Returning Decatur Killer From Florida in Secrecy

WEST PALM BEACH, Fla. (U) — Michael Lee Gambrell, 19-year-old Marine charged with the hatchet slaying of his parents and sister, has been whisked away amid secrecy to Decatur, Ill.

Chris Vallas, chief deputy sheriff of Macon County, took custody of Gambrell at 7:25 p.m. Wednesday. He gave no details of the trip, saying he wanted no publicity. He left with Gambrell in handcuffs.

Gambrell was arrested Monday while hitchhiking in nearby Boynton Beach. He was armed with a .22-caliber pistol and a switchblade knife, but offered no resistance.

Hacked to Death

Police said the Marine told them he hacked his father, mother and 13-year-old sister to death as they lay in bed.

Everett Gambrell, 49, his wife, Eileen, 46, and their daughter, Anna Belle, were found by police who broke into the Decatur home Monday.

New Agency Will War on U.S. Poverty

WASHINGTON (U) — A brand new federal agency will be created to run President Johnson's war on poverty, an official source said today.

The source said that the chief duty of the new agency will be coordination of programs operated by other federal agencies, but it will also take over direct control of newly established programs such as the proposed Youth Conservation Corps and National Service Corps.

Message Comes Friday

The President's message on the poverty program is expected to go to Congress Friday.

Apparently, the special task force assisting Sargent Shriver, who heads the poverty program and will head the new agency, has managed to work out a resolution of what has amounted to a bureaucratic tug-of-war.

Reports Wednesday indicated there still were wide differences among the members of the task force, who represent such vary-

"We Will Appeal," Convicted Hoffa Says

CHATTANOOGA, Tenn. (U) — James R. Hoffa, president of the nation's largest labor union, started in grim disbelief Wednesday when he heard himself declared guilty of trying to rig a federal court jury.

It was his first conviction in four trials.

"We will appeal," Hoffa told newsmen.

His lawyers said motions for a new trial would be filed with U. S. Dist. Judge Frank Wilson within five days.

The conviction could mean 10 years in prison and a \$10,000 fine for Hoffa, head of the Teamsters Union.

Kennedy Only Smiles

The verdict brought congratulations to the prosecutors from Atty. Gen. Robert F. Kennedy — long accused by Hoffa of waging a vendetta against him.

Kennedy, once called a "punk kid" by Hoffa, just smiled when asked for his reaction to the verdict. Pressed by Washington newsmen for a statement, he would say only that "it was in the hands of the jury and the jury has spoken."

Hoffa told newsmen that "de-

thing," he said, "that the membership will be behind Hoffa in the fight all the way."

Initial reaction from members of Hoffa's home local in Detroit was unanimously in his favor.

Hoffa, 51, who is scheduled to go on trial April 27 in Chicago on charges of misusing \$20 million in union pension funds, became president of the Teamsters after his predecessor, Dave Beck, went to prison for income tax fraud.

Hoffa's bond was raised from \$10,000 to \$75,000 by Wilson. Smaller bonds were required of the three men convicted with him of attempting to bribe the jury that heard Hoffa's 1962 conspiracy trial at Nashville. That trial ended when the jury could not agree on a verdict.

The Jury found that:

1. Hoffa, Larry Campbell of Detroit and Thomas E. Parks of Nashville sought to offer \$10,000 to the son of a juror in the Nashville trial.

2. Hoffa and Ewing King, former Nashville Teamsters president, tried to influence another juror by offering to help her husband get a promotion on the Tennessee Highway Patrol.

The jury of eight men and four women acquitted Hoffa of two businessmen on charges of offering "things of value" to a Nashville bar operator would try to contact members of the 1962 jury.

The businessmen were Elias J. Tweel of Huntington, Va., and Allen Dorfman of Chicago.

Confesses to Causing Blaze

KANKAKEE, Ill. (AP) — Police said a former dishwasher at the Alamo Hotel has admitted causing the \$30,000 fire which destroyed the three-story building Feb. 24.

Agents of the National Board of Fire Underwriters arrested Roy A. Moss at New Hanover Wednesday.

He was charged with arson Thursday.

Authorities at first believed the skid row hotel fire claimed several lives, but a search of the debris uncovered no bodies.

Fire Chief John Marquart said that a few hours before the blaze Moss was fired from his dishwashing job and went to the hotel's basement to drink.

