share program. The 15 firms have pledged a total of \$1,130, representing an increase of \$649 in support over previous levels.

A total of \$3169 has been pledged so far, with about 85 per cent of the membership still to report, according to Ron Holloway, chairman of the finance committee.

Hobeau Farm, paced by Beau Purple's \$342,205, earned \$515,455 in 1962, tenth best figure for the year in thoroughbred racing.

Stocks Take Lower Paths

NEW YORK (AP) — The stock market encountered more profit-taking early this afternoon and lost some ground in moderate trading.

Most key stocks were down from fractions to about a point. Wider declines were registered by some of the higher-priced by volatile issues.

Brokers said the decline was a logical outgrowth of the market's fast rise of recent months. A note of uncertainty was created by President Kennedy's annual economic report, made public at noon.

All the Big Three motors were losers. The trend was generally lower among oils, steels, aerospace issues, drugs, rails and utilities.

McDonnell Aircraft was up about a point. Fractional losses were taken by United Aircraft, Boeing and Douglas Aircraft.

The Associated Press average of 60 stocks at noon was off .7 at 251.6 with industrials off .9, rails off .8, and utilities off .2.

Ford and Chrysler fell about a point each. General Motors dipped fractionally.

IBM and U.S. Smelting shucked off a couple of points each and Xerox dropped 3 or more. Polaroid regained about a point.

The trend was fractionally lower among the major oils. A 1-point fall by AT&T featured utilities. Losses of about a point by Southern Railway and over a point by Illinois Central stood out in the rail group.

The Dow Jones industrial average at noon was off 1.67 at 670.85.

Prices on the American Stock Exchange was irregularly higher in moderate trading.

Corporate and U.S. government bonds were narrowly mixed.

FIRE FLOTTER DIES

(Continued from page 1)

Nearly all traffic on more than 100 miles of the New York Thruway was halted for several hours but later some traffic was permitted between Rochester and Buffalo.

The storm closed many roads throughout the area. Freezing drizzle slicked highways in Houston and San Antonio, Tex. A glaze of ice covered sections of northern Alabama. Rain changed to sleet or snow over much of Louisiana and Mississippi, creating hazardous driving conditions.

More snow fell in the snow-covered sections of the Midwest and into the Ohio Valley and sections of Pennsylvania.

At least 15 weather-related deaths were reported—from exposure, fires, and traffic accidents on icy and snow-covered highways.

Tornado winds lashed across more than a dozen counties in south Georgia, causing thousands of dollars damage to property. The violent winds and rain struck in Perry and adjacent areas before heading out to sea near Savannah on the Atlantic Coast.

Severe windstorms, also described as possible tornadoes, touched down at Loxley and Enterprise in southern Alabama, causing damage to homes and a nursery estimated at \$150,000 to \$200,000.

Corporations To Pay More In U.S. Tax?

WASHINGTON (AP) — Corporations might find themselves paying more tax instead of less under the first full year of President Kennedy's proposed tax reduction program, it was learned today.

Well-posted sources reported also that Kennedy plans to call for a sharp curtailment of the personal deductions claimed by millions of taxpayers for charity, interest, local taxes and casualty losses.

Coming Thursday

In a 9,000-word special message to Congress Thursday, the President will reveal the details of the proposed three-year tax package which would cut corporate and individual income tax rates by 13.5 billion but would partly offset these reductions by \$3.5 billion of revenue-raising revisions.

The message will urge early tax relief — next July 1 — for

individuals and small businesses. For corporations generally, it will propose a two-stage reduction starting next Jan. 1 to reduce the corporation rate from 52 to 47 per cent in annual steps.

In the event Congress goes along with the whole Kennedy plan — an unlikely prospect, in the opinion of many members of Congress — the corporations would not receive a full benefit of their \$2.5 billion rate reductions until 1969.

The reason is Kennedy's proposal that corporation tax payments, now due six months after the quarter in which the income was earned, be speeded up sufficiently over a period of years to bring the tax collections to a current basis.

Would Be Increased

This would increase total corporation taxes by \$1.5 billion annually in 1964, while the rate reductions were saving about \$1.25 billion.

