We're already being asked— "When does Daylight Saving Time start in Lincoln?" The answer is the last Sunday in April — that's the 28th — at 2 a.m. But better plan to set your clocks and watches ahead an hour Saturday night, April 27, to save getting up in the wee hours — or being "late" for church the 28th.

Push for Hospital Fund

With the ALMHI expansion fund nearing \$700,000, Campaign Chairmen Jacob Lauer, Galen Shirley and Robert Woods are urging the city and township committees to a redoubled effort to make it possible to climax the campaign with victory this month.

"We are encouraged by the understanding cooperation of so many," the chairmen said. "We couldn't have a finer or more basic thing to be doing together."

The township committees will be meeting Tuesday in Central School at 7:00 p.m., the women's divisions of Lincoln at 9:30 a.m., and the men's divisions at noon.

Thursday in the Hotel Lincoln. "The goal of \$850,000 in an area of this size requires the selective, personalized calls our volunteer committeemen are making," the chairmen explained. "We cannot raise the goal unless citizens give thoughtfully, and one cannot give thoughtfully unless he understands, which is the reason why our committeemen, despite their own heavy personal schedules, are making the calls."

"In any financial appeal even though the objective is as important as the expansion of our hospital, some families can't give, some won't give and some don't give, which means those who care for the best possible hospital service here, must give in representative amounts. We are convinced that every family will be coming increasingly grateful for the plans that have been projected to assure the area of the finest possible hospital service."

Saturday's emergency cases at the hospital here included: Steven Cushman, 15 months old son of the Roger Cushman of 803 N. Logan st., who swallowed some furniture polish; Mark Graddy, 6, of 802 N. Madison, who hurt his arm on a storm door; and Pat Boswell of 418 N. Monroe for a dislocated knee.

Break Ground; Cornerstone Rites May 26th for Temple

Ground was broken Sunday afternoon for the new Lincoln Masonic Temple in Mayfair addition and work was scheduled to get underway Monday.

Myron K. Lingle of Springfield, senior grand warden of the Grand Lodge of Illinois, pointed out the first Masonic lodge in Lincoln was chartered Oct. 7, 1856, in a period when Masonry was expanding rapidly. "And since then, this lodge has been known for the quality of its leadership," he said.

He mentioned then the various other Masonic groups which were subsequently organized and today make up the Masonic "family." The Grand Lodge leader called Masonry "a spirit—a way of life, a manifestation of belief." He said "the new temple

will be material evidence of that belief."

Lingle said the formal cornerstone laying ceremony is set for the afternoon of May 26 at 3 o'clock. "Then later will come the dedication to God."

Edgar Salzenstein, a deputy grand master and member of the Temple board of trustees, presided and James A. Rice, chairman of the trustees, turned the first earth at what will be the northwest corner of the building. Prayer and benediction were by Dr. John T. Burns, First Presbyterian church pastor, and a former Temple trustee.

Those attending were welcomed by Robert Schacht, worshipful master of Lincoln lodge 210, A.F. & A.M. He declared the new Temple will be a "symbol of the

growth of Masonry." Temple trustees introduced in addition to Rice and Salzenstein are Charles Hoelscher, Robert C. McAllister and Ken Goodrich.

Healthy Advance Shows Stock Trading Wednesday

NEW YORK (AP) — Heavy buying of steels propelled the stock market toward a healthy advance early this afternoon.

The trading pace was extremely active and not too far below Monday which turned out to be the busiest day of the year.

Interest in steels was generated by the price increase posted last night by Wheeling Steel, the nation's 11th largest producer. Industry leaders had little to say about the move. Brokers considered it held inflationary implications.

Average Shows Gains

At noon The Associated Press average of 60 stocks was ahead .8 at 265.5 with industrials up 1.1, rails ahead .5 and utilities up .2.

Around noontime the top half-dozen steel companies were higher by more than 1, including Wheeling.

Motors trailed off but tobaccos, oils and rails were generally higher. Most of the gains among key issues outside the steels were

fractional.

Another possible factor aiding buying was a survey of orders received by manufacturers which found the March strong and clear. The survey this indicated a strong upswing in the national economy was in.

Other steel stocks ahead more included U.S. Steel, U.S. Steel Corp., Jones & Laughlin, Youngstown Sheet and Tube and Bethlehem was ahead for fraction.

Ford Stocks Decline

Ford was the biggest among the motors, falling about 1½. The company declared a regular dividend and named a new president the morning.