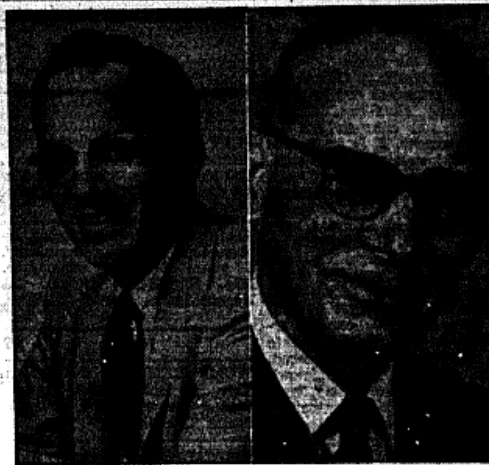

His cigarette set fire to a rag pile and ignited his bottle of liquor, Moss said in a statement.

Moss, 48, said he fled when the fire was discovered without turning in an alarm.

Authorities said Moss has served a jail term in Wisconsin on a morals charge and had been a volunteer patient at Kankakee State Hospital.

Quiet About Pay Increase

WASHINGTON (AP) — Leaders of both parties are doing their best to ease a \$10,000 pay raise for members of Congress through the House with a minimum of fuss.

The big raise, part of a \$445-million pay boost package for 1.7 million federal workers, already has cleared the Rules Committee and is scheduled for floor action Wednesday.

Its way was smoothed further Thursday when the Republican

Unique Music Here Monday

No other touring musical group uses the combination of instruments played by the New York Brass Quintet which will be heard in Lincoln Monday evening. They will perform for Concert association members at 7:30 p.m. at L.H.S. auditorium.

Instruments are trumpets, (two), tuba (bass horn), trombone and French horn. Each of them has been hailed as "a veritable Helmfeltz of his instrument" and music from every period — from pre-Bach composers to the newest contemporary works — is presented. The Quintet is the first of its kind as well as the foremost to put the brass instruments together for an ensemble.

Reviewers have called their music "fascinating" and the performers have made a number of recordings.

Concert association members may renew for the 1964-65 season at the March 9 concert here. And those who are not members, but plan to be in 1964-65, by obtaining their memberships before the Quintet concert, may attend the Quintet program as a bonus.

"Advance" memberships may be obtained now at the Chamber of Commerce, or before the Quintet performs. Those desiring new memberships may also mail their applications to Mrs. Deane Doolen, Jr., the association secretary.

There is no pat answer and no set formula for high corn yields according to Joe Mountjoy of Alton, (standing in photo) seedman who conducted a March 4 school on determining wise use of fertilizer. The class was the third in a series of Logan Extension meetings on crop production aimed at helping farmers use their fertilizer dollars wisely.

Mountjoy states that some "rules of thumb" any farmer can use are: between \$16 and \$19 worth of fertilizer per acre is now required to obtain maximum yields. Adding nitrogen at the rate of 1½ to 2 pounds per bushel increase is necessary. Even higher rates might be necessary for

King---

(Continued from page 1)

Death came at 4:12 p.m., 14 days after his stomach operation.

King Paul, a robust man who stood 6 feet 4, had for days and possibly even weeks before his stomach operation suffered a period of pain hidden from the Greek public. It had been feared that announcement of his condition would cause too much anxiety just prior to the national election of Feb. 16.

One of King Paul's last acts before undergoing surgery at Tatol Palace 26 miles outside Athens was to swear in Prime Minister George Papandreu on Feb. 18. Papandreu won a landslide victory in the vote for a new parliament.

Now Queen Mother
With the king's death, Queen Frederika, 46, becomes queen mother.

She will be succeeded by a teen-age queen. Constantine is engaged to marry Princess Anne-Marie of Denmark, now 17, a very distant cousin. They are scheduled to marry next January.

Besides Constantine and Frederika, the king is survived by daughters Princess Irene, 21, and Princess Sophie, 25.

CONVICTED IN SINATRA CASE—Joseph Clyde Amsler, Barry Worthington Keenan and John W. Irwin leave federal courtroom in Los Angeles following conviction and sentencing in the Frank Sinatra, Jr., kidnaping case. District Judge William G. East sentenced Keenan, 23, and Amsler, 23, to imprisonment for life and for 75 years—the maximum terms possible to the six counts of the indictments on which they were convicted. Irwin, who was not convicted on the actual kidnap count, but on five others, will be sentenced in two or three weeks.

