Railroad Strike Outlook Depresses N. York Stocks

NEW YORK (AP) — The stock market, dampened by revived fears of a railroad strike, moved irregularly lower early this afternoon in moderate trading.

The Aug. 29 deadline seemed close as efforts to settle the work rules dispute were reported at a stalemate.

Losses of fractions to a point among key stocks outnumbered gainers in the same range. Wider moves occurred among some of the more volatile issues.

Rails were the worst losers among the major groups. The market began to drift lower from the start but recovered partially as trading entered the afternoon.

The Associated Press average of 60 stocks at noon was off .7 at 272.5 with industrials down .6, rails down 1.3 and utilities down .2.

Illinois Central dropped more than a point while fractional losses were taken by other rails.

Chrysler, Tuesday's market leader, recovered from a small loss and edged upward. Ford and General Motors remained fractionally lower.

Gains of a point or better for Goodrich, Sears Roebuck, Crown Cork and Dayco, as well as a

rise of more than 2 by Electronic Associates, reflected lively demand existing under the general market tone.

Amerada dropped about 2 points.

Fifth Consecutive Day for Upturns in Stock Market

NEW YORK (AP) — For the fifth straight session the stock market moved higher today but the gain was small early this afternoon. Trading was moderately active.

The list was slightly higher from the start but changes were slight and the plus and minus signs were scattered liberally.

Working into the afternoon, steels and motors made a somewhat better showing, with steels especially active although gains were small.

Airlines were mostly higher at the start but faded a bit, showing a scrambled pattern.

The renewed threat of a railroad strike Aug. 29 was Wall Street's major worry.

The leading rails firmed after taking a minor setback at the start. Little change was shown by the big carriers.

The Associated Press average

of 60 stocks at noon was up .1 at 273.5 with industrials off .1, utilities unchanged and rails up .3.

Sears Roebuck dropped more than a point as profits were taken. Du Pont cut a 1-point loss to a fraction.

Gains of about a point by General Motors and Chrysler gave the market some leadership. Ford added a fraction.

International Telephone was fractionally higher.

Xerox, Polaroid and IBM were up about a point each.

The Dow Jones industrial average at noon was up .88 at 715.81.

Prices were mixed on the American Stock Exchange.

WASHINGTON — In the news from Washington:

COLD CURE — The Food and Drug Administration is proposing a ban on prescription cold cure remedies containing antibiotics. It says a special medical panel had concluded there is no evidence in treating the common cold or its side effects.

The proposed ban could become effective in mid-September, after expiration of a 30-day period the FDA announced Saturday for receiving comments on the proposal.

Stocks Move Higher in Moderate Trading

NEW YORK — Rails, airlines and selected issues improved as the stock market moved higher in moderately active trading early this afternoon.

The market seemed embarked on its seventh straight daily rise. The arbitration agreement in the rail arbitration dispute encouraged further buying of rail shares but enough labor-management issues remained so that a possible railway strike Aug. 29 still threatened.

Some of the office equipment, photographic and electric stocks were boosted by speculative activity.

There were plenty of soft spots in the market, however. Steels were sluggish. Chemicals and drugs were mixed. Nonferrous metals showed some softness.

The market was slightly higher from the start and maintained its upside edge with little change on balance.

Kerner had received the board recommendation earlier this week but its nature was not made public.

Kerner granted a reprieve to Miller July 17 to permit the special study.

Miller, a former Canton cab driver, has had about a dozen stays of execution by courts.

He was scheduled most recently by a court to die July 26. Kerner granted a reprieve until Friday. Then the sentence will be carried out if neither the governor nor a state nor a federal court issues further orders.

Miller's counsel has contended he is innocent of the slaying of Janice May, 8, in Canton, Nov. 26, 1955.

The state has contended Miller had been convicted at a fair trial and nothing has been revealed since to disprove his guilt.

While most of Lincoln slept Saturday morning, the Lions roared.

The Lions are of course members of the Lincoln Lions club and their roaring was the preparatory work in getting the three-day annual Homecoming festivities underway.

One group left at 6 a.m., to load and haul three tons of watermelons to Lincoln to be consumed during the watermelon feed Monday. Another group began work early in the forenoon preparing batter for Saturday's pancake and sausage feed which began at 11 a.m. Saturday and continues to 6 p.m.

The Lions apparently believe the way to a person's heart is through his stomach as food plays an important part in each of the three days' activities.

After Saturday's pancake and sausage sale, the eating is more on the sweet side Sunday with an ice cream social, highlighted by a cake walk. The crowning of the homecoming queen precedes the ice cream social Sunday. The crowning is to be at 5:30 p.m.

Watermelon is on the menu for Monday, Labor Day. A parade, which according to co-chairmen Ken Zimmerman and Ken Simons is to be one of the biggest ever, will take place in the downtown Lincoln area at 2 p.m. Monday. A diagram of the parade route is shown above.

Record hops are featured on Saturday and Sunday evenings

Even the mail is "cricket" these days. Sorting the Courier mail for easier carrying, a Courier employe was startled when a cricket hopped out as he went through the letters, newspapers, etc..

Some people say the nicest things. Like the man who inquired about identity of a Courier staffer who he said "has white hair but is young." —It's interesting to note how others see us.

Yields of corn in Logan county fields are being viewed as of "bin-buster" size. The same may well be said of soybean harvesting. Which brings to mind the fact that during the 1962 Fall harvest season, a shortage of boxcars for grain shipments became critical — forcing some grain elevators to close down.

Paul O. Williamson leaving lodge meeting in a hurry when his "number was called." He had left the headlights on his car burning, a bypasser noticed it, got the license number which was announced at the meeting, and Williamson was on the way to "save" the storage battery.

Canna leaves as big (or bigger) than elephant ears top some of these ornamental plants in Lincoln. In tropical America as well as swampy areas in the U.S. — from Florida to S. Carolina — the plants grow wild. Above leaf is 22 inches long and 11 inches wide. Tacked to the side of a house, it reminds one of the trappers who hung animal skins for drying. Some flower arrangers value the huge leaves (like in photo) for working into bouquets.