Philip Morris again paid tobacco, picking up a point. The company's first quarter sales and earnings report of 1962.

The noon Dow Jones industrial average was ahead 1.17 a

Senior at Beason Named Junior Good Citizen Winner by Jaycees

(photo on Page 1)

Michael Donnan, 17, of Lawndale is the Lincoln Junior Chamber of Commerce Logan county junior good citizenship winner for 1963.

The award consists of a \$50 college assist which will be presented by the Lincoln Jaycees upon Donnan's registering for his second semester at the college or university of his choice. By winning the Logan county award, he is eligible for the Illinois junior citizenship award which is a \$1,000 scholarship. His parents are Mr. and Mrs. Wilburn Donnan.

Donnan, a senior at Beason High School, was selected by a panel of judges. His activities demonstrating citizenship and leadership are varied. He has held every office in his local 4-H club with the exception of treasurer and is past president and treasurer of the Logan County 4-H Federation. Donnan is in his second year as a junior leader of the Abe Lincoln 4-H club.

On Outstanding List

He is an outstanding state 4-H member and has been awarded a plaque for being the outstanding member of his local group. For two years straight he has won the leadership medal from

the Logan County 4-H.

Donnan was the Kiwanis club candidate for county outstanding member of the 4-H. He raises registered Duroc hogs and has shown them at the Logan County Fair for the past eight years. In 1962 he showed the Logan County Fair's grand champion boar.

Between these activities, he has time for school activities. He is the catcher on the baseball team and has lettered three years. He has been manager of the basketball team for three years and taken part in class plays, held class officers, served as a member of the student council and assisted the coach in physical education classes.

Participates in F.F.A.

He is also active in Future Farmers of America. He has earned medals in parliamentary procedure and public speaking. Last year he was president of Beason's F.F.A. chapter, the chapter star farmer, swine award winner and earned the State Farmers' degree—the only high school junior in the area to do so.

At home he helps with the chores besides raising and caring for his hogs. He has already been accepted at Illinois State Normal university and will enter classes next fall, majoring in agriculture.

"AND WHEN the sabbath was past, Mary Magdalene, and Mary the mother of James, and Salome, had bought sweet spices, that they might come and anoint Him. And very early in the morning the first day of the week, they came unto the sepulchre at the rising of the sun. . . . And when they looked, they saw that the stone was rolled away. . . . And entering into the sepulchre, they saw a young man sitting on the right side, clothed in a long white garment; and they were affrighted. And he saith unto them, Be not affrighted: Ye seek Jesus of Nazareth, which was crucified: He is risen; He is not here: behold the place where they laid Him. But go your way, tell His disciples and Peter that He goeth before you into Galilee: there shall ye see Him, as He said unto you."—St. Mark 16: 1-7.

BIRTHS Born Friday

TELL-TALES: Editor's Notebook....

This, no doubt, will answer a question which many Courier subscribers had when they received their Friday editions. "What's the sweet smell?" they are asking. One could explain with "It's the berries." Strawberry "flavor" was added to the ink producing the red-colored berries in a grocery ad.

Perhaps next year the Jaycees will "mark" their Home Show queen-hostess with a crown. As it was this year, those who knew Queen Bonnie Sue Keys were able to pay her royal homage—but those who did not know her did not identify her.

For want of a shovel, camera recording of the new Masonic Temple ground breaking ceremony of Palm Sunday was delayed. Those in the photo were done preceding the program—but the one scheduled to provide the spade hadn't shown up. Cal Broughton came to the rescue—getting a "digger" in short order.

"Wet memory" being revived at the April 8 Logan County Fair meeting. It was remembered, rain descended on the big Sunday night 1962 revue and hope was expressed "it won't happen to us this year."

The tour of Lincoln industry, planned for teachers by the Lincoln Chamber of Commerce, is now being set up for a date in May. Originally it was planned it would be in April.

Thanks to Jaycee Larry Ellis for his compliments on the generous Courier publicity for the various Junior Chamber of Commerce projects and activities—such as the Home Show.

Busy gals, those Note-A-Belles. Because of having two singing engagements in one evening, it was necessary they sing during the dinner of April 8 for Logan County Fair personnel.

Motorcycles may be speedier than automobiles (although we question it) but that's no reason for motorcycle riders to make race tracks out of city streets. Nor do automobile drivers have any such rights.

While silk stockings were first worn by ladies in the 13th century, it was not until the 20th that they were seen—and now they're really seen.