College Students Jailed After Orgy at Convention

INDIANAPOLIS — Thirty-seven college students will appear in court today on charges stemming from what one policeman termed a "regular orgy" at a well-known downtown hotel.

The defendants, 22 males and 15 females, were arrested early Sunday when police raided a fraternity dance and rooms at the Claypool Hotel because of noisy conduct.

"What they had was a regular orgy," said Robert Gigure, a vice squad patrolman. "We would have had to get a pickup truck to haul all the beer cans away."

Their Attire Scanty

The officer said one student, dressed only in shorts, was arrested as he chased a coed down a hallway. Several coeds were dressed only in negligees.

The charges included entering the bedroom of a member of the opposite sex, disorderly conduct, public indecency, underage drinking and larceny.

One student was seized with a neon telephone sign taken from the hotel lobby.

The male students and their dates were attending an annual statewide undergraduate meeting of Phi Delta Theta social fraternity.

Police said about 600 students were attending the convention. The defendants are students at Indiana, Purdue and DePauw universities and Wabash and Hanover colleges.

Police Stop Dance

An excise officer said he found students drinking at the fraternity's dance. He called police who stopped the dance on the mezzanine and then heard

loud noise from upper floors of the hotel.

Gigure said beer cans and bottles were being thrown out of hotel windows onto Washington Street, which carries U.S. 40 traffic through the heart of Indianapolis.

Tracing the noise from room to room, police made the arrests.

Free Under Bond

It took two hours and a dozen paddy wagon trips to take the young people to jail, where they spent several hours until bonds were made. All were released on bond by Sunday night.

One of the coeds commented: "That's what I always wanted, a criminal police record. A good thing to tell your kids, 'I spent the night in the pokie, picked up on sex charges', That slays me."

One man bailing his daughter out of jail said, "I thought she had been in an accident when police called. Thank God it's only this."

FAMILIES SPEAK UP: Hope for Easier Penalty in Sinatra Kidnap

LOS ANGELES — Families of two young men sentenced to life in prison for kidnaping Frank Sinatra Jr. hope the sentence will be reduced and attorneys for all three defendants say they'll appeal the convictions.

The families and attorneys contend the jury was wrong.

Attorney George Forde, after speaking to the family of 23-year-old Joseph Amsler, said:

"They told me the verdict was wrong — that it doesn't change their views, and that the sentences were so excessive as to be beyond the sense of reality."

Abducted From Motel

The other two defendants were Barry Keenan, also-23, and John Irwin, 42. Keenan and Amsler, who abducted the 20-year-old singer from a Lake Tahoe, Calif., motel Dec. 8, were convicted Saturday on all six counts of a federal grand jury indictment.

They were both sentenced to life imprisonment plus 75 years, but first will undergo psychiatric examination. Federal Judge

William G. East, in sentencing the pair Saturday, said their prison terms may be modified after the tests are completed in about 90 days as the Federal Medical Facility in Springfield, Mo.

Await Probation Report

Irwin's sentencing was postponed pending completion of a probation report. He was convicted on five counts, could serve 75 years in prison. He was acquitted of taking part in the actual abduction, for which the others got life terms.

The defense throughout the trial maintained the kidnaping was a publicity stunt and that young Sinatra knew about it in advance. The jury rejected the hoax claim.

Young Sinatra was released Dec. 11 near his mother's Bel Air home after his famed father paid \$240,000 ransom in small bills. The three defendants were arrested a few days later by the FBI.

Young Sinatra, after learning of the verdict, said, "The whole

business is over with. Let's get it."

Frank Sinatra Sr. said: "The jury has rendered a verdict and we are happy they and the court were not misled by the false statements made during the trial."

"We hope this will put to what was a very painful incident in our lives."

State Rep. H. L. Dammerman of Lincoln, speaking before the Electrical Workers Local No. 146 Thursday night in Decatur, explained some of the duties of a state legislator and elaborated on his decision to seek the office of state senator. He said in part—

"I have not been an enemy of labor, I have supported labor to the extent that they endorsed me and reendorsed me for public office. They gave me their highest award, which is four flags. They did this because they know that I have been fair to them and the people I represent.