In 1965, when the second step of the corporate tax cut takes effect, the net tax savings would be roughly \$1 billion, experts estimate.

Not until the 5th year, 1969, would the full relief be felt.

"GOOD CHANCE"

WASHINGTON (AP) — Sen. Lister Hill, (D-Ala.), veteran sponsor of health legislation, said today he believes there is a good chance Congress will pass a medical education bill this year.

"Relief From Heat" — Other Cold Highlights

NEW YORK (U) — The counter-man in a luncheonette was serving hot chocolate, tea and coffee to customers chilled by freezing temperatures Thursday night.

A patron bundled in a heavy jacket and wearing a fur cap walked up to the counter and said, "I know you'll think I'm nuts, but please give me a strawberry ice cream cone to go. I guess my wife must be pregnant."

Counterman Tommy Thunelius prepared the cone, handed it to the customer and suggested, "You better rush home with it before it melts."

ALLENTOWN, Pa. (U) — With the temperatures around zero, a man and his wife called police, said they were suffering from sunburn and asked transportation to a hospital.

The couple, Mr. and Mrs. William Ruth, told police Thursday they fell asleep under a sun lamp. They said they couldn't see well enough to drive and couldn't get a taxi. They were treated at a hospital and discharged.

"But, the bear would freeze, too," he added. The temperature dropped to a flat minus 13 degrees Thursday, the lowest in 29 years.

CHICAGO (U) — Telephone calls for weather information reached a record high on Chicago's coldest day in some 30 years — 18 below zero on Wednesday.

The calls totaled 450,298, topping the previous high daily total of 359,257 which was set July 27, 1955, when the mercury soared to 100 degrees. The weather bureau switchboard can handle 824 calls simultaneously.

CHICAGO (U) — The current cold spell in Chicago has cut the activities of criminals, says Police Supt. O. W. Wilson.

He said criminals fleeing from a robbery have the worry of not being able to get their car started. Police, however, have reported an increase in thefts of batteries from automobiles.

Turn for Better in S. Europe

LONDON (U) — Europe's killer winter, which already has taken more than 200 lives, showed signs of slackening its grip on parts of northern Europe.

The southern fringes of the continent still reeled under storms, blizzards and intense cold that left a fresh trail of floods, wreckage and death from the Atlantic to the Black Sea.

Spain, Portugal, Italy, Greece, Yugoslavia, Turkey, Bulgaria and parts of the Soviet Union were hit as winter's fury concentrated on the south.

In Denmark, West Germany and Belgium, it was a little warmer. Britain, almost totally snow-bound for more than a month, expected a slight thaw within 24 hours.

Britons continued to struggle with snow, ice, freezing fog, fuel shortages, cuts in electricity and gas, and thousands of burst water mains.

Membership in Boy Scouts at All-Time High

Boy membership in the Corn Belt Council, Boy Scouts of America, reached an all time high of 4268 boys as of Dec. 31. It was reported by Charles L. Cox, President of the Council at the executive committee meeting of the Council Thursday night. These boys are participating in the Scouting program in 171 Cub Scout Packs, Boy Scout Troops and Explorer Posts.

This also represents an all time high in the number of units in the four county council area, sponsored by 116 different institutions.

The annual Charter of the Council also reported a total of 1860 adults working in the Scouting program. "The Local Boy Scout Council is chartered to make the Scouting program to all boys in the area under its jurisdiction and we are proud of our record during the past several years in fulfilling our responsibility", it was stated by President Cox. Twenty-seven and one-tenth per cent of all the boys between the ages of 8 and 16 were currently enrolled in the Scouting program at the end of 1962. The long range program of the Council calls for a membership of 5000

and developed during the year and will be open to camping and canoe trips for Explorers and Senior Scouts in 1963.

To provide the Scouting program through a service staff of four professional Scouters called for a total operating budget of \$49,813.17 that was raised in the Council area.

Cashier Indicted

CHICAGO (U) — A cashier of the Maclestown State Bank in Rockton has been indicted on charges of embezzlement and misapplication of bank funds, following the discovery of a \$170,000 bank shortage.