Notebook speaks for Courier readers in welcoming Sir Winston Churchill into U.S. citizenship. His joining the Union makes Wonderful Winnie close to us no matter what our station in life.

Logan Fair goes in large numbers will be seeing their first Broadway musical comedy when "Guys and Dolls" is presented on the Fair stage Aug. 4. Most of the roles are those of gamblers—with such names as Nicely Nice Johnson, Harry the Horse, Big Julie, Sky Masterson and Bonnie Southstreet. They have a main interest in life—who's going to win the horse race? Plenty of comedy results.

It was a rough Winter and after all, the rabbits had to eat

tion. The project is in no way connected with Junior Good Citizen awards presented annually to Logan County high school graduates at the Logan County Fair and sponsored by the Courier and Logan County Fair association.

Pool time is here again—baseball pools, that is.

Remember you can vote up to 7 p.m. in the Saturday (today) school elections.

Easter—nor any other time—is appropriate for such a disaster as befell the Submarine Thresher. The hearts of the nation go out to those who lost loved ones in the depths of the sea.

Retirement (in baseball) anticipated by Bill (Vest) Phillips. He's been a Pony League team manager for 9 years and after the 1963 season, will hang up his managerial reins.

What a pity. Frost has ruined the tulip tree blooms on at least some Lincoln trees at least. Even with favorable weather, the pink blossoms last all too brief a time and to have that time shortened even more by freezing is saddening.

C.D. Director Larry Shroyer got back from Washington, D.C.—but without his camera. He left it at the station of the bell captain in a hotel with his other luggage but when he returned, his picture had been stolen.

County Treasurer Weldon "Pete" Frantz has been awarded the "Ben Casey" award by courthouse employees for his humanitarian work in the medical field.

Visit of Pam Gilbert, Miss Illinois of 1962, to the Jaycee Home Show was not her first to Lincoln since winning the crown last June. She spent some three hours here visiting with her aunt and uncle, Mr. and Mrs. Carl Allee, 222 Lincoln ave., the day after winning the state title.

List Reasons For, Against Fire Station

A series of discussions and meetings by Legislative committee of the Lincoln Chamber of Commerce on the fire house proposal to be voted on this Tuesday has resulted in that group listing four alternatives for the city on the issue and a list of reasons for and against the proposed new fire house.

The alternatives are, to improve the bond issue Tuesday and construct the new fire house; to use the former utility facilities given the city on Third street; to negotiate a working agreement with the rural fire protection district; to make no changes in the present fire protection set up.

The committee listed the following advantages of the new fire house proposal: (1) satisfy a long term need for the city by placing the new fire station in an area of the city which is growing; (2) to have fire protection on the west side of the G.M. & O. tracks; (3) in comparing the new fire house with the utility property, the utility property would be only a temporary measure and a difficulty might arise as to getting the equipment out of the utility facilities.

The following reasons are listed why a new fire station is NOT needed: (1) immediate high cost of the new fire house compared to the use of the utility buildings; (2) duplication of men and equipment; (3) increase in taxes with no decrease in insurance rates with a new fire station; (4) really no need of a fire station on the west side of the tracks because of the fewer trains now running on the G.M. & O. tracks; (5) there could be a working agreement made with the rural fire protection district.

The committee concluded its release with a statement urging all citizens of Lincoln to vote on the bond issue Tuesday.

Heritage Trail to Reflect Character, Beliefs of Abe

GILBERTSVILLE, Ky. (AP) — Gov. Otto Kerner of Illinois said today a primary purpose of the Lincoln Heritage Trail should be to "present a true reflection" of Abraham Lincoln's character and beliefs.

Since the Civil War President's death, Kerner said, "the story of his life has become endlessly entangled with legend."

The governor said Lincoln has become to many persons, "all that is honest and good and true" and "an integral part of the Lincoln Heritage Trail will be the opportunity to re-emphasize this heritage for our fellow citizens."

Speaks at Conference

Kerner addressed a Lincoln Heritage Trail travel conference at Kentucky Dam Village State Park in Gilbertsville. The trail, through Indiana, Kentucky and Illinois, will mark places of historic interest in Lincoln's life before he was nominated for president.

Lincoln was born in Kentucky, spent some of his early boyhood in Indiana and developed his political thinking and law career in Illinois.

Kerner said one objective in developing the trail is to give travelers "a fuller understanding of the history of the three states and particularly of the life of Abraham Lincoln."