"A great deal has been said because I failed to vote for the dollar minimum wage bill and at the same time voted for a raise for legislators. I am opposed to a dollar minimum wage bill because we already have a federal minimum wage law and because such legislation would make it impossible for anyone to hire even a babysitter or the boy next

Settlement 'No Closer'

The strike at the Cutler-Hammer plant here, soon to mark its fourth-month anniversary, appears no closer to settlement than when the members of Lodge 1165, International Machinists Union, voted to strike Nov. 15. Company and union officials met Friday in the council chambers at city hall but accomplished nothing towards ending the strike which effects 250 production workers at the plant.

Following Friday's talks, Ross Jones, president of the local union, issued a release which stated that the 221 members of Lodge 1165 are "fighting for a principle of deep importance to organized labor and for all employees." "While there are three or four unresolved issues in the dispute, the central and key issue is the company's attempt to drastically change the arbitration clause in the contract," Jones said. He stated the heart of the dispute is over the company's insistence that "arbitrators decisions not be final and binding, but subject to the courts."

Plant Manager Charles J. Doria said no arrangements have been made for further negotiations and that it would be up to Federal Conciliator Francis Sheridan of Peoria to fix the date for another session.

Doria stated Saturday the plant will continue to hire replacements for union members now on strike, stating that 50 employees have been hired in the past two weeks.

Comments on the disputed arbitration clause, the paper manager argued that it is the key to settlement and declared the union was "permanently unwilling to agree to arbitration changes which are similar to those included in contracts signed by the machinist union at Westinghouse and General Electric."

McCarthy Favors Expanding Junior College System

State Senator Robert W. McCarthy (D-Lincoln), in addressing the Decatur Trades and Labor Assembly Thursday, stated his approval of an expansion of the Junior College system throughout the State of Illinois. McCarthy in his address to the labor organization said, "We in Illinois are faced with the gigantic task of providing higher education to students, finishing high school who wish to prepare themselves for our complex society. The cost to the public and to the family of sending the students to the conventional State Universities could be reduced by the expansion of the Junior College system in areas where the population requires the same."

The Senator further stated the Junior College administration should be controlled by the State of Illinois and the cost thereof borne by the State of Illinois.

"This is necessary for the cost of educating children from kindergarten through grade twelve is based on real estate and personal property taxes which have reached a point of saturation."

In outlining the function of Junior Colleges, McCarthy said, "It is my opinion that the Legislature and the authorities in the field of higher education want an expansion of the Junior College program to provide two services: 1. To give a two year technical course to students who wish for formal education with the technical and vocational training received in the Junior Colleges. 2. The provide an academic base for students who are unable to bear the cost of living away from home."

WASHINGTON (U. S. — Illinois, while recording a slight decline, was one of four states in the nation last year in which cash receipts from farm marketings exceeded \$2 billion.

The state remained fourth, behind California, Iowa and Texas. Illinois' total was \$2,183,957,000 against \$2,197,473,000 in 1962.

Farmers in Illinois had realized a net income per farm of \$4,527 in 1963, a 6½ per cent drop from the previous year.

The Agriculture Department gives these figures in a report covering the farm income situation on a national scale.

It had this to say about the Illinois picture:

Mrs. Smith told a women's group that she campaigned in last week's primary because "I thought people wanted a third choice."

"For Same Reason"

"I'm in Illinois for the same reason," she said.

She said that although Lodge did have a behind the scenes campaign in New Hampshire, his victory proved that a candidate "doesn't need a huge paid organization to win."

"I'm conducting a political experiment," Mrs. Smith said. "I have no time to campaign, no money and no organization."

During her two days of Chicago area campaigning, Mrs. Smith shook hands and greeted thousands of persons. Wearing a navy blue dress and hat, she visited college campuses, shopping centers, a flower show and a host of teas and parties.

Irish Parade on New York's Fifth Avenue

NEW YORK (U) — Today was the day for the wearin' of the green on Fifth Avenue—either out of loyalty to the Old Sod or to avoid the wrath of an outraged Irishman.

As it has for decades, the city turned Fifth Avenue over to the sons of Erin for their annual parade in honor of their patron saint—Patrick.

Some 150,000 paraders—most of them of Irish ancestry, but more than a few turned Irish just for the day—were on call for the parade, one of the most colorful St. Patrick's Day observances in the world.

From all walks of life they came to strut up the famed ave-

nue past the Catholic cathedral bearing the saint's name, and to attend a dinner tonight capping the day's activities.