The federal grand jury Thursday indicted Robert William Ambrose, 45, of Rockton on a total of 10 counts. Ambrose resigned Jan. 15 as cashier of the bank shortly before directors announced the shortage.

The shortage was found on a routine check by auditors of the Federal Deposit Insurance Corporation. They said the shortage was covered by forged notes.

Boy Scouts Plan Events For February Anniversary

The 4,368 Cub Scouts, Boy Scouts, and Explorers of the Corn Belt Council, Boy Scouts of America, will observe the 53rd anniversary of the Scouting movement during Scout Week, Feb. 7 to 13, with the theme "Strengthen America... Be Prepared, Be Fit."

They will join nearly 5,200,000 other Scouts and leaders in every part of the nation in rededicating themselves to the Scout Oath Friday, Feb. 8, the actual birthday of the movement in America.

Scout Week will be observed nationally by more than 130,000 Scouting units in every city and town and in thousands of villages and hamlets as well including the 171 in the Corn Belt Council.

"This year the Scout Week observance will be conducted at the unit level," says Dr. James E. Christman, Council Scout commissioner. "In this way we believe a boy's membership in the movement is more meaningful and colorful to him. We also like to have every member invite another boy of his own age to attend the Scout Week meeting so that he may share the excitement of the program."

The district's 72 Cub Scout packs with 2,269 members will each conduct a "Blue and Gold Open House," a "potluck dinner" with prospective members and their parents as guests. Newly-qualified Cub Scouts will be inducted. A skit "How Scouting Began," will be put on by most packs.

OPEN, SHUT

CHICAGO (U) — Two policemen were summoned to a North Side apartment over the weekend and met by a shivering Mrs. Jane McDonald, 37.

It was just 61 degrees in her apartment, she said, and demanded police force her landlord raise the temperature to at least 68, as required by city ordinance.

After a brief inspection, the patrolmen decided it was an open and shut case. They suggested Mrs. McDonald open her radiator.

Cold---

(Continued from page 1)

Rochester, Minn., reported its 17th consecutive day of below zero readings, a record. Des Moines has had 16 straight days of subzero cold. It was -9 in Louisville, Ky., and the -13 in Chicago beat the record low of -11 for Jan. 28 set in 1885. Evansville, in southern Indiana, reported -15, a record for the date.

The icy air dipped deep into the Southland. It was near zero in parts of Tennessee and readings in the teens chilled central sections of Alabama and Georgia.

Near freezing was reported in northern Florida, with the low 30s reported along the Gulf of Mexico and up to the 60s in extreme southern Florida. Miami's 66 followed Sunday's high of 85, a record maximum for Jan. 27.

With temperatures near zero, most of the 25,000 residents of Sedalia, Mo., were without heat after natural gas service failed Sunday night.

The snowstorm which hit the Northeast left eight inches of snow in Pittsburgh and from four to six inches in Philadelphia and suburbs.

Deaths related to the two snow storms in New York State since last Friday numbered 16.

ON RIVER:

Bad as Winter Is, There Have Been Worse in State

CAIRO, Ill. — Old Rivermen say that, cold as this season has been, it hasn't yet measured up to the winter of 45 years ago.

This one has been tough and it will be a long time before residents along the Mississippi River forget last winter when one of the worst ice gorges in river history tied up shipping for two weeks during January.

Oldtimers, however, say there has never been anything like the winter of 1917-18. That was the year the Ohio River froze and for the only time that anyone can remember a person could walk across the mile-wide river to Kentucky.

The Ohio, however, is fed, in part, from the warmer waters of the Cumberland and Tennessee Rivers and rarely are its winter flocks heavy enough to impede river traffic.

Samuel L. Brown Rites Wednesday

Samuel Leonard Brown, 58, of Mt. Pulaski who was in the gas and oil business there more than 27 years, died at noon Sunday in Abraham Lincoln Memorial hospital.