"More Successful"

"It is important that travelers become acquainted with the Lin-

coln who was susceptible to the same human foibles we all have, even though he may have been more successful than we in overcoming them," Kerner added.

"There is a great inspiration in a biography based upon fact, because in truth we realize that a human being can indeed achieve a life of nobility and grandeur."

Yard Working On 'Spy' Ring

LONDON (AP) — Scotland Yard made pre-dawn raids today in "Spies for Peace" ring for betraying some of Britain's nuclear survival secrets.

Swinging into action after a wild, fist-throwing "ban the bomb" rally, agents of the special branch dealing with security offenses swooped on houses in search of a typewriter used to draw up pamphlets first distributed during the weekend peace march on London. The pamphlets disclosed secret plans for dispersal of government offices in the event of a nuclear attack.

Publication of the secret government plans was described by Home Secretary Henry Brooke as "the work of a traitor."

More Secrets Out
The special branch has been told that the mysterious antiwar group has printed another series of leaflets revealing more official secrets.

Young detectives, many of them in beatnik outfits, mingled with the ban the bomb marchers Monday on the watch for the new leaflets.

One marcher who was distributing leaflets from a shopping bag was arrested. The leaflets were digests of the original pamphlet. Some 25,000 copies of the digest were reported distributed.

Prime Minister Harold Macmillan's government has been plagued by repeated security scandals.

IF YOU STILL have doubts about Spring's arrival this should be convincing. A shop in Lincoln (just one of several) is jammed full of power mowers — getting repairs or a "sprucing up" for the "harvest" season. Already many Lincoln lawns have been mowed and those which

have not will be soon. Rain hasn't been plentiful in this traditionally showery month but nonetheless the grass is up and doing. Rather sparing April showers have this week given the grass a growing boost.

Young GOP Wins Praise

SPRINGFIELD, Ill. — Secretary of State Charles F. Carpenter Saturday told Illinois Young Republicans attending their state convention in Springfield they have made some great contributions to the service of the State of Illinois in the past and are continuing to do so at the present time.

Secretary Carpenter cited the 1962 November election as a prime example of Young Republicans moving onto the state scene in rendering service. Superintendent of Public Instruction Ray Page, State Treasurer William Scott, and new senators and representatives elected in the November contest all have been active Young Republicans and are still participating in the organization's activities.

'Do Nothing' Tendency for U.S. Congress

WASHINGTON (U) — Congress will have to work harder if it is to produce a respectable batting average before this session ends.

Returning today from a 10-day Easter vacation, Congress had little to show for the almost four months it has been in session.

It has enacted eight public laws, the more prominent of which extended the draft and made Winston Churchill an honorary citizen.

No Big Push Planned

There are no signs of a big legislative push in the offing, but Senate and House leaders have served notice that there will be little time-off if the legislators want to wind things up by Labor Day.

The House has not held a session since April 11. The Senate held two brief and non-productive meetings since then.

The official "Status of Major Bills" lists only two of the dozen measures on the way toward enactment. They provide funding for the Interior Department and the Treasury-Post Office Departments. Both have passed the House only.

The only major bill near enactment is the annual authorization measure for procurement of missiles, aircraft and naval ships. It has passed both branches and is awaiting a compromise agreement.

Passed by Senate

The Senate has passed bills providing for a mass transportation system, preservation of wilderness areas, and establishment of a youth conservation corps. All three are in House committees and could run into trouble in the Rules Committee, which directs the flow of bills to the floor.

For this week, the Senate's biggest order of business probably will be action on the President's nominations for officers of the Communications Satellite Corporation.

The House docket, a little heavier, calls for votes on a bill to provide federal aid for medical and dental schools and a bill to extend the feed grains control program.

Seeking to Stop Flow Of Gold, Dollars Abroad

WASHINGTON (U) — Secretary of Defense Robert S. McNamara has issued a new order for global belt-tightening in an effort to overcome the stubborn drain of U.S. gold and dollars overseas.

The Associated Press learned today a confidential memorandum went last month from McNamara to the Joint Chiefs of Staff, the military departments and other elements of the Defense Department.

Effort to Continue

Asked about this, the Pentagon said McNamara "has pointed out that continuing efforts must

be made to reduce the adverse impact of Defense Department expenditures overseas."

The department said it is reviewing many areas for possible savings "including numbers of support personnel overseas as well as the cost of our overseas support operations."

In this connection, it was reported the rear echelon structure backing up the U.S. 7th Army in Europe is coming in for attention.