President Johnson will fly here for the annual dinner.

The President is scheduled to reach the Waldorf-Astoria Hotel shortly before 6:30 p.m.

After addressing the Friendly Sons of St. Patrick, he will fly by helicopter from the Wall Street landing pad in downtown Manhattan to Kennedy International Airport.

He is due to leave the airport

by presidential jet at 10:30 p.m., arriving at Andrews Air Force Base at 11:20 p.m., and at the White House—via helicopter—15 minutes later.

200 Register On Final Day

County Clerk Leonard McCann reports that Monday, final day for registering for the April 11 school elections and April 14 primary election, was the largest day for registering in the 10 years that he has been in the office.

McCann said that more than 200 persons registered or change registration on the final day. The Clerk attributed much of the heavy registration to the fact that, for the first time, residents must be registered voters to vote in school elections.

Zimmerman said the two would be returned to this county later today.

Clay---

(Continued from page 1)

In New York, Clay said he first heard the news of his rejection by the Army in a telephone call from his mother. "It's the Army's decision," he said from his quarters in a Harlem hotel. "The Army's the boss. I don't want to say anything about it."

He said he would like to have another fight within the next three or four months.

He was asked if he wanted to meet Sonny Liston, the man from whom he wrestled the crown at Miami Beach on Feb. 25.

"If He's Ready"

"If he's ready, I'll meet him," Clay replied. "I'll meet any qualified contender."

He listed three others — Ernie Terrell, Doug Jones and Eddie Machen — as qualified.

When newsmen first queried Clay about the Washington announcement, the champion said:

"Don't call me Cassius Clay any more. I am Muhammad Ali, the heavyweight champion of the whole world."

This was in reference to his new designation as a member of the Black Muslim group.

Demos Flayed by Supt. Ray Page's Brother

Harry Page, director of school-community public relations in the state superintendent of public instruction office, blasted the Democrats for "leading us down the road towards socialism" and predicted a Republican victory at all levels in the fall elections, while speaking at a combined meeting of the Logan county regular Republican and Young Republican organizations at the Knights of Columbus hall Thursday night.

The brother of the state superintendent of public instruction took pot shots at various Demo national programs, calling the

civil-rights issue nothing but "political football", and describing the tax cut as "borrowing from Peter to pay Paul", adding that he wanted taxes cut as much as anyone but not when it threatened the security of this country.

Gov. Kerner Accused

Page accused Illinois Gov. Otto Kerner of buying votes with public aid. He stated that Kerner had gotten Illinois national publicity by vetoing the reapportionment bill in that "the entire country is now laughing at Illinois."

Asserting that capitalism is the

reason the United States has achieved greatness, he called the Republican party the "true party of capitalism."

Page, wearing a large "Scott for Governor" button on his lapel, said he was not going to tell anyone how to vote in the primary election, that they could vote the way they wanted to, which is "true Republicanism."

Jim LaMothe, president of the Logan Young GOP, presided and introduced local candidates. LaMothe announced the Young Republican organization will sponsor a dance April 11 at the Elks Country club.

A potluck supper preceded the speaking.

Tax Cut Aiding Easter Season Business in U.S.

NEW YORK (AP) — Easter buying appears headed for a record, helped by a boost from the income tax cut.

Mrs. May Baker Funeral Friday

WAYNESVILLE — Mrs. May Baker, 71, died at 4:50 a.m., Wednesday in the Clinton hospital. The body is at Pullen and Boos Funeral Home and friends may call there after 3 p.m., Thursday.

Services will be at 1:30 p.m., Friday from the funeral home with the Rev. Milton Marsh officiating. Burial will be in Evergreen cemetery here.

The decedent was born near Waynesville June 4, 1892, the daughter of William and Anna Davis Grant. She was married to Samuel Baker and he preceded her in death.

She leaves two daughters, Mrs. Mamie Sommers and Mrs. Lucinda Underwood of Waynesville; two sisters, Mrs. Mamie Hull of Clinton and Mrs. Viola Webb of Decatur and 11 grandchildren.

Merchants say most of the effect of the tax reduction is psychological because taxpayers haven't realized much as yet in the way of savings.

Shopping got off to a rather fast start because Easter falls so early this year, and was reported picking up steam as the holiday approached.

Hampered by Weather

In New York, J. Gordon Dakins, executive secretary of the National Retail Merchants Association, said reports from around the country indicated a 5 percent gain over last year although snows, floods and tornadoes hampered shopping in some areas.