Friends may call at Schahl Funeral Home in Mt. Pulaski Tuesday afternoon and evening. Services will be at 1 p.m. Wednesday from the funeral home with the Rev. Clifford Smith and the Rev. F. E. Neumeyer officiating. Burial will be in Oakford cemetery, Oakford.

The deceased was born at Oakford, Jan. 10, 1905, a son of James and Ella Davis Brown. He married Verna Anderson and she died Nov. 14, 1935. He married Harriett Anderson, Aug. 11, 1936, and she survives as do two sons, Wendell C. of Chicago and James R. of Mt. Pulaski; a daughter, Mrs. Arlene Byerley of Fort Wayne, Ind., two brothers, Irving of Oakford and Gerald of Petersburg; a sister Mrs. Henry Hebner of Tremont, and seven grandchildren.

In early January of 1918, however, residents along the Ohio watched apprehensively as the river slowly became choked with ice. The Mississippi River already was gorged with ice in places as far south as Vicksburg, Miss.

Finally, on Jan. 12, 1918, the coldest day in Cairo's history, the Ohio froze solid from bank-to-bank as the temperature dropped the 16 degrees below zero.

For five days rivermen and engineers waited for what they knew must come. On January 17 the ice started to move at Mound City, ten miles upstream from Cairo. Word quickly spread and in Cairo harbor all boats sounded their whistles in warning.

The huge ice mass swept past Cairo, snapping steel mooring cables and carrying scores of ice-locked barges downstream to destruction. The ice gorge froze again that night and did not move again until Jan. 27.

On that date, a final spasm began that was to last more than two days.

At Richardson's Landing in Tennessee and at Paducah, Ky., the ice swept away everything on the shoreline. It took 24 hours for the Paducah wreckage to float past Cairo.

Packets, towboats, barges, docks were smashed like kindling. Witnesses at Cairo stood helplessly watching men aboard the barges calling frantically for help.

Few lives were lost in the swirling ice. Ample warning enabled most to make it to shore before the ice broke up. Others managed to cling to the remnants of their boats until rescued farther downstream after the Ohio had emptied into the Mississippi.

History recounts some other hard winters in Illinois, including that of 1830-31 when Abraham Lincoln lived as a youngster in a cabin near Decatur. Its hardships were long recounted by settlers who boasted that they were among few survivors of it.

Pastors to Meet Here

Logan county pastors of all faiths are asked to be present for the meeting of the Lincoln Ministerial association at the Lincoln First Methodist Church Monday at 10 a.m. Consideration will be given to the proposed "Chaplain of the Month" program.

Sponsored cooperatively by the Ministerial association and city and county law enforcement officials, the program calls for the referral of juvenile offenders to the counseling program of their local pastor. A similar program in Decatur and Macon county has effected a drastic reduction in "repeat" offenders.

The ministers recently appointed a committee consisting of the Rev. E. C. Keith, the Rev. Warren Seyfert and the Rev. Allan Simpson, who with Sheriff Kenneth Zimmerman, Police Chief Earl Minder and States Atty. Darrell Klink have investigated the Macon county program and have worked out tentative details for Lincoln and Logan county. The program if approved by the ministerial body will be instituted as soon as possible.

The median age of married men is nearly 45 years, averaging three and a half years older than their wives.

Hospital - - -

(Continued from page 1)

"There is always a kind of call to rededication to fundamentals in our common life when we think of the Great Commoner. Certainly, nothing could be more fundamentally community-wide or more perfectly exemplify the spirit of Abraham Lincoln than this enlarged hospital bearing his name and meaning so much to so many.

"I look at a great many hospital programs and I can say without fear of contradiction no area of this size anywhere in America was ever asked to support a sounder, wiser or more urgently needed program. It grows on you the more you study it. Everything about it is right and it is a wise outlay of money. It should receive generous backing from every thoughtful citizen.

"The medical staff, our industries, the board of trustees, and a number of others are taking the lead in this program that will benefit everyone. These are being joined daily by others who sense the importance of having adequate hospital facilities. The person with ten-talents, five-talents, two-talents, one-talent and one-half talent must now unite in a fine understanding investment to have the hospital needed to safeguard the health and happiness of everyone."