This organization is called the Communications Zone and includes port installations, storage and supply depots, transportation facilities and the like, mostly in France. It is run by 30,000 military people who have with them about 17,000 dependents.

Looking at others

Other elements that may get a close look are the various headquarters, which some officials think may be overstaffed, and military advisory groups in some countries where their value is considered marginal, particularly in Europe.

The Pentagon said McNamara has directed that reduction in the adverse balance of payments "must be accomplished without in any way reducing our combat power and without imposing undue hardship on the individual serviceman and his family."

Youths Accused In Information

An information charging two Lincoln youths with criminal damage to property was filed in county court Wednesday by the Logan county state's attorney's office.

The information charges Eugene Norris, 19, and Thomas Dabbs, 18, with criminal damage to property owned by Thomas Madigan, Ed Madigan and James McGregor, all of Lincoln. The property involved was furniture in a cabin owned by the three on the edge of Lincoln.

Norris and Dabbs were arrested by chief Deputy Ken Simmons and Deputy John Denning on March 29 at the cabin. The pair told authorities that they had spent almost a week in the cabin. They were also charged with illegal possession of liquor at the time of the arrest and are now in county jail, sitting out a fine imposed by Justice of the Peace William Crumpler on the illegal possession of liquor charge.

Taxpayers Federation of Illinois has this to say about the measures in the Illinois legislature which would increase the statutory minimum salary levels for policemen and firemen to higher levels —

Be Consistent

Sept 24 to Oct 23 (Libra) — Indicated now: a few breathlessly revitalizing hours, which you can use to excellent advantage; impressive developments by which you can profit. One admonition: Don't be inconsistent.

Oct 24 to Nov 22 (Scorpio) — Don't enter activities in which you are not particularly interested just because someone else wants to. There are some suggestions you should resist. Work for the many credits you can attain.

Nov 23 to Dec 21 (Sagittarius) — You may overlook a few obligations thinking up "something new" to do, if not careful. This is the type of day that sends non-thinkers off on unprofitable tangents.

Dec 22 to Jan 20 (Capricorn) — You may overreach your mark today because of anxiety or miscalculation. Try to avoid this by taking things in stride and following routine at an easy pace.

Jan 21 to Feb 19 (Aquarius) —

Wait for cues before launching any project. The activity-happy person can get himself into difficult situations and complications if not on guard.

Feb 20 to March 20 (Pisces) — Put fervor and ardent ambition into this fine day, and stress optimism. That is often all that is needed to insure success. Better than average opportunities; look about.

You born today are an encouraging influence, with creative ability, and gifted along scientific and educational lines. You become enthused about whatever you undertake, which is normally MANY THINGS in a lifetime. This is fine, IF you control impulses, emotions, and resolve not to overtax yourself. Sometimes a slowdown, a complete STOPPING of forces is mandatory for renewing strength. You make able advisors, bankers, farmers, doctors. Don't let anger, fault-finding or self-will get the upperhand. Birthdate: Sam'l. Morse, inventor; Gen'l. U. S. Grant, 18th U.S.A. Pres.

Can you imagine a group of 25 to 30 women going through an initiation with one shoe off? It took place here this week at the Royal Arch Masons "widow's" degree conferral. And how the femmes did rush to find their "other shoe" as the footwear was placed in a pile when the "ceremony" was ended. — Proceedings were interrupted when a sudden, LOUD sneeze was let go by a sidliner, setting off a wave of laughter.

Been a bit difficult to wear the "right" clothing — this week. Winter attire was a bit warmish, summer clothing was out of the question as the temperature swung down to 28 degrees and there was frost. — Regardless of the extremes of weather, relief is universal that this area escaped the tornadoic storms which struck not far away.

Showers Finally Come for Logan

April showers, long-awaited, started early Monday morning in the Logan area. By 7:30 a.m. the rain had measured .71 of an inch and there was more after that hour.

The fast weekend in April was cloudy and the forecast had been for rain Saturday night and Sunday. Apparently, however, it was "delayed" in reaching this area. The showers, according to the forecast, will end Monday night or Tuesday morning and it will be cooler.

For farmers and gardeners the rain is especially welcome. There has been little rain this month. Temperature-wise it was pleasant Sunday, the maximum being 70 degrees. Low in the night was 58 and at 7:30 a.m. Monday the reading was 60 degrees.

(By THE ASSOCIATED PRESS)

Showers and thunderstorms soaked Illinois today and turned the weather cooler.

The heaviest early rain measurement was 1.24 inches at Peoria.