Dakins said the tax cut was one element making it possible to sell more goods. People have fewer worries and more confidence in the future, he said, and are spending accordingly.

Most of the money, as usual, is going into apparel for the Easter parades.

Survey Shows Trend

An Associated Press survey of major cities indicated the buying trend is up in most areas.

"On a day-for-day basis we are beating sales recorded the same number of days before Easter last year," said Geoffrey Swaeb, president of the May Co. department stores of Los Angeles.

"We are looking forward to the impact of the tax cut being very good."

MCCARTHY AND S-M'S — Doing considerable stumping in behalf of State Sen. Robert W. McCarthy's (seated) bid for the Democrat nomination and reelection to the state senate from the 28th district are his 3-M Squad members, his wife, Mary, standing, center, and sisters, Mrs. Edward Miglieliez, left, and Mrs. William L. McCormick, right. They are distinguished by dresses worn by each which carry the words, "McCarthy for Senator" in six different spots.

Mrs. McCarthy first wore her dress four years ago and had two similar ones made for McCarthy's sisters for the current campaign. Both sisters remarked that this is the first time they had taken a really active part in one of their brother's campaigns. They assist the senator in his radio and television talks or strike out alone for coffees or other functions in behalf of his vote appeal.

Recovery Trend 'Stays' In Stock Trade at N.Y.

NEW YORK — Steels and savings-and-loan holding companies were strong in a recovery stock market early this afternoon. Trading was active.

Gains of key stocks ran from fractions to a point or better. A wide assortment of losers was scattered throughout the list.

The market was hesitant and mixed in early trading, but gradually moved ahead. Buying crept in after three days of "correction" of a sustained advance to a string of record peaks.

Wide Gains for Some

Wide gains were made by some specially situated issues.

Among those were Bullock's, the big Pacific Coast retail organization, which bounded ahead about 8 points on news of a proposed merger with Federated Department Stores, which eased.

Motors, rubbers, mail order-retails, chemicals, building materials and drugs were generally higher. Rails, oils and nonferrous metals were mixed.

The savings-and-loans were strong following a news article which said they are likely to keep growing fast in spite of government restraints.

The Dow Jones industrial average at noon was up 1.11 at 812.54.

Reflected in Averages

The Associated Press average of 60 stocks at noon was unchanged at 300.3, with industrials up .2, rails off .2 and utilities off .1.

Prices were mixed in moderate trading on the American Stock Exchange.

Corporate bonds declined. U. S. government bonds were slightly higher.

Waiting List Steps Taken

A program is under way to make room for nearly 23,000 retarded persons who are awaiting placement in Lincoln and Dixon State Schools, according to Dr. Joseph Albaum, Lincoln State School superintendent. He said the program being conducted by the Department of Mental Health, Public Health and Public Aid has two facets.

One segment of the program is to place 1,500 older residents, who have received maximum benefit from the institutions, in nursing homes, licensed shelter-care homes and foster homes. This would make room for younger retardates presently on the waiting lists who can benefit from the training offered at the Lincoln and Dixon schools.

The other portion of the program is the placing of about 700 persons in the Warren G. Murray Children's Center in Centralia, which is scheduled to open in May. Dr. Albaum said that with the placement of many of the older residents outside of the institutions, the schools will be able to move from custody to training and therapy.

He pointed out, however, that no residents would be placed outside of the institutions solely for the purpose of making room for somebody on the waiting list.

He re-emphasized that the selection of residents for placement would be those who have reached the maximum benefit to be gained from institutional programs and whose physical and mental well-being is such that they will profit more from being placed in the community rather than remaining in the schools.

Driver Hurt In Collision

Maude Furkins, 1018 Delavan, was ticketed by Lincoln city police for failure to decrease speed to avoid an accident after being involved in a four-car collision at the Logan and Broadway streets intersection. Mrs. Furkins received a nose injury in the accident. The accident occurred at 4:08 p.m. Thursday.

Robert E. Ackerman, 818 N. McLean; George E. Klockenga, rural Lincoln, and John W. Palmer, Mt. Pulaski, were all stopped on Logan, waiting for the stop and go lights to change, when the car driven by Mrs. Furkins crashed into the rear of the vehicles.

Minor accidents were also reported at the police station. Robert E. Ewers, New Holland, and Helen V. Hoblit, 325 Seventh st., were driving autos involved in a 5:05 p.m. accident Thursday in the 100 block on South Kickapoo street. August Lochring, Lincoln, and Otto V. Hawk, Middletown, were driving cars which collided on Woodlawn Road at 12:40 p.m. Thursday and Wayne Bismark, Lincoln, reported that his vehicle had been hit sometime between the hours of 3:30 and 4:30 p.m. Thursday while parked in the Elm Street parking lot.

Another Session Fails Of Strike Settlement

Another fruitless afternoon was spent by Cutler-Hammer officials and members of Local 1165, International Machinists Union, Thursday in an unsuccessful attempt to end the 4½ month-old strike at the Lincoln plant.

Union officials reported the company rejected a new union offer for a three-year contract which included the following provisions: no increase in wages the first year; three per cent increase the second year and three per cent increase the third year.

The union claims this offer is better than the contract given to Cutler-Hammer employees in Milwaukee where they were given a three per cent wage increase the first year.

The chief point of dispute in the contract negotiations remains the arbitration and no-strike and lockout clauses. Union officials say they are asking for the same contract provisions on these items as offered the Milwaukee union, asserting that when the language proposed by the company on these clauses is put in the Milwaukee contract, the local union will automatically agree to

put them in the contract here.

C. J. Doria, Lincoln plant manager, said "The union's proposal Thursday was a step backwards. It was obviously a transparent subterfuge designed to cover up weakness in the union's bargaining claims."

He added that the union still could not explain why it agreed to similar arbitration changes in many other contracts, but forced a 20-week strike at Cutler-Hammer. He said that as a result of the union's position, the strike was further away from settlement than before Thursday's meeting.

No date has been set for another meeting between the two factions in the strike.

Federal mediators Francis Sheridan and Ralph Baker of Peoria attended Thursday's meeting in the council chambers of city hall.

Easter 'Christmas Snow' Blankets City of Chicago

CHICAGO (U) — A heavy snowstorm left a blanket of white across the Chicago area Easter Sunday and the wintry weather scene made the 10th day of spring look like Christmas.

The Weather Bureau, along with the city's millions, was surprised by the freak storm.

Up to nine inches of snow fell in some areas.

Most Ever Recorded

The official depth of seven inches at Midway Airport was the heaviest on record for Easter, topping the previous high of 6.4 inches set on Easter Sunday, April 4, 1920.

The usual Easter parades were missing. Women, anxious to

facetious greeting heard as thousands trudged through the deep snow to Easter church services.

The snow started shortly after sunrise and continued until late in the day.

The snowstorm concentrated chiefly on the Chicago area, before moving into the Ohio Valley.

Snow fell in other parts of Illinois and in Midwestern sections but Chicago's accumulation was the largest.

Drifted by Wind

At the height of the storm winds of more than 30 miles an hour reduced visibility to zero.

There was much drifting.

The heaviest snowfall during the past winter was 3.5 inches on

Asked if he thought it would be possible to get a closure vote to cut off the expected Senate filibuster against the bill, Johnson said: "I haven't gone into that. I think that will have to be determined after the debate. I don't know whether it will be necessary or not."

In his prepared Senate speech today, Humphrey said bipartisan backers of the civil rights bill are anxious for "full and fair debate."

The Minnesotan, assistant Democratic leader and floor manager for the bill, said "We are also willing to come to a decision on each title of the bill and on the bill itself."

"We are willing to let a majority of the Senate say 'yes' or 'no' on voting rights, public accommodations, school desegregation, equal employment opportunity and the other provisions of this legislation," he said.

Then in a direct challenge to the bill's opponents, led by Sen. Richard B. Russell, (D-Ga.), Humphrey expressed hope that they "will be equally willing to permit the Senate to work its will, after an opportunity for a searching examination and analysis of each and every provision."

from the quake's epicenter. There 11 persons died and 15 were still missing.

Anchorage, center of the Alaskan recovery effort, went soberly about its business, flinching at successive after-shocks.

Felt Easter Evening
Ong shake, felt strongly in Anchorage Easter evening, was rated at 7.3 on the Richter scale of energy by the University of Washington at Seattle, 1,500 miles away. University scientists said it was a separate quake, in the Aleutian trench 600 miles northwest of Friday's epicenter, but Anchorage felt it with jittery apprehension.

An earlier mid-afternoon shock led to a civil defense warning of a new tidal wave headed for Seward. It was called off quickly, but people who had lived through Friday evening's terror fled to high ground.

No Interruption Of Classes at San Jose High
SAN JOSE—All classes will resume at San Jose high school Tuesday despite the \$100,000 fire which damaged the school's vocational agriculture class rooms and manual arts shop.

Supt. John Halpin announced Saturday that agriculture classes will meet in other class rooms until the wing is repaired. Clean up work on the damaged wing began immediately Friday after the fire was completely extinguished.

The school's board of directors met with insurance adjusters Friday and hired Al Jost, Pekin architect who was architect when the wing was built in 1954, to draw plans for a new addition.

Cause of the blaze is still unknown, but it is believed to have started in ceiling or roof of the building.

IN ACCIDENT HERE
Clifford A. Gunter, Peoria, and Russell E. Allen, 318 Ninth st., were driving autos that collided in the 400 block on Broadway street at 6:43 p.m. Sunday. The Gunter auto was stopped for the light when the Allen auto was unable to stop on the ice and "skidded" into the other vehicle.

The Friday evening quake was rated by experts at 8.2 to 8.7 on the Richter scale. This scale, measuring the release of energy, has never before rated a quake higher than 8.5 and then only rarely and in unpopulated places.

Anchorage wholesale grocers estimated they had about a 30-day stock of essential foods on hand—mostly in wrecked warehouses, but still usable.

Electric current was being restored slowly. Many homes and buildings were without light, heat or power.

Inoculations Arranged
Drinking water had to be boiled or melted from snow. Mass typhoid inoculations were arranged.

Police, soldiers and National guardsmen, patrolling downtown Anchorage, reported no cases of attempted looting.

Workers started pulling down teetering four-ton slabs of the modernistic five-story J. C. Penney store and other dangerous ruins. Dynamiting was considered and rejected.

A civil defense official said, "It is still possible some victims are in the rubble. We might not get to some for quite a while."

Grain Meeting Tuesday Night

Grain elevator operators, grain dealers and members of cooperative grain boards have received a special invitation to attend a meeting on grain marketing and handling problems Tuesday, March 31 at 8 p.m. in the Farm Bureau building in Lincoln.

The program will be a flexible one so that many questions in regard to handling of large quantities of farm grain in the future can be answered. Gillfillan will present guidelines to use to gauge future production of farm grains, discuss the possibility of aeration, drying combinations to speed up handling of wet grain, detailed mechanics of grain handling prices and how elevators can speed up their intake and loading facilities will also be covered.

Since the program will be geared to present day problems and future needs of country elevators, Logan County Farm Adviser Harold Brinkmeier, who has arranged for the program,

Vandalism Admitted

AURORA, Ill. — A 13-year-old runaway boy seized in a store Saturday night has admitted the vandalism of an Aurora church.

Police said the boy, held for juvenile court as a delinquent, told them he broke into the Emmanuel Lutheran Church office Wednesday night and scrawled "Down with Luther" on a desk top in glue.

The youth, who was reported missing from home Wednesday, was apparently not involved in other recent instances of church vandalism, police said.

At least five other churches have been victims of pilferage and vandalism.

Chamber Men Attend River Basin Meeting

R. N. Holloway, president of the Lincoln Chamber, along with Bob Davis and Ken Fuller attended a meeting at the Jefferson Hotel in Peoria; March 27, sponsored by the Peoria Association of the Chamber of Commerce.

The purpose of the meeting was to acquaint the local people about the conditions of the Illinois River basin and the report that is being prepared to present to Congress. There will be proposed guides and goals for upgrading the water quality in the basin. This will effect all municipalities, utilities and industries that discharge waste waters.

Within the Illinois River basin are 29,000 square miles with a population of approximately 9 million people. The Great Lakes-Illinois River basin study shows that the upper portion of the Illinois Waterway is suitable only for commercial shipping and for minor cooling use. This very unsatisfactory condition exists on the Illinois Waterway from Lake Michigan to Lockport.

From Lockport to Peoria the condition of the Illinois River is improved. Below Peoria and Pekin the condition is again less satisfactory. The report also points out an unsatisfactory condition has developed on the Fox River at the Chain of Lakes in Northern Illinois. The Sangamon River in the vicinity of Decatur is also a problem area, it was declared at the meeting.
